MARKET OVERVIEW

Technological innovations are changing how businesses and organizations work and what they do at an increasingly rapid pace. Today, everyone is living and working in the midst of a technological revolution. The nexus of four powerful forces – social, mobile, cloud and information, coupled with the “Internet of things” – are blurring the line between the physical and digital worlds, creating unprecedented change on a scale not seen before facing every organization around the world, from business enterprises and units within enterprises of every size, to governments and government agencies, as well as other organizations. This change falls into three categories: optimizing the use of technology to improve performance across every function in the organization; managing disruptive technology-based innovation; and protecting the organization from security threats. This technology revolution will remain vibrant for decades to come.

Information technology (IT) is critical to supporting increased productivity, service and performance improvement, revenue growth and cyber-security. As the costs of IT solutions continue to rise, IT executives and professionals have realized the importance of making well-informed decisions and increasingly seek to maximize their returns on IT capital investments. As a result, every IT investment decision in an enterprise is subject to increased financial scrutiny, especially in the current challenging economic climate. In addition, today’s IT marketplace is dynamic and complex. Technology providers continually introduce new products with a wide variety of standards and features that are prone to shorter life cycles. Users of technology – a group that encompasses nearly all organizations – must keep abreast of new developments in technology to ensure that their IT systems are reliable, efficient, secure, and meet both their current and future needs.

Given the strategic and critical nature of technology decision-making and spending, business enterprises, governments and their agencies, and other organizations turn to Gartner for guidance in order to make the right decisions to maximize the value of their IT investments.

OUR SOLUTION

We provide IT decision makers with the insight they need to understand where – and how – to successfully harness technology to achieve their mission critical priorities. We employ a diversified business model that utilizes and leverages the breadth and depth of our intellectual capital. The foundation of our business model is our ability to create and distribute our proprietary research content as broadly as possible via published reports and briefings, consulting and advisory services, and our events, including Gartner Symposium/ITxpo.

We have 1,021 analysts located around the world who create compelling, relevant, independent and objective research and fact-based analysis on every major IT initiative and all aspects of the IT industry, including supply chain and digital marketing. Through our robust product portfolio, our global research team provides thought leadership and technology insights that CIOs, supply chain professionals, digital marketing professionals, executives and other technology practitioners need to make the right decisions, every day. In addition to our analysts, we have 535 experienced consultants who combine our objective, independent research with a practical business perspective focused on the IT industry. Finally, our events are the largest of their kind, gathering highly qualified audiences of CIOs, other senior business executives and IT professionals, supply chain leaders, and purchasers and providers of technology and supply chain products and services.

PRODUCTS AND SERVICES

Our diversified business model provides multiple entry points and synergies that facilitate increased client spending on our research, consulting services and events. A critical part of our long-term strategy is to increase business volume with our most valuable clients, identifying relationships with the greatest sales potential and expanding those relationships by offering strategically relevant research and advice. We also seek to extend the Gartner brand name to develop new client relationships, augment our sales capacity, and expand into new markets around the world. In addition, we seek to increase our revenue and operating cash flow through more effective pricing of our products and services. These initiatives have created additional revenue streams through more effective packaging, campaigning and cross-selling of our products and services.

Our principal products and services are delivered via our Research, Consulting and Events segments:

- **RESEARCH.** Gartner delivers independent, objective IT research and insight primarily through a subscription-based, digital media service. Gartner research is the fundamental building block for all Gartner services and covers all technology-related markets, topics and industries, as well as supply chain and digital marketing. We combine our proprietary research methodologies with extensive industry and academic relationships to create Gartner solutions that address each role within an IT organization. Our research agenda is defined by clients' needs, focusing on the critical issues, opportunities and challenges they face every day. Our research analysts are in regular contact with both technology providers and technology users, enabling them to identify the most pertinent topics in the IT marketplace and develop relevant product enhancements to meet the evolving needs of users of our research. They provide in-depth analysis on all aspects of technology, including hardware; software and systems; services; IT management; market data and forecasts; and vertical-industry issues. Our proprietary research content, presented in the form of reports, briefings, updates and related tools, is delivered directly to the client's desktop via our website and/or product-specific portals. Clients normally sign subscription contracts that provide access to our research content for individual users over a defined period of time. The majority of our research subscription agreements are for twelve months. However, with increasing frequency we are entering into multi-year agreements.
- **CONSULTING.** Gartner Consulting deepens relationships with our Research clients by extending the reach of our research through custom consulting engagements. Gartner Consulting brings together our unique research insight, benchmarking data, problem-solving methodologies and hands-on experience to improve the return on a client's IT investment. Our consultants provide fact-based consulting services to help clients use and manage IT to optimize business performance.

