SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

Form 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the quarterly period ended September 30, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

Commission File Number 1-14443

Gartner, Inc.

(Exact name of Registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

04-3099750
(I.R.S. Employer
Identification Number)

P.O. Box 10212
56 Top Gallant Road
Stamford, CT
(Address of principal executive offices)

06902-7700
(Zip Code)

Registrant's telephone number, including area code: (203) 316-1111

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 29, 2015, 82,856,620 shares of the registrant's common shares were outstanding.

GARTNER, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Note 1 — Business and Basis of Presentation

Business. Gartner, Inc. is a global information technology research and advisory company with its headquarters in Stamford, Connecticut. Gartner delivers its products and services globally through three business segments: Research, Consulting, and Events. When used in these notes, the terms “Gartner,” “Company,” “we,” “us,” or “our” refer to Gartner, Inc. and its consolidated subsidiaries.

Basis of presentation. The accompanying interim condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”), as defined in the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 270 for interim financial information and with the applicable instructions of the U.S. Securities & Exchange Commission (“SEC”) Rule 10-01 of Regulation S-X on Form 10-Q and should be read in conjunction with the consolidated financial statements and related notes of the Company filed in its Annual Report on Form 10-K for the year ended December 31, 2014. The fiscal year of Gartner is the twelve-month calendar period from January 1 through December 31. In the opinion of management, all normal recurring accruals and adjustments considered necessary for a fair presentation of financial position, results of operations and cash flows at the dates and for the periods presented herein have been included. The results of operations for the three and nine months ended September 30, 2015 may not be indicative of the results of operations for the remainder of 2015.

Principles of consolidation. The accompanying interim condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany transactions and balances have been eliminated.

Use of estimates. The preparation of the accompanying interim condensed consolidated financial statements requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities, and reported amounts of revenues and expenses. Such estimates include the valuation of fees receivable, goodwill, intangible assets, and other long-lived assets, as well as tax accruals and other liabilities. In addition, estimates are used in revenue recognition, income tax expense, performance-based compensation charges, depreciation and amortization, and the allowance for losses on fees receivable. Management believes its use of estimates in these interim condensed consolidated financial statements to be reasonable.

Management continually evaluates and revises its estimates using historical experience and other factors, including the general economic environment and actions it may take in the future. Management adjusts these estimates when facts and circumstances dictate. However, these estimates may involve significant uncertainties and judgments and cannot be determined with precision. In addition, these estimates are based on management’s best judgment at a point in time. As a result, differences between our estimates and actual results could be material and would be reflected in the Company’s financial statements in future periods.

Adoption of new accounting standard. On January 1, 2015, the Company adopted FASB Accounting Standards Update No. 2014-08, *Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity* (“ASU 2014-08”), which changes the criteria for determining which disposal transactions can be presented as discontinued operations and modifies related disclosure requirements. Under the new guidance, a discontinued operation is defined as a disposal of a component or group of components that is disposed of or is classified as held for sale and represents a strategic shift that has (or will have) a major effect on an entity’s operations and financial results. The adoption of the rule did not have an impact on the Company’s condensed consolidated financial statements contained in this report.

Acquisitions. During the three months ended September 30, 2015, the Company acquired two businesses, Nubera eBusiness S.L., based in Barcelona, Spain (“Nubera”), and Capterra, Inc., based in Arlington, Virginia (“Capterra”). The Company acquired 100% of the outstanding capital stock of these businesses for an aggregate purchase price of \$206.2 million in cash. Both the acquired businesses assist organizations in selecting the right business software for their needs.

The following table provides a reconciliation of the aggregate purchase price paid for these acquisitions (in millions):

	Total
Aggregate purchase price (1)	\$ 206.2
Less: cash acquired (2)	(10.7)
Net cash paid (3), (4)	\$ 195.5

(1) Aggregate cash paid for 100% of the outstanding capital stock of the acquired businesses.

(2) Represents the amount of cash from the acquired businesses.

(3) Includes \$30.0 million placed in escrow to cover potential indemnification claims. Of this amount, \$25.6 million is restricted cash and is reported in Other Assets on the Condensed Consolidated Balance Sheets.

(4) The Company may also be required to pay up to an additional \$32.0 million in cash in the future subject to the continuing employment of certain employees of these businesses. The \$32.0 million will be recognized as compensation expense over the next three years and will be reported in Acquisition and Integration Charges in the Condensed Consolidated Statements of Operations.

The Company accounts for acquisitions in accordance with the acquisition method of accounting as prescribed by FASB ASC Topic 805, *Business Combinations*. The acquisition method of accounting requires the consideration paid to be allocated to the net assets and liabilities acquired based on their estimated fair values as of the acquisition date, and any excess of the purchase price over the estimated fair value of the net assets acquired, including identifiable intangible assets, must be allocated to goodwill. The determination of the fair value of intangible and other assets requires management judgment and the consideration of a number of factors, significant among them the historical financial performance of the acquired businesses and projected performance, estimates surrounding customer turnover, as well as assumptions regarding the level of competition and the cost to reproduce certain assets. Establishing the useful lives of the amortizable intangibles also requires management judgment and the evaluation of a number of factors, among them projected cash flows and the likelihood of competition.

The Company recorded \$216.7 million of goodwill and amortizable intangible assets for these acquisitions (see Note 5 — Goodwill and Intangible Assets for additional information) and \$23.1 million of other assets and \$33.6 million of other liabilities. The Company considers the allocation of the purchase price to be preliminary with respect to the completion of the valuation of identified intangibles, certain tax and other contingencies, and the finalization of working capital adjustments, as well as the allocation of the resulting goodwill among reporting units. The Company believes the recorded goodwill is supported by the anticipated revenue synergies, customer retention, and cost savings resulting from the combined operations.

The operating results of the acquired businesses and the related goodwill are being reported in the Company's Research segment.

The Company's financial statements include the operating results of the acquired businesses beginning from their respective acquisition dates, which were not material to either the Company's consolidated operating results or Research segment results for the three and nine month periods ending September 30, 2015. Had the Company acquired these businesses in prior periods the impact to the Company's operating results for prior periods would not have been material, and as a result pro forma financial information for prior periods has not been presented.

The Company recorded \$6.5 million and \$15.3 million of charges related to its acquisitions in the three and nine months ended September 30, 2015, respectively, which are classified in Acquisition and Integration charges in the Condensed Consolidated Statements of Operations. Included in these directly-related and incremental charges are legal, consulting, retention, severance, and accruals for cash payments subject to the continuing employment of certain key employees. During the nine months ended September 30, 2015, the Company paid \$9.2 million in cash that was accrued for the achievement of certain employment conditions related to an acquisition completed in 2014.

Note 2 — Earnings per Share

The following table sets forth the calculations of basic and diluted earnings per share (in thousands, except per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Numerator:				
Net income used for calculating basic and diluted earnings per common share	\$ 30,366	\$ 33,846	\$ 109,872	\$ 124,622
Denominator:				
Weighted average number of common shares used in the calculation of basic earnings per share	82,989	88,513	84,244	89,901
Common stock equivalents associated with stock-based compensation plans (1)	1,124	1,195	1,191	1,372
Shares used in the calculation of diluted earnings per share	84,113	89,708	85,435	91,273
Basic earnings per share	\$ 0.37	\$ 0.38	\$ 1.30	\$ 1.39
Diluted earnings per share	\$ 0.36	\$ 0.38	\$ 1.29	\$ 1.37

(1) Certain common stock equivalents were not included in the computation of diluted earnings per share because the effect would have been anti-dilutive. These common share equivalents totaled less than 0.3 million in each of the periods presented.

Note 3 — Stock-Based Compensation

The Company grants stock-based compensation awards as an incentive for employees and directors to contribute to the Company's long-term success. The Company currently awards stock-settled stock appreciation rights, service-based and performance-based restricted stock units, and common stock equivalents. At September 30, 2015, the Company had a total of 7.0 million shares of its common stock, par value \$.0005 per share (the "Common Stock"), available for stock-based compensation awards under its 2014 Long-Term Incentive Plan.

The Company accounts for stock-based compensation awards in accordance with FASB ASC Topics 505 and 718, as interpreted by SEC Staff Accounting Bulletins No. 107 ("SAB No. 107") and No. 110 ("SAB No. 110"). Stock-based compensation expense is based on the fair value of the award on the date of grant, which is then recognized as expense over the related service period, net of estimated forfeitures. The service period is the period over which the related service is performed, which is generally the same as the vesting period. Currently the Company issues treasury shares upon the exercise, release or settlement of stock-based compensation awards.

Determining the appropriate fair value model and calculating the fair value of stock-based compensation awards requires the input of certain complex and subjective assumptions, including the expected life of the stock-based compensation awards and the Common Stock price volatility. In addition, determining the appropriate amount of associated periodic expense requires management to estimate the amount of employee forfeitures and the likelihood of the achievement of certain performance targets. The assumptions used in calculating the fair value of stock-based compensation awards and the associated periodic expense represent management's best estimates, which involve inherent uncertainties and the application of judgment. As a result, if factors change and the Company deems it necessary in the future to modify the assumptions it made or to use different assumptions, or if the quantity and nature of the Company's stock-based compensation awards changes, then the amount of expense may need to be adjusted and future stock-based compensation expense could be materially different from what has been recorded in the current period.

Stock-Based Compensation Expense

The Company recognized the following amounts of stock-based compensation expense by award type and expense category in the periods indicated (in millions):

Award type:	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Stock appreciation rights	\$ 1.1	\$ 1.0	\$ 4.5	\$ 3.9
Common stock equivalents	0.2	0.2	0.5	0.5
Restricted stock units	8.3	7.6	32.0	25.0
Total (1)	\$ 9.6	\$ 8.8	\$ 37.0	\$ 29.4

Amount recorded in:	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Cost of services and product development	\$ 4.5	\$ 4.0	\$ 16.1	\$ 13.5
Selling, general and administrative	5.1	4.8	20.9	15.9
Total (1)	\$ 9.6	\$ 8.8	\$ 37.0	\$ 29.4

(1) Includes charges of \$3.0 million and \$2.9 million for the three months ended September 30, 2015 and 2014, respectively, and \$17.4 million and \$12.7 million for the nine months ended September 30, 2015 and 2014, respectively, for awards to retirement-eligible employees since these awards vest on an accelerated basis.

