GARTNER ANNOUNCES PROPOSED SECONDARY OFFERING OF COMMON STOCK BY SILVER LAKE PARTNERS

STAMFORD, Conn.—May 9, 2006—Gartner, Inc. (NYSE: IT), a leading provider of research and analysis on the global information technology industry, announced today that it has filed a registration statement with the Securities and Exchange Commission relating to a proposed secondary offering of 9,500,000 shares of its common stock. All of the shares of common stock to be registered are currently owned and will be offered and sold by Silver Lake Partners, L.P. and certain of its affiliates, which currently collectively own approximately 33.1% of Gartner's common stock. Gartner will not receive any proceeds from the sale of the shares of common stock being registered. The underwriters will also have an option to purchase up to an additional 1,425,000 shares of common stock from Silver Lake to cover over-allotments, if any.

In connection with the proposed offering, Silver Lake and its affiliates have agreed to refrain from seeking any additional registration or sale of shares of Gartner common stock for a period of 90 days following the date of the final prospectus related to the offering without the consent of the underwriters, subject to customary exceptions. Gartner itself, as well as ValueAct Capital, which is Gartner's second largest shareholder, have agreed to similar restrictions.

"Silver Lake has been Gartner's largest shareholder for over six years and will remain the company's largest shareholder upon completion of this offering. This offering is part of the orderly approach we have taken to exiting our investment in Gartner on behalf of our limited partners," said Michael J. Bingle, managing director of Silver Lake Partners and a Silver Lake appointee to the Gartner board, who, along with Silver Lake appointee John R. Joyce, will remain on Gartner's board following the offering.

Goldman, Sachs & Co., JPMorgan and Lehman Brothers are acting as joint book-running managers and Banc of America Securities LLC and Credit Suisse Securities (USA) LLC are serving as co-managers for the offering. A registration statement relating to these securities has been filed with the Securities and Exchange Commission.

Other Purchases from Silver Lake

Gartner also announced it has entered into an agreement with Silver Lake pursuant to which Gartner will purchase an aggregate of 1,000,000 shares of common stock from Silver Lake at the price per share to be received by Silver Lake in the offering, so long as Silver Lake sells at least 9,500,000 shares in the offering. James C. Smith, Chairman of Gartner's Board of Directors, has also entered into an agreement with Silver Lake pursuant to which he will purchase an aggregate of 200,000 shares of common stock from Silver Lake at the price per share to be received by Silver Lake in the offering. Upon closing of these purchases, which are scheduled to occur following the closing of the Silver Lake offering, and after giving effect to the sale of the shares in the public offering, Silver Lake's percentage ownership interest in Gartner's outstanding shares is estimated to be approximately 23.9%, assuming that the underwriters' option to purchase additional shares is not exercised.

In light of Gartner's purchase and the Silver Lake offering, Gartner further announced that it will suspend its \$100.0 million common share repurchase program until the announcement of Gartner's financial results for its second fiscal quarter of 2006 ending June 30.

Business Outlook

In connection with the proposed Silver Lake offering, and without changing its previously issued fiscal-year 2006 guidance, Gartner also announced its outlook for its second fiscal quarter of 2006 ending June 30. For this second fiscal quarter of 2006, Gartner is targeting total revenue of approximately \$272 to \$280 million and is projecting GAAP EPS of \$0.10 to \$0.13. Consistent with historical practice, Gartner does not intend to issue quarterly guidance in the future.