Consulting solutions capitalize on Gartner assets that are invaluable to IT decision making, including: (1) our extensive research, which ensures that our consulting analyses and advice are based on a deep understanding of the IT environment and the business of IT; (2) our market independence, which keeps our consultants focused on our clients' success; and (3) our market-leading benchmarking capabilities, which provide relevant comparisons and best practices to assess and improve performance.

Gartner Consulting provides solutions to CIOs and other IT executives, and to those professionals responsible for IT applications, enterprise architecture, go-to-market strategies, infrastructure and operations, program and portfolio management, and sourcing and vendor relationships. Consulting also provides targeted consulting services to professionals

in specific industries. Finally, we provide actionable solutions for IT cost optimization, technology modernization and IT sourcing optimization initiatives.

- **EVENTS.** Gartner Symposium/ITxpo events and Gartner Summit events are gatherings of technology's most senior IT professionals, business strategists and practitioners. Gartner Events offers current, relevant and actionable technology sessions led by Gartner analysts, while facilitating peer exchanges. These sessions are augmented with technology showcases, peer exchanges, analyst one-on-one meetings, workshops and keynotes by technology's top leaders. They also provide attendees with an opportunity to interact with business executives from the world's leading technology companies.

Gartner events attract high-level IT and business professionals who seek in-depth knowledge about technology products and services. Gartner Symposium/ITxpo events are large, strategic conferences held in various locations throughout the world for CIOs and other senior IT and business professionals. Gartner Summit events focus on specific topics, technologies and industries including supply chain and digital marketing, providing IT professionals with the insight, solutions and networking opportunities to succeed in their job role. Finally, we offer targeted events for CIOs and IT executives, such as CIO Leadership Forum.

COMPETITION

We believe that the principal factors that differentiate us from our competitors are the following:

- Superior IT research content – We believe that we create the broadest, highest-quality and most relevant research coverage of the IT industry, with offerings for every member of an IT organization. Our research analysis generates unbiased insight that we believe is timely, thought-provoking and comprehensive, and that is known for its high quality, independence and objectivity.
- Our leading brand name – We have provided critical, trusted insight under the Gartner name for 35 years.
- Our global footprint and established customer base – We have a global presence with clients in over 90 countries on six continents. A substantial portion of our revenues is derived from sales outside of the U.S.
- Experienced management team – Our management team is composed of IT research veterans and experienced industry executives with long tenure at Gartner.
- Substantial operating leverage in our business model — We have the ability to distribute our intellectual property and expertise across multiple platforms, including research publications, consulting engagements, conferences and executive programs, to derive incremental revenue and profitability.
- Vast network of analysts and consultants – As of December 31, 2014, we had 1,556 research analysts and consultants located around the world. Our analysts collectively speak 50 languages and are located in 26 countries, enabling us to cover all aspects of IT on a global basis.

Notwithstanding these differentiating factors, we face competition from a significant number of independent providers of information products and services. We compete indirectly with consulting firms and other information providers, including electronic and print media companies. These indirect competitors could choose to compete directly with us in the future. In addition, we face competition from free sources of information that are available to our clients through the Internet. Limited barriers to entry exist in the markets in which we do business. As a result, new competitors may emerge and existing competitors may start to provide additional or complementary services. While we believe the breadth and depth of our research assets position us well versus our competition, increased competition could result in loss of market share, diminished value in our products and services, reduced pricing, and increased sales and marketing expenditures.