As of September 30, 2015, the Company had \$57.7 million of total unrecognized stock-based compensation cost, which is expected to be expensed over the remaining weighted-average service period of approximately 2.3 years.

Stock-Based Compensation Awards

The following disclosures provide information regarding the Company's stock-based compensation awards, all of which are classified as equity awards in accordance with FASB ASC Topic 505:

Stock Appreciation Rights

Stock-settled stock appreciation rights (SARs) permit the holder to participate in the appreciation of the Common Stock. SARs are settled in shares of Common Stock by the employee once the applicable vesting criteria have been met. SARs vest ratably over a four-year service period and expire seven years from the grant date. The fair value of SARs awards is recognized as compensation expense on a straight-line basis over four years. SARs have only been awarded to the Company's executive officers.

When SARs are exercised, the number of shares of Common Stock issued is calculated as follows: (1) the total proceeds from the SARs exercise (calculated as the closing price of the Common Stock on the date of exercise less the exercise price of the SARs, multiplied by the number of SARs exercised) is divided by (2) the closing price of the Common Stock as reported on the New York Stock Exchange on the exercise date. The Company withholds a portion of the shares of Common Stock issued upon exercise to satisfy minimum statutory tax withholding requirements. SARs recipients do not have any stockholder rights until after actual shares of Common Stock are issued in respect of the award, which is subject to the prior satisfaction of the vesting and other criteria relating to such grants.

The following table summarizes changes in SARs outstanding during the nine months ended September 30, 2015:

	SARs (in millions)	Per Share Weighted- Average Exercise Price	Per Share Weighted- Average Grant Date Fair Value	Weighted Average Remaining Contractual Term
Outstanding at December 31, 2014	1.4	\$ 44.44	\$ 13.26	4.34 years
Granted	0.3	77.92	17.56	6.36 years
Exercised	(0.2)	36.40	—	n/a
Outstanding at September 30, 2015 (1), (2)	1.5	\$ 53.37	\$ 14.34	4.41 years
Vested and exercisable at September 30, 2015 (2)	0.7	\$ 39.38	\$ 12.48	3.19 years

(1) As of September 30, 2015, 0.8 million of the SARs outstanding were unvested. The Company expects that substantially all of these unvested awards will vest in future periods.

(2) Total SARs outstanding had an intrinsic value of \$45.4 million. SARs vested and exercisable had an intrinsic value of \$29.0 million.

The fair value of the SARs is determined on the date of grant using the Black-Scholes-Merton valuation model with the following weighted-average assumptions:

	Nine Months Ended September 30,	
	2015	2014
Expected dividend yield (1)	—%	—%
Expected stock price volatility (2)	24%	25%
Risk-free interest rate (3)	1.5%	1.3%
Expected life in years (4)	4.4	4.4

(1) The dividend yield assumption is based on the history and expectation of the Company's dividend payouts. Historically the Company has not paid cash dividends on its Common Stock.

(2) The determination of expected stock price volatility was based on both historical Common Stock prices and implied volatility from publicly traded options in the Common Stock.

(3) The risk-free interest rate is based on the yield of a U.S. Treasury security with a maturity similar to the expected life of the award.

(4) The expected life represents the Company's weighted-average estimate of the period of time the SARs are expected to be outstanding (that is, period between the service inception date and the expected exercise date).

Restricted Stock Units

Restricted stock units (RSUs) give the awardee the right to receive shares of Common Stock when the vesting conditions are met and the restrictions lapse, and each RSU that vests entitles the awardee to one common share. RSU awardees do not have any of the rights of a Gartner stockholder, including voting rights and the right to receive dividends and distributions, until the shares are released. The fair value of RSUs is determined on the date of grant based on the closing price of the Common Stock as reported by the New York Stock Exchange on that date. Service-based RSUs vest ratably over four years and are expensed on a straight-line basis over four years. Performance-based RSUs are subject to the satisfaction of both performance and service conditions, vest ratably over four years, and are expensed on an accelerated basis.

The following table summarizes the changes in RSUs outstanding during the nine months ended September 30, 2015:

	Restricted Stock Units (RSUs) (in millions)	Per Share Weighted Average Grant Date Fair Value
Outstanding at December 31, 2014	1.4	\$ 50.76
Granted (1)	0.6	78.30
Vested and released	(0.6)	47.78
Outstanding at September 30, 2015 (2), (3)	<u>1.4</u>	<u>\$ 62.65</u>

(1) The 0.6 million RSUs granted consisted of 0.3 million performance-based RSUs awarded to executives and 0.3 million service-based RSUs awarded to non-executive employees and non-management board members. The 0.3 million performance-based RSUs represents the target amount of the grant for the year, which is tied to an increase in the Company's subscription-based research contract value ("CV") for 2015. The final number of performance-based RSUs that will ultimately be awarded for 2015 ranges from 0% to 200% of the target amount, with the final number dependent on the actual increase in CV for 2015 as measured on December 31, 2015. If the specified minimum level of achievement is not met, the performance-based RSUs will be forfeited in their entirety, and any compensation expense previously recorded will be reversed.

(2) The Company expects that substantially all of the outstanding awards will vest in future periods.

(3) The weighted-average remaining contractual term of the outstanding RSUs is approximately 1.3 years.

Common Stock Equivalents

Common stock equivalents (CSEs) are convertible into Common Stock and each CSE entitles the holder to one common share. Members of our Board of Directors receive directors' fees payable in CSEs unless they opt to receive up to 50% of the fees in cash. Generally, the CSEs have no defined term and are converted into common shares when service as a director terminates unless the director has elected an accelerated release. The fair value of the CSEs awarded is determined on the date of grant based on the closing price of the Common Stock as reported by the New York Stock Exchange on that date. CSEs vest immediately and as a result are recorded as expense on the date of grant.

The following table summarizes the changes in CSEs outstanding during the nine months ended September 30, 2015:

	Common Stock Equivalents (CSEs)	Per Share Weighted Average Grant Date Fair Value
Outstanding at December 31, 2014	104,203	\$ 18.65
Granted	5,645	84.19
Converted to common shares	(4,544)	84.20
Outstanding at September 30, 2015	<u>105,304</u>	<u>\$ 19.34</u>

Employee Stock Purchase Plan

The Company has an employee stock purchase plan (the "ESP Plan") under which eligible employees are permitted to purchase Common Stock through payroll deductions, which may not exceed 10% of an employee's compensation (or \$23,750 in any calendar year), at a price equal to 95% of the closing price of the Common Stock as reported by the New York Stock Exchange at the end of each offering period. At September 30, 2015, the Company had 1.0 million shares available for purchase under the ESP Plan. The ESP Plan is considered non-compensatory under FASB ASC Topic 718, and as a result the Company does not record stock-based compensation expense for employee share purchases. The Company received \$5.6 million and \$4.0 million in cash from purchases under the ESP Plan during the nine months ended September 30, 2015 and 2014, respectively.

Note 4 — Segment Information

The Company manages its business through three reportable segments: Research, Consulting and Events. Research consists primarily of subscription-based research products, access to research inquiry, peer networking services, and membership programs. Consulting consists primarily of consulting, measurement engagements, and strategic advisory services. Events consists of various symposia, conferences, and exhibitions.

The Company evaluates segment performance and allocates resources based on gross contribution margin. Gross contribution, as presented in the table below, is defined as operating income excluding certain Cost of services and product development expenses, Selling, general and administrative expense, depreciation, amortization of intangibles, and acquisition and integration charges. Certain bonus and fringe benefit costs included in consolidated Cost of services and product development are not allocated to segment expense. The accounting policies used by the reportable segments are the same as those used by the Company. There are no intersegment revenues. The Company does not identify or allocate assets, including capital expenditures, by reportable segment. Accordingly, assets are not reported by segment because the information is not available by segment and is not reviewed in the evaluation of segment performance or in making decisions in the allocation of resources.

The following tables present operating information about the Company's reportable segments for the periods indicated (in thousands):

Three Months Ended September 30, 2015	Research	Consulting	Events	Consolidated
Revenues	\$ 396,179	\$ 74,686	\$ 29,301	\$ 500,166
Gross contribution	274,967	21,593	11,543	308,103
Corporate and other expenses				(255,629)
Operating income				\$ 52,474

Three Months Ended September 30, 2014	Research	Consulting	Events	Consolidated
Revenues	\$ 365,334	\$ 82,300	\$ 23,306	\$ 470,940
Gross contribution	251,113	24,774	6,946	282,833
Corporate and other expenses				(233,442)
Operating income				\$ 49,391

Nine Months Ended September 30, 2015	Research	Consulting	Events	Consolidated
Revenues	\$ 1,162,987	\$ 239,814	\$ 116,487	\$ 1,519,288
Gross contribution	811,877	81,175	53,427	946,479
Corporate and other expenses				(760,103)
Operating income				\$ 186,376

Nine Months Ended September 30, 2014	Research	Consulting	Events	Consolidated
Revenues	\$ 1,071,943	\$ 260,059	\$ 105,460	\$ 1,437,462
Gross contribution	745,477	91,347	44,141	880,965
Corporate and other expenses				(690,643)
Operating income				\$ 190,322

The following table provides a reconciliation of total segment gross contribution to net income for the periods indicated (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Total segment gross contribution	\$ 308,103	\$ 282,833	\$ 946,479	\$ 880,965
Costs and expenses:				
Cost of services and product development - unallocated (1)	1,539	(48)	9,050	5,561
Selling, general and administrative	236,355	217,025	703,868	640,179
Depreciation and amortization	11,247	10,450	31,922	28,888
Acquisition and integration charges	6,488	6,015	15,263	16,015
Operating income	52,474	49,391	186,376	190,322
Interest expense and other	682	2,943	10,832	7,927
Provision for income taxes	21,426	12,602	65,672	57,773
Net income	\$ 30,366	\$ 33,846	\$ 109,872	\$ 124,622

(1) The unallocated amounts consist of certain bonus and related fringe costs recorded in Consolidated cost of services and product development expense that are not allocated to segment expense. The Company's policy is to only allocate bonus and related fringe charges to segments for up to 100% of the segment employee's target bonus. Amounts above 100% are absorbed by corporate.