INTELLECTUAL PROPERTY

Our success has resulted in part from proprietary methodologies, software, reusable knowledge capital and other intellectual property rights. We rely on a combination of patent, copyright, trademark, trade secret, confidentiality, non-compete and other contractual provisions to protect our intellectual property rights. We have policies related to confidentiality, ownership, and the use and protection of Gartner's intellectual property. We also enter into agreements with our employees as appropriate that protect our intellectual property, and we enforce these agreements if necessary. We recognize the value of our intellectual property in the marketplace and vigorously identify, create and protect it. Additionally, we actively monitor and enforce contract compliance by our end users.

EMPLOYEES

We had 6,758 employees as of December 31, 2014, an increase of 13% compared to the prior year end as we continued to invest for future growth. We have 1,291 employees located at our headquarters in Stamford, Connecticut and a nearby office in Trumbull, Connecticut; 2,605 employees located elsewhere in the United States in 30 offices; and 2,862 employees located outside of the United States in 65 offices. Our employees may be subject to collective bargaining agreements at a company or industry level, or works councils, in those foreign countries where this is part of the local labor law or practice. We have experienced no work stoppages and consider our relations with our employees to be favorable.

ITEM 1A. RISK FACTORS

We operate in a highly competitive and rapidly changing environment that involves numerous risks and uncertainties, some of which are beyond our control. In addition, we and our clients are affected by global economic conditions. The following sections discuss many, but not all, of the risks and uncertainties that may affect our future performance, but is not intended to be all-inclusive. Any of the risks described below could have a material adverse impact on our business, prospects, results of operations, financial condition, and cash flows, and could therefore have a negative effect on the trading price of our common stock. Additionally risks not currently known to us or that we now deem immaterial may also harm us and negatively affect your investment.

Risks related to our business

Our operating results could be negatively impacted by global economic conditions. Our business is impacted by general economic conditions and trends, in the U.S and abroad. U.S. economic data continues to be mixed, but the overall economy continues to grow and unemployment continues to fall. However, economic growth continues to be uneven globally, with continuing weakness across Europe and emerging markets, as recent geopolitical events add to the uncertainty. These conditions could negatively and materially affect future demand for our products and services. Such difficulties could include the ability to maintain client retention, wallet retention and consulting utilization rates, achieve contract value and consulting backlog growth, attract attendees and exhibitors to our events or obtain new clients. Such developments could negatively impact our financial condition, results of operations, and cash flows.

We face significant competition and our failure to compete successfully could materially and adversely affect our results of operations, financial condition, and cash flows. We face direct competition from a significant number of independent providers of information products and services, including information available on the Internet free of charge. We also compete indirectly against consulting firms and other information providers, including electronic and print media companies, some of which may have greater financial, information gathering and marketing resources than we do. These indirect competitors could also choose to compete directly with us in the future. In addition, low barriers to entry exist in the markets in which we do business. As a result, new competitors may emerge and existing competitors may start to provide additional or complementary services. Additionally, technological advances may provide increased competition from a variety of sources.

There can be no assurance that we will be able to successfully compete against current and future competitors and our failure to do so could result in loss of market share, diminished value in our products and services, reduced pricing and increased marketing expenditures. Furthermore, we may not be successful if we cannot compete effectively on quality of research and analysis, timely

delivery of information, customer service, and the ability to offer products to meet changing market needs for information and analysis, or price.

We may not be able to maintain the quality of our existing products and services. We operate in a rapidly evolving market, and our success depends upon our ability to deliver high quality and timely research and analysis to our clients. Any failure to continue to provide credible and reliable information that is useful to our clients could have a material adverse effect on future business and operating results. Further, if our data, viewpoints, or predictions prove to be wrong or are not substantiated by appropriate research, our reputation may suffer and demand for our products and services may decline. In addition, we must continue to improve our methods for delivering our products and services in a cost-effective manner, including via the Internet and mobile applications. Failure to maintain state of the art electronic delivery capabilities could adversely affect our future business and operating results.

We may not be able to enhance and develop our existing products and services, or introduce the new products and services that are needed to remain competitive. The market for our products and services is characterized by rapidly changing needs for information and analysis on the IT industry as a whole. The development of new products is a complex and time-consuming process. Nonetheless, to maintain our competitive position, we must continue to anticipate the needs of our client organizations, develop, enhance and improve our existing as well as new products and services to address those needs, deliver all products and services in a timely, user-friendly and state of the art manner, and appropriately position and price new products and services relative to the marketplace and our costs of developing them. Any failure to achieve successful client acceptance of new products and services could have a material adverse effect on our business, results of operations and financial position. Additionally, significant delays in new product or services releases or significant problems in creating new products or services could adversely affect our business, results of operations and financial position.

We depend on renewals of subscription-based services and sales of new subscription-based services for a significant portion of our revenue, and our failure to renew at historical rates or generate new sales of such services could lead to a decrease in our revenues. A large portion of our success depends on our ability to generate renewals of our subscription-based research products and services and new sales of such products and services, both to new clients and existing clients. These products and services constituted 72% and 71% of our total revenues for 2014 and 2013, respectively. Generating new sales of our subscription-based products and services, both to new and existing clients, is a challenging, costly, and often time consuming process. If we are unable to generate new sales, due to competition or other factors, our revenues will be adversely affected.

The majority of our research subscription agreements are for twelve months. However, we do enter into multi-year agreements, which have been increasing in frequency. Our ability to maintain contract renewals is subject to numerous factors, including the following:

- delivering high-quality and timely analysis and advice to our clients;
- understanding and anticipating market trends and the changing needs of our clients; and
- delivering products and services of the quality and timeliness necessary to withstand competition.

Additionally, as we continue to adjust our products and service offerings to meet our clients' continuing needs, we may shift the type and pricing of our products which may impact client renewal rates. While our Research enterprise client retention rate was 85% at December 31, 2014 and 83% at December 31, 2013, there can be no guarantee that we will continue to maintain this rate of client renewals.

We depend on non-recurring consulting engagements and our failure to secure new engagements could lead to a decrease in our revenues. Consulting segment revenues constituted 17% of our total revenues in 2014 and 18% in 2013. Consulting engagements typically are project-based and non-recurring. Our ability to replace consulting engagements is subject to numerous factors, including the following:

- delivering consistent, high-quality consulting services to our clients;
- tailoring our consulting services to the changing needs of our clients; and
- our ability to match the skills and competencies of our consulting staff to the skills required for the fulfillment of existing or potential consulting engagements.

Any material decline in our ability to replace consulting arrangements could have an adverse impact on our revenues and our financial condition. In addition, revenue in our contract optimization business can fluctuate from period to period.

The profitability and success of our conferences, symposia and events could be adversely affected by external factors beyond our control. The market for desirable dates and locations for conferences, symposia and events is highly competitive. If we cannot secure desirable dates and suitable venues for our conferences, symposia and events their profitability could suffer, and our financial condition and results of operations may be adversely affected. In addition, because our events are scheduled in advance and held at specific locations, the success of these events can be affected by circumstances outside of our control, such as labor strikes, transportation shutdowns and travel restrictions, economic slowdowns, reductions in government spending, geo-political crises, terrorist attacks, weather, natural disasters, communicable diseases, and other occurrences impacting the global, regional, or national economies, the occurrence of any of which could negatively impact the success of the event. We also face the challenge of procuring venues that are sizeable enough at a reasonable cost to accommodate some of our major events.