Note 5 — Goodwill and Intangible Assets

Goodwill

Goodwill represents the excess of the purchase price of acquired businesses over the estimated fair value of the tangible and identifiable intangible net assets acquired. The evaluation of the recoverability of goodwill is performed in accordance with FASB ASC Topic 350, which requires an annual assessment of potential goodwill impairment at the reporting unit level and whenever events or changes in circumstances indicate that the carrying value of goodwill may not be recoverable. The annual assessment of the recoverability of recorded goodwill can be based on either a qualitative or quantitative assessment or a combination of the two. Both methods utilize estimates which in turn require judgments and assumptions regarding future trends and events. As a result, both the precision and reliability of the resulting estimates are subject to uncertainty.

The Company conducted a quantitative assessment of the fair value of its reporting units as of September 30, 2015 based in part on the demonstrated historical trend of the fair values of the Company's reporting units substantially exceeding their carrying values and the Company's recent financial performance. Among the factors included in the Company's assessment were general economic conditions and the competitive environment; actual and projected reporting unit financial performance; forward-looking business measurements; and external market assessments. Based on the results of the assessment, the Company believes the fair values of its reporting units continue to exceed their respective carrying values.

The following table presents changes to the carrying amount of goodwill by reportable segment during the nine months ended September 30, 2015 (in thousands):

	Research	Consulting	Events	Total
Balance, December 31, 2014 (1)	\$ 445,460	\$ 99,417	\$ 41,788	\$ 586,665
Additions due to acquisitions (2)	144,716	—	—	144,716
Foreign currency translation adjustments	(6,794)	(531)	(106)	(7,431)
Balance, September 30, 2015	\$ 583,382	\$ 98,886	\$ 41,682	\$ 723,950

(1) The Company does not have any accumulated goodwill impairment losses.

(2) Includes \$126.6 million and \$18.1 million of goodwill resulting from the Capterra and Nubera acquisitions, respectively. See Note 1 — Business and Basis of Presentation for additional information regarding the acquisitions.

Amortizable Intangible Assets

The following tables present reconciliations of the carrying amounts of amortizable intangible assets as of the dates indicated (in thousands):

September 30, 2015	Trade Name	Customer Relationships	Content	Software	Non-Compete	Total
Gross cost, December 31, 2014	\$ 6,924	\$ 27,933	\$ 3,560	\$ 6,569	\$ 9,272	\$ 54,258
Additions due to acquisitions (1)	2,720	42,420	12,570	3,470	10,770	71,950
Intangibles fully amortized	(6,013)	(7,210)	—	—	—	(13,223)
Foreign currency translation impact and other minor adjustments	(12)	(432)	(92)	(1,292)	69	(1,759)
Gross cost	3,619	62,711	16,038	8,747	20,111	111,226
Accumulated amortization (2), (3)	(407)	(6,477)	(2,941)	(2,286)	(2,941)	(15,052)
Balance, September 30, 2015	\$ 3,212	\$ 56,234	\$ 13,097	\$ 6,461	\$ 17,170	\$ 96,174

December 31, 2014	Trade Name	Customer Relationships	Content	Software	Non-Compete	Total
Gross cost	\$ 6,924	\$ 27,933	\$ 3,560	\$ 6,569	\$ 9,272	\$ 54,258
Accumulated amortization (2), (3)	(6,202)	(11,072)	(2,246)	(2,603)	(1,446)	(23,569)
Balance, December 31, 2014	\$ 722	\$ 16,861	\$ 1,314	\$ 3,966	\$ 7,826	\$ 30,689

(1) Includes \$63.1 million and \$8.8 million of amortizable intangible assets resulting from the Capterra and Nubera acquisitions, respectively. See Note 1 — Business and Basis of Presentation for additional information regarding the acquisitions.

(2) Intangible assets are being amortized against earnings over the following periods: Trade name—2 to 5 years; Customer relationships—4 to 7 years; Content—1.5 to 4 years; Software—3 years; Non-competes—4 to 5 years.

(3) Aggregate amortization expense related to intangible assets was \$2.7 million and \$2.5 million for the three months ended September 30, 2015 and 2014, respectively, and \$7.0 million and \$5.8 million for the nine months ended September 30, 2015 and 2014.

The estimated future amortization expense by year from amortizable intangibles is as follows (in thousands):

2015 (remaining three months)	\$ 5,557
2016	21,519
2017	19,823
2018	18,092
2019	14,652
2020	11,107
2021	5,424
	<u>\$ 96,174</u>

Note 6 — Debt

2014 Credit Agreement

The Company has a \$1.5 billion credit arrangement (the “2014 Credit Agreement”) that provides for a five-year, \$400.0 million term loan and a \$1.1 billion revolving credit facility. In addition, the 2014 Credit Agreement contains an expansion feature by which the term loan and revolving credit facility may be increased, at the Company’s option and under certain conditions, by up to an additional \$500.0 million in the aggregate.

The term loan will be repaid in 16 consecutive quarterly installments which commenced on March 31, 2015, plus a final payment due in December 2019, and may be prepaid at any time without penalty or premium (other than applicable breakage costs) at the

Company's option. The revolving credit facility may be used for loans, and up to \$40.0 million may be used for letters of credit. The revolving loans may be borrowed, repaid and re-borrowed until December 2019, at which time all amounts borrowed must be repaid.

Amounts borrowed under the 2014 Credit Agreement bear interest at a rate equal to, at Gartner's option, either:

(1) the greater of: (i) the administrative agent's prime rate; (ii) the average rate on overnight federal funds plus 1/2 of 1%; (iii) the eurodollar rate (adjusted for statutory reserves) plus 1%, in each case plus a margin equal to between 0.125% and 0.50% depending on Gartner's consolidated leverage ratio as of the end of the four consecutive fiscal quarters most recently ended; or

(2) the eurodollar rate (adjusted for statutory reserves) plus a margin equal to between 1.125% and 1.50%, depending on Gartner's leverage ratio as of the end of the four consecutive fiscal quarters most recently ended.

The 2014 Credit Agreement contains certain customary restrictive loan covenants, including, among others, financial covenants requiring a maximum leverage ratio, a minimum interest expense coverage ratio, and covenants limiting Gartner's ability to incur indebtedness, grant liens, make acquisitions, be acquired, dispose of assets, pay dividends, repurchase stock, make capital expenditures, make investments and enter into certain transactions with affiliates. As of September 30, 2015, the Company was in full compliance with the loan covenants. The Company's total outstanding borrowings were as follows (in thousands):

Description:	Balance September 30, 2015	Balance December 31, 2014
Term loans (1)	\$ 385,000	\$ 400,000
Revolver loans (1), (2)	450,000	—
Other (3)	5,000	5,000
Total (4)	<u>\$ 840,000</u>	<u>\$ 405,000</u>

(1) The contractual annualized interest rates as of September 30, 2015 on the term loan and the revolver ranged from 1.57% to 1.63%, which consisted of a floating eurodollar base rate ranging from 0.19% to 0.25% plus a margin of 1.38%. However, the Company has interest rate swap contracts which convert the floating eurodollar base rates to a fixed base rate on \$700.0 million of borrowings (see below).

(2) The Company had \$645.6 million of available borrowing capacity on the revolver (not including the expansion feature) as of September 30, 2015.

(3) Consists of a \$5.0 million State of Connecticut economic development loan with a 3.00% fixed rate of interest. The loan was originated in 2012 and has a 10 years maturity. Principal payments are deferred for the first five years and the loan may be repaid at any point by the Company without penalty. The loan has a principal forgiveness provision in which up to \$2.5 million of the loan may be forgiven if the Company meets certain employment targets during the first five years of the loan.

(4) The average annual effective rate on the Company's total debt outstanding for the nine months ended September 30, 2015, including the effect of the swaps, was approximately 2.77%.

Interest Rate Swaps

The Company has three fixed-for-floating interest rate swap contracts which it designates as accounting hedges of the forecasted interest payments on \$700.0 million of the Company's variable rate borrowings. The Company pays base fixed rates on these swaps ranging from 1.53% to 1.60% and in return receives a floating eurodollar base rate on \$700.0 million of 30 day notional borrowings.

The Company accounts for the interest rate swaps as cash flow hedges in accordance with FASB ASC Topic 815. Since the swaps hedge forecasted interest payments, changes in the fair value of the swaps are recorded in accumulated other comprehensive loss, a component of equity, as long as the swaps continue to be highly effective hedges of the designated interest rate risk. Any ineffective portion of change in the fair value of the hedges is recorded in earnings. All of the swaps were highly effective hedges of the forecasted interest payments as of September 30, 2015. The interest rate swaps had a total negative fair value to the Company of \$13.7 million at September 30, 2015, which is deferred and classified in accumulated other comprehensive loss, net of tax effect.

Letters of Credit

The Company had \$9.1 million of letters of credit and related guarantees outstanding at September 30, 2015. The Company enters into these instruments in the ordinary course of business to facilitate transactions with customers and others.

Note 7 — Equity

Share Repurchase Program

We have a \$1.2 billion board approved authorization to repurchase the Company's common stock. The Company may repurchase its common stock from time to time in amounts and at prices the Company deems appropriate, subject to the availability of stock, prevailing market conditions, the trading price of the stock, the Company's financial performance and other conditions. Repurchases may be made through open market purchases, private transactions or other transactions and will be funded from cash on hand and borrowings under the Company's credit agreement.

The Company's recent share repurchase activity is presented in the following table:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Number of shares repurchased (1)	210,012	1,124,117	5,538,612	5,350,915
Cash paid for repurchased shares (in thousands) (2)	\$ 11,558	\$ 79,678	\$ 453,000	\$ 387,126

(1) The average purchase price for shares was \$83.79 and \$82.40 for the three and nine months ended September 30, 2015, respectively, and \$72.94 and \$70.67 for the three and nine months ended September 30, 2014, respectively.

(2) The cash paid for the nine months ended September 30, 2015 includes \$2.7 million for share repurchase transactions that occurred in late December 2014 that were paid in early January 2015.