Our sales to governments are subject to appropriations and may be terminated. We derive significant revenues from research and consulting contracts with the U.S. government and its respective agencies, numerous state and local governments and their respective agencies, and foreign governments and their agencies. At December 31, 2014 and 2013, approximately \$310.0 million and \$283.0 million, respectively, of our total contracts were attributable to government entities. We believe substantially all of the amounts attributable to government entities at December 31, 2014 will be filled in 2015. Our U.S. government contracts are subject to the approval of appropriations by the U.S. Congress to fund the agencies contracting for our services. Additionally, our contracts at the state and local levels, as well as foreign government contracts, are subject to various governmental authorizations and funding approvals and mechanisms. In general, most if not all of these contracts may be terminated at any time without cause or penalty (“termination for convenience”). Similarly, contracts with U.S. federal, state and local, and foreign governments and their respective agencies are subject to increasingly complex bidding procedures, compliance requirements and intense competition. Should appropriations for the governments and agencies that contract with us be curtailed, or should our government contracts be terminated for convenience, we may experience a significant loss of segment and consolidated revenues.

We may not be able to attract and retain qualified personnel which could jeopardize our future growth plans, as well as the quality of our products and services. Our success depends heavily upon the quality of our senior management, research analysts, consultants, sales and other key personnel. We face competition for qualified professionals from, among others, technology companies, market research firms, consulting firms, financial services companies and electronic and print media companies, some of which have a greater ability to attract and compensate these professionals. Recent improvements in the U.S. economy have heightened this competition. Additionally, some of the personnel that we attempt to hire are subject to non-compete agreements that could impede our short-term recruitment efforts. Any inability to retain key personnel, or to hire and train additional qualified personnel to support the evolving needs of clients or the projected growth in our business, could adversely affect the quality of our products and services, as well as future business and operating results.

We may not be able to maintain the equity in our brand name. We believe that our “Gartner” brand, including our independence, is critical to our efforts to attract and retain clients and that the importance of brand recognition will increase as competition increases. We may expand our marketing activities to promote and strengthen the Gartner brand and may need to increase our marketing budget, hire additional marketing and public relations personnel, and expend additional sums to protect our brand and otherwise increase expenditures to create and maintain client brand loyalty. If we fail to effectively promote and maintain the Gartner brand, or incur excessive expenses in doing so, our future business and operating results could be adversely impacted.

Our international operations expose us to a variety of operational risks which could negatively impact our future revenue and growth. We have clients in over 90 countries and a substantial amount of our revenues is earned outside of the U.S. Our operating results are subject to the risks inherent in international business activities, including general political and economic conditions in each country, changes in market demand as a result of tariffs and other trade barriers, challenges in staffing and managing foreign operations, changes in regulatory requirements, compliance with numerous foreign laws and regulations, differences between U.S. and foreign tax rates and laws, and the difficulty of enforcing client agreements, collecting accounts receivable and protecting intellectual property rights in international jurisdictions. Furthermore, we rely on local distributors or sales agents in some international locations. If any of these arrangements are terminated by our agent or us, we may not be able to replace the arrangement on beneficial terms or on a timely basis, or clients of the local distributor or sales agent may not want to continue to do business with us or our new agent.

We are exposed to volatility in foreign currency exchange rates from our international operations. Revenues earned outside the U.S. are typically transacted in local currencies, which may fluctuate significantly against the U.S. dollar. While we may use forward exchange contracts to a limited extent to seek to mitigate foreign currency risk, our revenues and results of operations could be adversely affected by unfavorable foreign currency fluctuations. Additionally, our effective tax rate is increased as the U.S. dollar strengthens against foreign currencies, which could impact our operating results.

Natural disasters or geo-political events may disrupt our business. A major weather event, terrorist attack, earthquake, flood, volcanic activity, or other catastrophic disaster could significantly disrupt our operations. Such events could cause delays in initiating or completing sales, impede delivery of our products and services to our clients, disrupt other critical client-facing and business processes, or dislocate our critical internal functions and personnel. Our corporate headquarters is located approximately 30 miles from New York City, and we have an operations center located in Ft. Myers, Florida, a hurricane-prone area. We also operate in numerous international locations, and we have offices in a number of major cities across the globe. Abrupt political change, terrorist activity, communicable diseases, and armed conflict pose a risk of general economic disruption in affected countries and regions, which may negatively impact our sales and increase our operating costs. Additionally, these conditions also may add uncertainty to the timing and budget decisions of our clients. Such events could significantly harm our ability to conduct normal business operations and negatively impact our financial condition and operating results.