Accumulated Other Comprehensive (Loss) Income ("AOCL/I")

The following tables disclose information about changes in AOCL/I by component and the related amounts reclassified out of AOCL/I to income during the periods indicated (net of tax, in thousands) (1):

For the three months ended September 30, 2015:

	Interest Rate Swaps	Defined Benefit Pension Plans	Foreign Currency Translation Adjustments	Total
Balance – June 30, 2015	\$ (2,410)	\$ (5,922)	\$ (27,285)	\$ (35,617)
Changes during the period:				
Change in AOCL before reclassifications to income	(7,457)	—	(7,900)	(15,357)
Reclassifications from AOCL to income during the period (2), (3)	1,647	53	—	1,700
Other comprehensive (loss) income for the period	(5,810)	53	(7,900)	(13,657)
Balance – September 30, 2015	\$ (8,220)	\$ (5,869)	\$ (35,185)	\$ (49,274)

For the three months ended September 30, 2014:

	Interest Rate Swap	Defined Benefit Pension Plans	Foreign Currency Translation Adjustments	Total
Balance – June 30, 2014	\$ (2,922)	\$ (1,782)	\$ 14,657	\$ 9,953
Changes during the period:				
Change in AOCI before reclassifications to income	(1)	—	(12,588)	(12,589)
Reclassifications from AOCI to income during the period (2), (3)	620	15	—	635
Other comprehensive (loss) income for the period	619	15	(12,588)	(11,954)
Balance – September 30, 2014	<u>\$ (2,303)</u>	<u>\$ (1,767)</u>	<u>\$ 2,069</u>	<u>\$ (2,001)</u>

For the nine months ended September 30, 2015 :

	Interest Rate Swaps	Defined Benefit Pension Plans	Foreign Currency Translation Adjustments	Total
Balance – December 31, 2014	\$ (1,740)	\$ (6,028)	\$ (13,402)	\$ (21,170)
Changes during the period:				
Change in AOCL before reclassifications to income	(9,910)	—	(21,783)	(31,693)
Reclassifications from AOCL to income during the period (2), (3)	3,430	159	—	3,589
Other comprehensive (loss) income for the period	(6,480)	159	(21,783)	(28,104)
Balance – September 30, 2015	<u>\$ (8,220)</u>	<u>\$ (5,869)</u>	<u>\$ (35,185)</u>	<u>\$ (49,274)</u>

For the nine months ended September 30, 2014:

	Interest Rate Swap	Defined Benefit Pension Plans	Foreign Currency Translation Adjustments	Total
Balance – December 31, 2013	\$ (3,903)	\$ (1,811)	\$ 14,059	\$ 8,345
Changes during the period:				
Change in AOCI before reclassifications to income	(236)	—	(11,990)	(12,226)
Reclassifications from AOCI to income during the period (2), (3)	1,836	44	—	1,880
Other comprehensive (loss) income for the period	1,600	44	(11,990)	(10,346)
Balance – September 30, 2014	<u>\$ (2,303)</u>	<u>\$ (1,767)</u>	<u>\$ 2,069</u>	<u>\$ (2,001)</u>

(1) Amounts in parentheses represent debits (deferred losses).

(2) The reclassifications related to interest rate swaps (cash flow hedges) were recorded in Interest expense, net of tax effect. See Note 9 – Derivatives and Hedging for information regarding the hedges.

(3) The reclassifications related to defined benefit pension plans were recorded in Selling, general and administrative expense, net of tax effect. See Note 11 – Employee Benefits for information regarding the Company's defined benefit pension plans.

Note 8 — Income Taxes

The provision for income taxes was \$21.4 million for the three months ended September 30, 2015 compared to \$12.6 million in the three months ended September 30, 2014. The effective income tax rate was 41.4% for the three months ended September 30, 2015 and 27.1% for the same period in 2014. The quarter-over-quarter increase in the effective income tax rates was primarily due to decreases in foreign tax credit benefits, increases in non-deductible expenses relating to acquisitions, and an estimated greater percentage of 2015 pretax income being earned in higher tax countries.

The provision for income taxes was \$65.7 million for the nine months ended September 30, 2015 compared to \$57.8 million in the nine months ended September 30, 2014. The effective income tax rate was 37.4% for the nine months ended September 30, 2015 and 31.7% for the same period in 2014. The increase in the effective income tax rate was similarly due to decreases in foreign tax credit benefits, increases in non-deductible expenses relating to acquisitions, and an estimated greater percentage of 2015 pretax income being earned in higher tax countries.

As of September 30, 2015 and December 31, 2014, the Company had gross unrecognized tax benefits of \$22.8 million and \$20.6 million, respectively. It is reasonably possible that these gross unrecognized tax benefits will decrease by approximately \$1.4 million within the next 12 months due to the anticipated closure of audits and the expiration of certain statutes of limitation. These unrecognized tax benefits relate primarily to the utilization of tax attributes, as well as certain other unrecognized tax positions, each of which are individually insignificant.

In the three months ended September 30, 2015, Gartner favorably settled a state income tax audit, freeing up certain tax credits which the Company had expected to utilize against its income tax liability. Because of the favorable settlement, credits would have expired unutilized, therefore the Company has sold credits to avoid this outcome. As a result, the tax provision for the three and nine months ended September 30, 2015 includes a benefit for the audit settlement offset by an expense for the reduction for the tax credits, and Other income (expense) includes a pre-tax gain of \$5.4 million for the sale of the credits.

In July 2015, the United States Tax Court (the "Court") issued an opinion relating to the treatment of stock-based compensation expense in an inter-company cost-sharing arrangement. In its opinion, the Court held that affiliated companies may exclude stock-based compensation expense from their cost-sharing arrangement. Because of uncertainty related to the final resolution of this litigation and the recognition of potential benefits to the Company, the Company has not recorded any financial benefit associated with this decision. The Company will monitor developments related to this case and the potential impact of those developments on the Company's current and future financial statements.

Note 9 — Derivatives and Hedging

The Company enters into a limited number of derivative contracts to offset the potentially negative economic effects of interest rate and foreign exchange movements. The Company accounts for its outstanding derivative contracts in accordance with FASB ASC Topic 815, which requires all derivatives, including derivatives designated as accounting hedges, to be recorded on the balance sheet at fair value. The following tables provide information regarding the Company's outstanding derivatives contracts as of the dates indicated (in thousands, except for number of outstanding contracts):

September 30, 2015

Derivative Contract Type	Number of Outstanding Contracts	Notional Amounts	Fair Value Asset (Liability), Net (3)	Balance Sheet Line Item	Unrealized Loss Recorded in OCI
Interest rate swaps (1)	3	\$ 700,000	\$ (13,700)	Accrued and Other liabilities	\$ (8,220)
Foreign currency forwards (2)	21	11,600	(67)	Accrued liabilities	—
Total	24	\$ 711,600	\$ (13,767)		\$ (8,220)

December 31, 2014

Derivative Contract Type	Number of Outstanding Contracts	Notional Amounts	Fair Value Asset (Liability), Net (3)	Balance Sheet Line Item	Unrealized Loss Recorded in OCI
Interest rate swaps (1)	1	\$ 200,000	\$ (2,900)	Other liabilities	\$ (1,740)
Foreign currency forwards (2)	77	45,650	238	Accrued liabilities	—
Total	78	\$ 245,650	\$ (2,662)		\$ (1,740)

(1) The swaps have been designated and are accounted for as cash flow hedges of the forecasted interest payments on borrowings. As a result, changes in fair value of the swaps are deferred and are recorded in AOCL, net of tax effect (see Note 6 — Debt for additional information).

(2) The Company has foreign exchange transaction risk since it typically enters into transactions in the normal course of business that are denominated in foreign currencies that differ from the local functional currency. The Company enters into short-term foreign currency forward exchange contracts to offset the economic effects of these foreign currency transaction risks. These contracts are accounted for at fair value with realized and unrealized gains and losses recognized in Other expense, net since the Company does not designate these contracts as hedges for accounting purposes. All of the contracts outstanding at September 30, 2015 matured by the end of October 2015.

(3) See Note 10 — Fair Value Disclosures for the determination of the fair value of these instruments.

At September 30, 2015, all of the Company's derivative counterparties were investment grade financial institutions. The Company did not have any collateral arrangements with its derivative counterparties, and none of the derivative contracts contained credit-risk related contingent features.

The following table provides information regarding amounts recognized in the Condensed Consolidated Statements of Operations for derivative contracts for the periods indicated (in thousands):

Amount recorded in:	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Interest expense, net (1)	\$ 2,762	\$ 1,034	\$ 6,094	\$ 3,059
Other expense (income), net (2)	(369)	(12)	74	(110)
Total expense, net	\$ 2,393	\$ 1,022	\$ 6,168	\$ 2,949

(1) Consists of interest expense from interest rate swap contracts.

(2) Consists of realized and unrealized gains and losses on foreign currency forward contracts.

Note 10 — Fair Value Disclosures

The Company's financial instruments include cash equivalents, fees receivable from customers, accounts payable, and accruals which are normally short-term in nature. The Company believes the carrying amounts of these financial instruments reasonably approximate their fair value due to their short-term nature. The Company's financial instruments also include its outstanding borrowings. The Company believes the carrying amount of the outstanding borrowings reasonably approximates their fair value since the rate of interest on the borrowings reflect current market rates of interest for similar instruments with comparable maturities.

The Company enters into a limited number of derivatives transactions but does not enter into repurchase agreements, securities lending transactions, or master netting arrangements. Receivables or payables that result from derivatives transactions are recorded gross in the Company's Consolidated Balance Sheets.

FASB ASC Topic 820 provides a framework for the measurement of fair value and a valuation hierarchy based upon the transparency of inputs used in the valuation of assets and liabilities. Classification within the hierarchy is based upon the lowest level of input that is significant to the resulting fair value measurement. The valuation hierarchy contains three levels. Level 1 measurements consist of quoted prices in active markets for identical assets or liabilities. Level 2 measurements include significant other observable inputs such as quoted prices for similar assets or liabilities in active markets; identical assets or liabilities in inactive markets; observable inputs such as interest rates and yield curves; and other market-corroborated inputs. Level 3 measurements include significant unobservable inputs, such as internally-created valuation models. The Company does not currently utilize Level 3 valuation inputs to remeasure any of its assets or liabilities. However, level 3 inputs may be used by the Company in its required annual impairment review of goodwill. Information regarding the periodic assessment of the Company's goodwill is included in Note 5 — Goodwill and Intangible Assets. The Company does not typically transfer assets or liabilities between different levels of the fair value hierarchy.