Privacy concerns could damage our reputation and deter current and potential clients from using our products and services or attending our events. Concerns relating to global data privacy have the potential to damage our reputation and deter current and prospective clients from using our products and services or attending our events. In the ordinary course of our business and in accordance with applicable laws, we collect personal information (i) from our employees (ii) from the users of our products and services, including event attendees; and (iii) from prospective clients. We collect only basic personal information from our clients and prospects (name, email address, job title) and do not as a rule collect sensitive personal information like SSNs and credit card numbers.

Even if unfounded, concerns about our practices with regard to the collection, use, disclosure, or security of this personal information or other data privacy related matters, could damage our reputation and adversely affect our operating results. In addition, because many of our products and services are web-based, the amount of data we store on our servers (including personal information) has been increasing. Any systems failure or compromise of our security that results in the disclosure of our users' personal data could seriously limit the consumption of our products and services and the attendance at our events, as well as harm our reputation and brand and, therefore, our business.

In addition, while we are a Safe Harbor certified company and while we have implemented a company-wide privacy compliance program, regulatory authorities around the world continue to adopt new laws, regulations and penalties concerning data privacy. The interpretation and application of these laws in the U.S., Europe and elsewhere are often uncertain, inconsistent and ever changing. It is possible that these laws may be interpreted and applied in a manner that is inconsistent with our data privacy practices. Complying with these various laws could cause us to incur substantial costs or require us to change our business practices in a manner adverse to our business.

Internet and critical internal computer system failures, cyber-attacks, or compromises of our systems or security could damage our reputation and harm our business. A significant portion of our business is conducted over the Internet and we rely heavily on computer systems to conduct our operations. Individuals, groups, and state-sponsored organizations may take steps that pose threats to our operations, our computer systems, our employees, and our customers. They may develop and deploy malicious software to gain access to our networks and attempt to steal confidential information, launch distributed denial of service attacks, or attempt other coordinated disruptions. These threats are constantly evolving and becoming more sophisticated, thereby increasing the difficulty of detecting and successfully defending against them. A cyber-attack, widespread Internet failure, or disruption of our critical information technology systems through denial of service, viruses, or other events could cause delays in initiating or completing sales, impede delivery of our products and services to our clients, disrupt other critical client-facing or business processes, or dislocate our critical internal functions. Such events could significantly harm our ability to conduct normal business operations and negatively impact our financial results.

We take steps to secure our management information systems, including our computer systems, intranet, proprietary websites, email and other telecommunications and data networks, and we carefully scrutinize the security of outsourced website and service providers prior to retaining their services. However, the security measures implemented by us or by our outside service providers may not be effective and our systems (and those of our outside service providers) may be vulnerable to theft, loss, damage and interruption from a number of potential sources and events, including unauthorized access or security breaches, cyber-attacks, computer viruses, power loss, or other disruptive events. Our reputation, brand, financial condition and operating results could be adversely affected if, as a result of a significant cyber event or other technology-related catastrophe, our operations are disrupted or shutdown; our confidential, proprietary information is stolen or disclosed; we incur costs or are required to pay fines in connection with stolen customer, employee, or other confidential information; we are required to dedicate significant resources to system repairs or increase cyber security protection; or we otherwise incur significant litigation or other costs as a result of these occurrences.

We may experience outages and disruptions of our online services if we fail to maintain an adequate operations infrastructure. Our increasing user traffic and complexity of our products and services demand more computing power. We have spent and expect

to continue to spend substantial amounts to maintain data centers and equipment, to upgrade our technology and network infrastructure to handle increased traffic on our websites, and to deliver our products and services through emerging channels, such as mobile applications. However, any inefficiencies or operational failures could diminish the quality of our products, services, and user experience, resulting in damage to our reputation and loss of current and potential users, subscribers, and advertisers, potentially harming our financial condition and operating results.