The Company's assets and liabilities that are remeasured to fair value are presented in the following table (in thousands):

Description:	Fair Value September 30, 2015	Fair Value December 31, 2014
Assets:		
Values based on Level 1 inputs:		
Deferred compensation plan assets (1)	\$ 7,759	\$ 7,650
Total Level 1 inputs	\$ 7,759	\$ 7,650
Values based on Level 2 inputs:		
Deferred compensation plan assets (1)	\$ 25,193	\$ 27,000
Foreign currency forward contracts (2)	6	458
Total Level 2 inputs	\$ 25,199	\$ 27,458
Total Assets	\$ 32,958	\$ 35,108
Liabilities:		
Values based on level 2 inputs:		
Deferred compensation plan liabilities (1)	\$ 37,705	\$ 39,100
Foreign currency forward contracts (2)	73	220
Interest rate swap contracts (3)	13,700	2,900
Total Level 2 inputs	\$ 51,478	\$ 42,220
Total Liabilities	\$ 51,478	\$ 42,220

(1) The Company has a deferred compensation plan for the benefit of certain highly compensated officers, managers and other key employees. The assets consist of investments in money market and mutual funds, and company-owned life insurance contracts, all of which are valued based on Level 1 or Level 2 valuation inputs. The related deferred compensation plan liabilities are recorded at fair value, or the estimated amount needed to settle the liability, which the Company considers to be a Level 2 input.

(2) The Company enters into foreign currency forward exchange contracts to hedge the effects of adverse fluctuations in foreign currency exchange rates. Valuation of the foreign currency forward contracts is based on observable foreign currency exchange rates in active markets, which the Company considers a Level 2 input.

(3) The Company has interest rate swap contracts which hedge the risk of variability from interest payments on its borrowings (see Note 6 — Debt). The fair value of the swaps is based on mark-to-market valuations prepared by a third-party broker. The valuations are based on observable interest rates from recently executed market transactions and other observable market data, which the Company considers Level 2 inputs. The Company independently corroborates the reasonableness of the valuations prepared by the third-party broker through the use of an electronic quotation service.

Note 11 — Employee Benefits

Defined-Benefit Pension Plans

The Company has defined-benefit pension plans in several of its international locations. Benefits paid under these plans are based on years of service and level of employee compensation. The Company's defined-benefit pension plans are accounted for in accordance with FASB ASC Topics 715 and 960. Net periodic pension expense was \$0.8 million and \$2.3 million for the three and nine months ended September 30, 2015, respectively, and \$0.8 million and \$2.3 million for the three and nine months ended September 30, 2014, respectively.

Note 12 — Commitments and Contingencies

Contingencies

The Company is involved in legal proceedings and litigation arising in the ordinary course of business. We believe that the potential liability, if any, in excess of amounts already accrued from all proceedings, claims and litigation will not have a material effect on our financial position, cash flows, or results of operations when resolved in a future period.

The Company has various agreements that may obligate us to indemnify the other party with respect to certain matters. Generally, these indemnification clauses are included in contracts arising in the normal course of business under which we customarily agree to hold the other party harmless against losses arising from a breach of representations related to such matters as title to assets sold and licensed or certain intellectual property rights. It is not possible to predict the maximum potential amount of future payments under these indemnification agreements due to the conditional nature of the Company's obligations and the unique facts of each particular agreement. Historically, payments made by us under these agreements have not been material. As of September 30, 2015, the Company did not have any material payment obligations under any such indemnification agreements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The purpose of the following Management's Discussion and Analysis ("MD&A") is to help facilitate the understanding of significant factors influencing the quarterly operating results, financial condition and cash flows of Gartner, Inc. Additionally, the MD&A also conveys our expectations of the potential impact of known trends, events or uncertainties that may impact future results. You should read this discussion in conjunction with our condensed consolidated financial statements and related notes included in this report and in our Annual Report on Form 10-K for the year ended December 31, 2014 (the "2014 10-K"). Historical results and percentage relationships are not necessarily indicative of operating results for future periods. References to "Gartner," the "Company," "we," "our," and "us" in this MD&A are to Gartner, Inc. and its consolidated subsidiaries.

We have made two acquisitions in 2015 through September 30. Note 1 — Acquisitions in the Notes to the Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q provides information regarding these acquisitions. The operating results of these acquired businesses have been included in our consolidated and segment operating results beginning on their respective dates of acquisition and these results were not material to our consolidated or segment results for both the three and nine months ended September 30, 2015.

Forward-Looking Statements

In addition to historical information, this Quarterly Report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements are any statements other than statements of historical fact, including statements regarding our expectations, beliefs, hopes, intentions or strategies regarding the future. In some cases, forward-looking statements can be identified by the use of words such as "may," "will," "expect," "should," "could," "believe," "plan," "anticipate," "estimate," "predict," "potential," "continue," or other words of similar meaning.

Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those discussed in, or implied by, the forward-looking statements. Factors that might cause such a difference include, but are not limited to, those discussed in "Factors That May Affect Future Performance" and elsewhere in this Quarterly Report and in the 2014 10-K. Readers should not place undue reliance on these forward-looking statements, which reflect management's opinion only as of the date on which they were made. Except as required by law, we disclaim any obligation to review or update these forward-looking statements to reflect events or circumstances as they occur. Readers should review carefully any risk factors described in the 2014 10-K.

BUSINESS OVERVIEW

Gartner, Inc. is the world's leading information technology research and advisory company that helps executives use technology to build, guide and grow their enterprises. We offer independent and objective research and analysis on the information technology, computer hardware, software, communications and related technology industries. We provide comprehensive coverage of the IT industry to thousands of client organizations across the globe. Our client base consists primarily of CIOs and other senior IT and executives from a wide variety of business enterprises, government agencies and the investment community. Gartner is headquartered in Stamford, Connecticut, U.S.A., and as of September 30, 2015, we had 7,596 associates, including 1,699 research analysts and consultants, and clients in over 90 countries.

We have three business segments: Research, Consulting and Events:

Research provides objective insight on critical and timely technology and supply chain initiatives for CIOs, other IT professionals, supply chain leaders, digital marketing professionals, technology companies and the institutional investment community through reports, briefings, proprietary tools, access to our analysts, peer networking services and membership programs that enable our clients to make better decisions about their IT, supply chain and digital marketing investments.

Consulting provides customized solutions to unique client needs through on-site, day-to-day support, as well as proprietary tools for measuring and improving IT performance with a focus on cost, performance, efficiency and quality.

Events provides IT, supply chain, digital marketing and business professionals the opportunity to attend various symposia, conferences and exhibitions to learn, contribute and network with their peers. From our flagship event Symposium/ITxpo, to summits focused on specific technologies and industries, to experimental workshop-style seminars, our events distill the latest Gartner research into applicable insight and advice.

For more information regarding Gartner and our products and services, visit www.gartner.com.

BUSINESS MEASUREMENTS

We believe the following business measurements are important performance indicators for our business segments:

BUSINESS SEGMENT	BUSINESS MEASUREMENTS
Research	<p>Contract value represents the value attributable to all of our subscription-related research products that recognize revenue on a ratable basis. Contract value is calculated as the annualized value of all subscription research contracts in effect at a specific point in time, without regard to the duration of the contract.</p> <p>Client retention rate represents a measure of client satisfaction and renewed business relationships at a specific point in time. Client retention is calculated on a percentage basis by dividing our current clients, who were also clients a year ago, by all clients from a year ago. Client retention is calculated at an enterprise level, which represents a single company or customer.</p> <p>Wallet retention rate represents a measure of the amount of contract value we have retained with clients over a twelve-month period. Wallet retention is calculated on a percentage basis by dividing the contract value of clients, who were clients one year ago, by the total contract value from a year ago, excluding the impact of foreign currency exchange. When wallet retention exceeds client retention, it is an indication of retention of higher-spending clients, or increased spending by retained clients, or both. Wallet retention is calculated at an enterprise level, which represents a single company or customer.</p>
Consulting	<p>Consulting backlog represents future revenue to be derived from in-process consulting, measurement and strategic advisory services engagements.</p> <p>Utilization rate represents a measure of productivity of our consultants. Utilization rates are calculated for billable headcount on a percentage basis by dividing total hours billed by total hours available to bill.</p> <p>Billing Rate represents earned billable revenue divided by total billable hours.</p> <p>Average annualized revenue per billable headcount represents a measure of the revenue generating ability of an average billable consultant and is calculated periodically by multiplying the average billing rate per hour times the utilization percentage times the billable hours available for one year.</p>
Events	<p>Number of events represents the total number of hosted events completed during the period.</p> <p>Number of attendees represents the total number of people who attend events.</p>

EXECUTIVE SUMMARY OF OPERATIONS AND FINANCIAL POSITION

We have executed a consistent growth strategy since 2005 to drive double-digit revenue and earnings growth. The fundamentals of our strategy include a focus on creating extraordinary research insight, delivering innovative and highly differentiated product offerings, building a strong sales capability, providing world class client service with a focus on client engagement and retention, and continuously improving our operational effectiveness.

We had total revenues of \$500.2 million in the third quarter of 2015, an increase of 6% compared to the third quarter of 2014. Quarterly revenues increased 13% adjusted for the impact of foreign exchange. Revenues in our Research business increased 8% on a reported basis and 16% when adjusted for the negative impact of foreign currency translation. On a reported basis, revenues increased 26% in Events and 38% adjusted for the foreign exchange impact. Revenues declined 9% in Consulting on a reported basis, but decreased 3% adjusted for the foreign exchange impact. For a more complete discussion of our results by segment, see Segment Results below. For the third quarter of 2015, we had net income of \$30.4 million and diluted earnings per share of \$0.36.