Our outstanding debt obligation could impact our financial condition or future operating results. We have a credit arrangement that provides for a five-year, \$400.0 million term loan and a \$1.1 billion revolving credit facility (the “2014 Credit Agreement”). In addition, the credit arrangement contains an expansion feature by which the term loan and revolving facility may be increased, at our option and under certain conditions, by up to an additional \$500.0 million in the aggregate. At December 31, 2014, we had a total of \$400.0 million outstanding under the term loan of the 2014 Credit Agreement.

The affirmative, negative and financial covenants of the 2014 Credit Agreement could limit our future financial flexibility. Additionally, a failure to comply with these covenants could result in acceleration of all amounts outstanding under the arrangement, which would materially impact our financial condition unless accommodations could be negotiated with our lenders. No assurance can be given that we would be successful in doing so in this current financial climate, or that any accommodations that we were able to negotiate would be on terms as favorable as those presently contained in the credit arrangement. The associated debt service costs of this credit arrangement could impair our future operating results. The outstanding debt may limit the amount of cash or additional credit available to us, which could restrain our ability to expand or enhance products and services, respond to competitive pressures or pursue future business opportunities requiring substantial investments of additional capital.

We may require additional cash resources which may not be available on favorable terms or at all. We believe that our existing cash balances, projected cash flow from operations, and the borrowing capacity we have under our revolving credit facility will be sufficient to fund our plans for the next 12 months and the foreseeable future.

However, we may require additional cash resources due to changed business conditions, implementation of our strategy and stock repurchase program, to repay indebtedness or to pursue future business opportunities requiring substantial investments of additional capital, including acquisitions. If our existing financial resources are insufficient to satisfy our requirements, we may seek additional borrowings or issue debt. Prevailing credit and debt market conditions may negatively affect debt availability and cost, and, as a result, financing may not be available in amounts or on terms acceptable to us, if at all. In addition, the incurrence of additional indebtedness would result in increased debt service obligations and could require us to agree to operating and financial covenants that would further restrict our operations.

If we are unable to enforce and protect our intellectual property rights our competitive position may be harmed. We rely on a combination of copyright, trademark, trade secret, patent, confidentiality, non-compete and other contractual provisions to protect our intellectual property rights. Despite our efforts to protect our intellectual property rights, unauthorized third parties may obtain and use technology or other information that we regard as proprietary. Our intellectual property rights may not survive a legal challenge to their validity or provide significant protection for us. The laws of certain countries, particularly in emerging markets, do not protect our proprietary rights to the same extent as the laws of the United States. Accordingly, we may not be able to protect our intellectual property against unauthorized third-party copying or use, which could adversely affect our competitive position. Additionally, there can be no assurance that another party will not assert that we have infringed its intellectual property rights.

Our employees are subject to non-compete agreements to the extent permitted under applicable law. When the non-competition period expires, former employees may compete against us. If a former employee chooses to compete against us prior to the expiration of the non-competition period, we seek to enforce these non-compete provisions but there is no assurance that we will be successful in our efforts.

We have grown, and may continue to grow, through acquisitions and strategic investments, which could involve substantial risks. We have made and may continue to make acquisitions of, or significant investments in, businesses that offer complementary products and services or otherwise support our growth objectives. The risks involved in each acquisition or investment include the possibility of paying more than the value we derive from the acquisition, dilution of the interests of our current stockholders should we issue stock in the acquisition, decreased working capital, increased indebtedness, the assumption of undisclosed liabilities and unknown and unforeseen risks, the ability to retain key personnel of the acquired company, the inability to integrate the business of the acquired company, the time to train the sales force to market and sell the products of the acquired business, the potential disruption of our ongoing business and the distraction of management from our day to day business. The realization of any of these risks could adversely affect our business. Additionally, we face competition in identifying acquisition targets and consummating acquisitions.