Our operating cash flow was \$266.3 million for the nine months ended September 30, 2015 compared to \$275.6 million for the same period in 2014. We had \$371.2 million of cash and cash equivalents at September 30, 2015 and \$645.6 million of available borrowing capacity on our revolver facility. We believe that our liquidity is adequate to fund our current plans. Through September 30, 2015, we borrowed an additional \$435.0 million and we used \$453.0 million in cash to repurchase our common shares. We also used \$195.5 million in cash to complete the purchases of two businesses, Nubera eBusiness S.L., and Capterra, Inc. Both acquired businesses assist organizations in selecting the right business software for their needs.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements requires the application of appropriate accounting policies and the use of estimates. Our significant accounting policies are described in Note 1 in the Notes to Consolidated Financial Statements of Gartner, Inc. contained in the 2014 10-K. Management considers the policies discussed below to be critical to an understanding of our financial statements because their application requires complex and subjective management judgments and estimates. Specific risks for these critical accounting policies are also described below.

The preparation of our financial statements requires us to make estimates and assumptions about future events. We develop our estimates using both current and historical experience, as well as other factors, including the general economic environment and actions we may take in the future. We adjust such estimates when facts and circumstances dictate. However, our estimates may involve significant uncertainties and judgments and cannot be determined with precision. In addition, these estimates are based on our best judgment at a point in time and as such these estimates may ultimately differ materially from actual results. On-going changes in our estimates could be material and would be reflected in the Company's consolidated financial statements in future periods.

Our critical accounting policies are as follows:

Revenue recognition — Revenue is recognized in accordance with the requirements of U.S. GAAP as well as SEC Staff Accounting Bulletins No. 104, *Revenue Recognition* (“SAB 104”). Revenue is only recognized once all required criteria for revenue recognition have been met. Revenue by significant source is accounted for as follows:

- Research revenues are derived from subscription contracts for research products and are deferred and recognized ratably over the applicable contract term. Fees from research reprints are recognized when the reprint is delivered.
- Consulting revenues are principally generated from fixed fee and time and material engagements. Revenues from fixed fee contracts are recognized on a proportional performance basis. Revenues from time and materials engagements are recognized as work is delivered and/or services are provided. Revenues related to contract optimization contracts are contingent in nature and are only recognized upon satisfaction of all conditions related to their payment.
- Events revenues are deferred and then recognized upon the completion of the related symposium, conference or exhibition.

The majority of research contracts are billable upon signing, absent special terms granted on a limited basis from time to time. All research contracts are non-cancelable and non-refundable, except for government contracts that may have cancellation or fiscal funding clauses. It is our policy to record the entire amount of the contract that is billable as a fee receivable at the time the contract is signed with a corresponding amount as deferred revenue, since the contract represents a legally enforceable claim.

Uncollectible fees receivable — We maintain an allowance for losses which is composed of a bad debt allowance and a sales reserve. Provisions are charged against earnings, either as a reduction in revenues or an increase to expense. The measurement of likely and probable losses and the allowance for losses is based on historical loss experience, aging of outstanding receivables, an assessment of current economic conditions and the financial health of specific clients. This evaluation is inherently judgmental and requires estimates. These valuation reserves are periodically re-evaluated and adjusted as more information about the ultimate collectability of fees receivable becomes available. Circumstances that could cause our valuation reserves to increase include changes in our clients' liquidity and credit quality, other factors negatively impacting our clients' ability to pay their obligations as they come due, and the effectiveness of our collection efforts.

The following table provides our total fees receivable and the related allowance for losses as of the dates indicated (in thousands):

	September 30, 2015	December 31, 2014
Total fees receivable	\$ 488,862	\$ 558,807
Allowance for losses	(6,560)	(6,700)
Fees receivable, net	\$ 482,302	\$ 552,107

Goodwill and other intangible assets — The Company evaluates recorded goodwill in accordance with FASB ASC Topic 350, which requires goodwill to be assessed for impairment at least annually and whenever events or changes in circumstances indicate that the carrying value may not be recoverable. In addition, an impairment evaluation of our amortizable intangible assets may also be performed on a periodic basis should events or circumstances indicate potential impairment. If we determine that the fair value of a reporting unit is less than its related carrying amount, we must recognize an impairment charge against earnings.

Among the factors we consider important that could trigger a goodwill impairment review are the following:

- Significant under-performance relative to historical or projected future operating results;
- Significant changes in the manner of our use of acquired assets or the strategy for our overall business;
- Significant negative industry or general economic trends;
- Significant decline in our stock price for a sustained period; and
- Our market capitalization relative to net book value.

The Company conducted a quantitative assessment of the fair value of its reporting units as of September 30, 2015 based in part on the demonstrated historical trend of the fair values of the Company's reporting units substantially exceeding their carrying values and the Company's recent financial performance. Among the factors included in the Company's assessment were general economic conditions and the competitive environment; actual and projected reporting unit financial performance; forward-looking business measurements; and external market assessments. Based on the results of the assessment, the Company believes the fair values of its reporting units continue to exceed their respective carrying values.

Accounting for income taxes — The Company uses the asset and liability method of accounting for income taxes. We estimate our income taxes in each of the jurisdictions where we operate. This process involves estimating our current tax expense together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included within our consolidated balance sheets. In assessing the realizability of deferred tax assets, management considers if it is more likely than not that some or all of the deferred tax assets will not be realized. We consider the availability of loss carryforwards, projected reversal of deferred tax liabilities, projected future taxable income, and ongoing prudent and feasible tax planning strategies in making this assessment. The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not the tax position will be sustained based on the technical merits of the position.

Accounting for stock-based compensation — The Company accounts for stock-based compensation in accordance with FASB ASC Topics 505 and 718, as interpreted by SEC Staff Accounting Bulletins No. 107 and No. 110. The Company recognizes stock-based compensation expense, which is based on the fair value of the award on the date of grant, over the related service period, net of estimated forfeitures (see Note 3 — Stock-Based Compensation in the Notes to the Condensed Consolidated Financial Statements for additional information).

Determining the appropriate fair value model and calculating the fair value of stock-based compensation awards requires the input of certain complex and subjective assumptions, including the expected life of the stock-based compensation award and the Company's Common Stock price volatility. In addition, determining the appropriate amount of associated periodic expense requires management to estimate the rate of employee forfeitures and the likelihood of achievement of certain performance targets. The assumptions used in calculating the fair value of stock-based compensation awards and the associated periodic expense represent management's best estimates, but these estimates involve inherent uncertainties and the application of judgment. As a result, if factors change and the Company deems it necessary in the future to modify the assumptions it made or to use different assumptions, or if the quantity and nature of the Company's stock-based compensation awards changes, then the amount of expense may need to be adjusted and future stock-based compensation expense could be materially different from what has been recorded in the current period.

Restructuring and other accruals — We may record accruals for severance costs, costs associated with excess facilities that we have leased, contract terminations, asset impairments, and other costs as a result of on-going actions we undertake to streamline our organization, reposition certain businesses and reduce ongoing costs. Estimates of costs to be incurred to complete these actions, such as future lease payments, sublease income, the fair value of assets, and severance and related benefits, are based on assumptions at the time the actions are initiated. These accruals may need to be adjusted to the extent actual costs differ from such estimates. In addition, these actions may be revised due to changes in business conditions that we did not foresee at the time such plans were approved. We also record accruals during the year for our various employee cash incentive programs. Amounts accrued at the end of each reporting period are based on our estimates and may require adjustment as the ultimate amount paid for these incentives are sometimes not known with certainty until the end of our fiscal year.

RESULTS OF OPERATIONS

Overall Results

The following tables present selected line items and period-over-period changes in our interim Condensed Consolidated Statements of Operations for the periods indicated (in thousands):

	Three Months Ended September 30, 2015	Three Months Ended September 30, 2014	Income Increase (Decrease) \$	Increase (Decrease) %
Total revenues	\$ 500,166	\$ 470,940	\$ 29,226	6 %
Costs and expenses:				
Cost of services and product development	193,602	188,059	(5,543)	(3)
Selling, general and administrative	236,355	217,025	(19,330)	(9)
Depreciation	8,510	7,945	(565)	(7)
Amortization of intangibles	2,737	2,505	(232)	(9)
Acquisition and integration charges	6,488	6,015	(473)	(8)
Operating income	52,474	49,391	3,083	6
Interest expense, net	(6,049)	(2,656)	(3,393)	>(100)
Other income (expense), net	5,367	(287)	5,654	>100
Provision for income taxes	21,426	12,602	(8,824)	(70)
Net income	\$ 30,366	\$ 33,846	\$ (3,480)	(10)%

	Nine Months Ended September 30, 2015	Nine Months Ended September 30, 2014	Income Increase (Decrease) \$	Increase (Decrease) %
Total revenues	\$ 1,519,288	\$ 1,437,462	\$ 81,826	6 %
Costs and expenses:				
Cost of services and product development	581,859	562,058	(19,801)	(4)
Selling, general and administrative	703,868	640,179	(63,689)	(10)
Depreciation	24,939	23,125	(1,814)	(8)
Amortization of intangibles	6,983	5,763	(1,220)	(21)
Acquisition and integration charges	15,263	16,015	752	5
Operating income	186,376	190,322	(3,946)	(2)
Interest expense, net	(14,769)	(7,586)	(7,183)	(95)
Other income (expense), net	3,937	(341)	4,278	>100
Provision for income taxes	65,672	57,773	(7,899)	(14)
Net income	\$ 109,872	\$ 124,622	\$ (14,750)	(12)%

Total revenues for the three months ended September 30, 2015 increased \$29.2 million, to \$500.2 million, an increase of 6% compared to the three months ended September 30, 2014. Total revenues for the nine months ended September 30, 2015 increased 6% compared to the nine months ended September 30, 2014. Foreign currency exchange had a significant impact on revenues in 2015, and adjusted for this impact, revenues increased 13% in both the three and nine months ended September 30, 2015 compared to the same periods in 2014. On a segment basis, revenues increased in both our Research and Events segments but declined in Consulting. Please refer to the section of this MD&A below entitled "Segment Results" for a discussion of revenues and results by segment.

Cost of services and product development increased \$5.5 million, or 3%, in the third quarter of 2015 compared to the third quarter of 2014. The increase was primarily attributable to \$11.0 million of higher payroll and related benefits costs resulting from increased headcount, and we also had \$4.5 million in additional travel, conference, and other charges. These increased charges were substantially offset by \$10.0 million in favorable foreign exchange impact. Excluding the favorable impact of foreign currency exchange, quarter-over-quarter expense increased 9%. Cost of services and product development as a percentage of revenues was 39% for third quarter of 2015 and 40% for the third quarter of 2014.

For the nine month periods, Cost of services and product development expense increased \$19.8 million, or 4%, in 2015 compared to the same period in 2014. Consistent with the quarterly increase, the additional expense was primarily due to higher payroll and benefit costs due to increased headcount. Excluding the favorable impact of foreign currency exchange, expense increased 10% in the 2015 period. Cost of services and product development as a percentage of revenues was 38% and 39% for the nine months ended September 30, 2015 and 2014, respectively.

Selling, general and administrative (“SG&A”) expense increased \$19.3 million, or 9% quarter-over-quarter. The increase was primarily due to \$28.0 million in additional payroll and related benefit costs. Other costs increased approximately \$5.3 million, which included additional travel, recruiting, and training costs. Partially offsetting these increased expenses was \$14.0 million in favorable foreign exchange impact, and adjusted for the favorable impact of foreign currency exchange, quarter-over-quarter expense increased 16%. The higher payroll and benefit costs resulted from additional headcount, higher sales commissions, and merit salary increases. The increased headcount was primarily driven by our investment in additional quota-bearing sales associates and sales support personnel. The number of quota-bearing sales associates increased to 2,111 as of September 30, 2015, a 16% increase compared to September 30, 2014. SG&A expense increased 10%, or \$63.7 million, in the nine months ended September 30, 2015 compared to the same period in the prior year. Consistent with the quarter increase, the increase was primarily driven by higher payroll and related benefit costs. Adjusted for the foreign currency impact, this expense increased 17% in the 2015 period.

Depreciation expense increased 7% and 8% in the three and nine months ended September 30, 2015 compared to the same periods in 2014, due to our additional investment in fixed assets.

Amortization of intangibles increased in both the three and nine months ended September 30, 2015 compared to the same period in 2014 due to the addition of intangibles from our acquisitions.

Acquisition and integration charges include charges directly-related to business acquisitions and include amounts accrued for payments contingent on the achievement of certain employment conditions, legal, consulting, and severance costs.

Operating income increased \$3.1 million, or 6%, quarter-over-quarter. Operating income as a percentage of revenues was 10% for both the three months ended September 30, 2015 and 2014. For the nine month periods, operating income decreased \$3.9 million, or 2%. As a percentage of revenues, operating income was 12% for the nine month period ended September 30, 2015 and 13% for the nine month period ended September 30, 2014, with the decrease primarily driven by higher SG&A costs.

Interest expense, net increased in the three and nine months ended September 30, 2015 compared to same periods in 2014 due to additional borrowings.

Other income (expense), net for the three and nine months ended September 30, 2015 includes a \$5.4 million gain from the sale of state tax credits along with the net impact of foreign currency exchange gains and losses related to our hedging activities. The 2014 periods include the net impact of foreign currency gains and losses.

Provision for income taxes was \$21.4 million for the three months ended September 30, 2015 compared to \$12.6 million in the three months ended September 30, 2014. The effective income tax rate was 41.4% for the three months ended September 30, 2015 and 27.1% for the same period in 2014. The quarter-over-quarter increase in the effective income tax rate was primarily due to decreases in foreign tax credit benefits, increases in non-deductible expenses relating to acquisitions, and an estimated greater percentage of 2015 pretax income being earned in higher tax countries.

Provision for income taxes was \$65.7 million for the nine months ended September 30, 2015 compared to \$57.8 million for the nine months ended September 30, 2014. The effective income tax rate was 37.4% for the nine months ended September 30, 2015 and 31.7% for the same period in 2014. The increase in the effective income tax rate was similarly due to decreases in foreign tax credit benefits, increases in non-deductible expenses relating to acquisitions, and an estimated greater percentage of 2015 pretax income being earned in higher tax countries.

Net income decreased 10% quarter-over-quarter, while diluted earnings per share decreased 5%, to \$0.36 per share in the 2015 quarter compared to \$0.38 in the 2014 quarter. For the nine month periods, net income declined 12% in the 2015 period, while diluted earnings declined by 6%, to \$1.29 per share in the 2015 period compared from \$1.37 in the 2014 period.

SEGMENT RESULTS

We evaluate reportable segment performance and allocate resources based on gross contribution margin. Gross contribution is defined as operating income excluding certain Cost of services and product development charges, SG&A expenses, Depreciation, Acquisition and integration charges, and Amortization of intangibles. Gross contribution margin is defined as gross contribution as a percentage of revenues.

The following sections present the results of our three reportable business segments:

Research

	As Of And For The Three Months Ended September 30, 2015	As Of And For The Three Months Ended September 30, 2014	Increase (Decrease)	Percentage Increase (Decrease)	As Of And For The Nine Months Ended September 30, 2015	As Of And For The Nine Months Ended September 30, 2014	Increase (Decrease)	Percentage Increase (Decrease)

(1) Dollars in thousands.

Research segment revenues increased 8% in the three months ended September 30, 2015 compared to the same quarter in 2014. Adjusted for the negative impact of foreign currency exchange, revenues increased by 16% in the 2015 period. The segment gross contribution margin was 69% in both the third quarters of 2015 and 2014. For the nine month periods, revenues increased 8% in 2015 on a reported basis and 15% adjusted for the foreign currency impact, while the gross contribution margin was 70% for both periods.

Research contract value at September 30, 2015 increased 11% compared to September 30, 2014 on a reported basis and 14% adjusted for the impact of foreign currency. Contract value increased by double-digits across all of the Company's sales regions and client sizes and almost all industry sectors. At September 30, 2015, enterprise client retention was 84% and enterprise wallet retention was 106%.

(1) Dollars in thousands.

Consulting revenues decreased \$7.6 million, or 9%, quarter-over-quarter, but excluding the negative impact of foreign currency exchange, Consulting revenues decreased 3%. In addition to the negative impact from foreign exchange, quarterly revenue also declined in our contract optimization business, which can fluctuate from period to period due to timing. The gross contribution margin was 29% for the three months ended September 30, 2015 and 30% for the three months ended September 30, 2014. For the nine month periods, Consulting revenues decreased \$20.2 million, or 8%, but excluding the negative impact of foreign currency, revenues were down 1%. The gross contribution margin declined by 1 point.

Backlog was \$109.6 million at September 30, 2015, an increase of 1% compared to September 30, 2014.

Events

	As Of And For The Three Months Ended September 30, 2015	As Of And For The Three Months Ended September 30, 2014	Increase (Decrease)	Percentage Increase (Decrease)	As Of And For The Nine Months Ended September 30, 2015	As Of And For The Nine Months Ended September 30, 2014	Increase (Decrease)	Percentage Increase (Decrease)

Number of attendees	7,215	5,606	1,609	29%	28,387	25,594	2,793	11%

(1) Dollars in thousands.

Events revenues increased 26% quarter-over-quarter as reported and 38% adjusted for the negative impact of foreign currency. We held 15 events in the third quarter of 2015, which consisted of 9 ongoing events, 2 new events and 4 events moved into the quarter, while 3 events that were held in the third quarter of 2014 were moved to a different quarter in 2015. The total number of attendees increased 29% quarter-over-quarter while the number of exhibitors increased 24%. Average revenue for attendees decreased 2% while average revenues for exhibitors increased 3%. The gross contribution margin increased by 9 points quarter-over-quarter, primarily driven by higher profitability from our ongoing events and to a lesser extent, higher profitability from the events moved into the quarter compared to the events that were moved out.

For the nine month periods, Events revenues increased \$11.0 million, or 10%, in 2015 when compared to 2014, and 19% adjusted for the impact of foreign currency exchange. The 49 events held through September 30, 2015 consisted of 43 ongoing events, 4 new events and 2 events moved into the period on a net basis. The number of attendees increased 11% and exhibitors increased 6%, while average revenue increased 2% for attendees and 3% for exhibitors. The gross contribution margin increased 4 points, primarily driven by higher profitability from our ongoing events.

LIQUIDITY AND CAPITAL RESOURCES

We finance our operations primarily through cash generated from our operating activities. At September 30, 2015, we had \$371.2 million of cash and cash equivalents and \$645.6 million of available borrowing capacity under the revolver portion of the 2014 Credit Agreement. Our cash and cash equivalents are held in numerous locations throughout the world, with 94% held outside the United States at September 30, 2015. We believe that we have adequate liquidity and that the cash we expect to earn from our on-going operating activities, our existing cash balances, and the borrowing capacity we have under our revolving credit facility will be sufficient for our currently anticipated needs.

The following table summarizes the changes in the Company's cash and cash equivalents for the periods indicated (in thousands):

	Nine Months Ended September 30, 2015	Nine Months Ended September 30, 2014	Cash Increase (Decrease)
Cash provided by operating activities	\$ 266,307	\$ 275,609	\$ (9,302)
Cash used in investing activities	(231,545)	(147,407)	(84,138)
Cash used by financing activities	(1,195)	(196,486)	195,291
Net increase (decrease) in cash and cash equivalents	33,567	(68,284)	101,851
Effects of exchange rates	(27,625)	(14,486)	(13,139)
Beginning cash and cash equivalents	365,302	423,990	(58,688)
Ending cash and cash equivalents	\$ 371,244	\$ 341,220	\$ 30,024

Operating

Operating cash flow decreased by \$9.3 million, or 3%, when comparing the nine months ended September 30, 2015 to the same period in 2014. The decrease reflects lower net income as well as additional cash income tax payments and higher payments for employee incentives, commissions, and severance. Partially offsetting these changes were favorable improvements in certain working capital accounts.

Investing

We used \$231.5 million of cash in our investing activities in the nine months ended September 30, 2015 compared to \$147.4 million of cash used in the 2014 period, an increase in cash used of \$84.1 million. The increase in cash used in the 2015 period was primarily due to an additional \$73.6 million used for acquisitions in the 2015 period compared to 2014. We also had higher cash payments for capital expenditures in the 2015 period of \$36.1 million compared to \$25.5 million in the 2014 period.

Financing

Cash used in our financing activities totaled \$1.2 million in the nine months ended September 30, 2015 period, with \$453.0 million used for share repurchases, while net borrowings and other share-related activities provided cash of \$451.8 million. In the 2014 period the Company used \$196.5 million in cash in its financing activities, with \$387.1 million in cash used for share repurchases, while \$190.6 million was provided from net borrowings and other share-related activity.

OBLIGATIONS AND COMMITMENTS

2014 Credit Agreement

The Company has a five-year credit arrangement that it entered into in December 2014 that provides for a \$400.0 million term loan and a \$1.1 billion revolving credit facility (the "2014 Credit Agreement"). Under the revolving credit facility, amounts may be borrowed, repaid, and re-borrowed through the maturity date of the agreement in December 2019. The term and revolving facilities may be increased, at the Company's option, by up to an additional \$500.0 million in the aggregate. As of September 30, 2015, the Company had \$385.0 million outstanding under the term loan and \$450.0 million under the revolver. See Note 6 - Debt in the Notes to the Condensed Consolidated Financial Statements for additional information regarding the 2014 Credit Agreement.

Off-Balance Sheet Arrangements

Through September 30, 2015, we have not entered into any off-balance sheet arrangements or transactions with unconsolidated entities or other persons.

BUSINESS AND TRENDS

Our quarterly and annual revenues, operating income, and cash flows fluctuate as a result of many factors, including: the timing of our Symposium/ITxpo series that normally occurs during the fourth quarter, as well as our other events; the amount of new business generated; the mix of domestic and international business; domestic and international economic conditions; changes in market demand for our products and services; changes in foreign currency rates; the timing of the development, introduction and marketing of new products and services; competition in the industry; the payment of performance compensation; and other factors. The potential fluctuations in our operating income could cause period-to-period comparisons of operating results not to be meaningful and could provide an unreliable indication of future operating results.

FACTORS THAT MAY AFFECT FUTURE PERFORMANCE

We operate in a very competitive and rapidly changing environment that involves numerous risks and uncertainties, some of which are beyond our control. A description of the risk factors associated with our business is included under "Risk Factors" contained in Item 1A. of our 2014 Annual Report on Form 10-K which is incorporated herein by reference.

RECENTLY ISSUED ACCOUNTING STANDARDS

Accounting rules issued by the various U.S. standard setting and governmental authorities that have not yet become effective and may impact our Consolidated Financial Statements in future periods are described below, together with our assessment of the potential impact they may have on our Consolidated Financial Statements and related disclosures in future periods:

Business Combinations

In September 2015, the FASB issued Accounting Standards Update (ASU) 2015-16, "*Business Combinations - Simplifying the Accounting for Measurement-Period Adjustments*." ASU 2015-16 requires the recognition of adjustments to business combination provisional amounts, that are identified during the measurement period, in the reporting period in which the adjustments are determined. The effects of the adjustments to provisional amounts on depreciation, amortization or other income effects should be recognized in current-period earnings as if the accounting had been completed at the acquisition date. Disclosure of the portion of the adjustment recorded in current-period earnings that would have been reported in prior reporting periods if the adjustment to the provisional amounts had been recognized at the acquisition date is also required. The amendment is to be applied retrospectively and is effective for Gartner on January 1, 2016. The adoption of the new guidance is not expected to have a material impact on the Company's condensed consolidated financial statements.

Revenue Recognition

In May 2014, the FASB issued Accounting Standards Update (ASU) No. 2014-09, "*Revenue from Contracts with Customers*" ("ASU No. 2014-09"). ASU No. 2014-09 is intended to clarify the principles for recognizing revenue by: removing inconsistencies and weaknesses in revenue recognition requirements; providing a more robust framework for addressing revenue issues; improving comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets; and providing more useful information to users of financial statements through improved revenue disclosure requirements. The provisions of the new rule are effective for Gartner on January 1, 2018. We continue to evaluate the impact of ASU No. 2014-09.

Debt Issuance Cost Presentation

In April 2015, the FASB issued ASU 2015-03, "*Simplifying the Presentation of Debt Issuance Costs*," which amends the current presentation of debt issuance costs in the financial statements. ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts, instead of a deferred asset. The amendment is to be applied retrospectively and is effective for Gartner on January 1, 2016. The adoption of the new guidance is not expected to have a material impact on the Company's condensed consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

INTEREST RATE RISK

The Company's 2014 Credit Agreement provides for a five-year, \$400.0 million term loan and a \$1.1 billion revolving credit facility. We have exposure to changes in interest rates arising from borrowings under the 2014 Credit Agreement since amounts borrowed are based on a floating base rate of interest. At September 30, 2015, we had \$385.0 million outstanding under the term loan and \$450.0 million under the revolver.

We have three interest rate swap contracts which effectively convert the floating base rate on the first \$700.0 million of our variable rate borrowings to fixed rates. Thus the Company only hedges the base interest rate risk on the first \$700.0 million of its outstanding borrowings. Accordingly, we are exposed to interest rate risk on borrowings in excess of \$700.0 million. As an indication of our exposure to changes in interest rates on our borrowings, a hypothetical 25 basis point increase or decrease in interest rates as of September 30, 2015 would change pre-tax annual interest expense under the 2014 Credit Agreement (not including the expansion feature) by approximately \$2.0 million.

FOREIGN CURRENCY RISK

A significant portion of our revenues are earned outside of the U.S., and as a result we conduct business in numerous currencies other than the U.S. dollar. Among the major foreign currencies in which we conduct business are the Euro, the British Pound, the Japanese Yen, the Australian dollar, and the Canadian dollar. The reporting currency of our financial statements is the U.S. dollar. As the values of the foreign currencies in which we operate fluctuate over time relative to the U.S. dollar, the Company is exposed to both foreign currency translation and transaction risk.

Translation risk arises as our foreign currency assets and liabilities are translated into U.S. dollars since the functional currencies of our foreign operations are generally denominated in the local currency. The resulting translation adjustments are deferred and recorded as a component of stockholders' equity. A measure of the potential impact of foreign currency translation can be determined through a sensitivity analysis of our cash and cash equivalents. At September 30, 2015, 94% of our \$371.2 million of cash and cash equivalents was held overseas, with a substantial portion denominated in foreign currencies. If the exchange rates of the foreign currencies we hold all changed in comparison to the U.S. dollar by 10%, the amount of cash and cash equivalents we would have reported on September 30, 2015 would have increased or decreased by approximately \$22.0 million. The translation of our foreign currency revenues and expenses historically has not had a material impact on our consolidated earnings since movements in and among the major currencies in which we operate tend to impact our revenues and expenses fairly equally. However, our earnings could be impacted during periods of significant exchange rate volatility, or when some or all of the major currencies in which we operate move in the same direction against the U.S. dollar.

Transaction risk arises when our foreign subsidiaries enter into transactions that are denominated in a currency that may differ from the local functional currency. As these transactions are translated into the local functional currency, gain or loss may result, which is recorded in current period earnings. We may enter into foreign currency forward exchange contracts to mitigate the effects of this foreign currency transaction risk. At September 30, 2015, we had 21 outstanding forward contracts with an \$11.6 million total notional value and an immaterial net unrealized loss. All of these outstanding contracts expired by the end of October 2015.

CREDIT RISK

Financial instruments that potentially subject the Company to concentration of credit risk consist primarily of short-term, highly liquid investments classified as cash equivalents, accounts receivable, and interest rate swap contracts. The majority of the Company's cash and cash equivalents, interest rate swap contracts, and its foreign exchange contracts are with large investment grade commercial banks. Accounts receivable balances deemed to be collectible from customers have limited concentration of credit risk due to our diverse customer base and geographic dispersion.

ITEM 4. CONTROLS AND PROCEDURES

We have established disclosure controls and procedures that are designed to ensure that the information we are required to disclose in our reports filed under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported in a timely manner. Specifically, these controls and procedures ensure that the information is accumulated and communicated to our executive management team, including our chief executive officer and our chief financial officer, to allow timely decisions regarding required disclosure.

Management conducted an evaluation, as of September 30, 2015, of the effectiveness of the design and operation of our disclosure controls and procedures, under the supervision and with the participation of our chief executive officer and chief financial officer. Based upon that evaluation, our chief executive officer and chief financial officer have concluded that the Company's disclosure controls and procedures are effective in alerting them in a timely manner to material Company information required to be disclosed by us in reports filed under the Exchange Act.

In addition, there have been no changes in the Company's internal control over financial reporting during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in legal and administrative proceedings and litigation arising in the ordinary course of business. We believe that the potential liability, if any, in excess of amounts already accrued from all proceedings, claims and litigation will not have a material effect on our financial position or results of operations when resolved in a future period.

ITEM 1A. RISK FACTORS

A description of the risk factors associated with our business is included under "Risk Factors" contained in Item 1A. of the Company's 2014 10-K and is incorporated herein by reference.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There were no unregistered sales of equity securities during the period covered by this report.

Issuer Purchases of Equity Securities

We have a \$1.2 billion board approved authorization to repurchase the Company's common stock. The Company may repurchase its common stock from time to time in amounts and at prices the Company deems appropriate, subject to the availability of stock, prevailing market conditions, the trading price of the stock, the Company's financial performance and other conditions. Repurchases may be made through open market purchases, private transactions or other transactions and will be funded from cash on hand and borrowings under the Company's credit agreement.

The following table provides detail related to repurchases of our outstanding Common Stock during the nine months ended September 30, 2015:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Approximate Dollar Value of Shares that may yet be Purchased Under our Share Repurchase Program (in billions)
2015			
January	290	\$ 81.92	
February	1,881,176	82.11	
March	2,203,124	81.59	
Total for quarter	4,084,590	\$ 81.83	
April	1,072,393	\$ 83.75	
May	153,154	85.62	
June	18,463	87.05	
Total for quarter	1,244,010	\$ 84.03	
July	990	\$ 85.42	
August	86,553	83.71	
September	122,469	83.84	
Total for quarter	210,012	\$ 83.79	\$1.182 (1)

(1) As of September 30, 2015.

CERTIFICATION

I, Eugene A. Hall, certify that:

- (1) I have reviewed this Quarterly Report on Form 10-Q for the quarter ended September 30, 2015, of Gartner, Inc.;
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- (4) The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- (5) The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors:
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