We face risks related to litigation. We are, and in the future may be, subject to a variety of legal actions, such as employment, breach of contract, intellectual property-related, and business torts, including claims of unfair trade practices and misappropriation of trade secrets. Given the nature of our business, we are also subject to defamation (including libel and slander), negligence, or other claims relating to the information we publish. Regardless of the merits and despite vigorous efforts to defend any such claim can affect our reputation, and responding to any such claim could be time consuming, result in costly litigation and require us to enter into settlements, royalty and licensing agreements which may not be offered or available on reasonable terms. If a claim is made against us which we cannot defend or resolve on reasonable terms, our business, brand, and financial results could be materially and adversely affected.

We face risks related to taxation. We are a global company with operations and clients in over 90 countries. A substantial amount of our earnings is generated outside of the U.S. and taxed at rates significantly less than the U.S. statutory federal income tax rate. Our effective tax rate, financial position and results of operations could be adversely affected by earnings being higher than anticipated in jurisdictions with higher statutory tax rates and, conversely, lower than anticipated in jurisdictions that have lower statutory tax rates, by changes in the valuation of our deferred tax assets and/or by changes in tax laws or accounting principles and their interpretation by relevant authorities.

At the present time, the United States and other countries where we do business have either changed or are actively considering changes in their tax, accounting and other related laws. In the United States, proposed tax law changes, particularly those directed at taxing unremitted and future foreign earnings, could increase our effective tax rate. In addition, Ireland recently modified its tax residency rules. While, at the present time, these changes are not effective until 2020 for many companies with Irish resident operations, including Gartner, the new rules could increase our effective tax rate at that future date. Likewise, certain international organizations such as the Organization for Economic Development and Cooperation, are actively considering proposals, certain of which, if enacted by foreign governments, could significantly increase our tax obligations in many countries where we do business. These actual, potential, and other changes, both individually and collectively, could materially increase our effective tax rate and negatively impact our financial position, results of operations, and cash flows.

In addition, our tax filings for various years are subject to examination by domestic and international taxing authorities and, during the ordinary course of business, we are under audit by tax authorities. Although we believe that our tax filings and related accruals are reasonable, the final resolution of tax audits may be materially different from what is reflected in our historical tax provisions and accruals and could have a material adverse effect on our effective tax rate, financial position, results of operations, and cash flows, particularly in major taxing jurisdictions including, but not limited to: the United States, Ireland, India, Canada, United Kingdom, Japan, France, and Italy.

Our corporate compliance program cannot guarantee that we are in compliance with all applicable laws and regulations. We operate in a number of countries, including emerging markets, and as a result we are required to comply with numerous, and in many cases, changing international and U.S. federal, state and local laws and regulations. As a result, we have developed and instituted a corporate compliance program which includes the creation of appropriate policies defining employee behavior that mandate adherence to laws, employee training, annual affirmations, monitoring and enforcement. However, if any employee fails to comply with, or intentionally disregards, any of these laws, regulations or our policies, a range of liabilities could result for the employee and for the Company, including, but not limited to, significant penalties and fines, sanctions and/or litigation, and the expenses associated with defending and resolving any of the foregoing, any of which could have a negative impact on our reputation and business.

Risks related to our Common Stock

Our operating results may fluctuate from period to period and may not meet the expectations of investors or the financial guidance we have given, which may cause the price of our Common Stock to decline. Our quarterly and annual operating results may fluctuate in the future as a result of many factors, including the timing of the execution of research contracts, the extent of completion of consulting engagements, the timing of symposia and other events, the amount of new business generated, the mix of domestic and international business, currency fluctuations, changes in market demand for our products and services, the timing of the development, introduction and marketing of new products and services, and competition in the industry. An inability to generate sufficient earnings and cash flow, and achieve our forecasts, may impact our operating and other activities. The potential fluctuations in our operating results could cause period-to-period comparisons of operating results not to be meaningful and may provide an unreliable indication of future operating results. Furthermore, our operating results may not meet the expectations of investors or the financial guidance we have previously provided. If this occurs, the price of our Common Stock could decline.

Our stock price may be impacted by factors outside of our control and you may not be able to resell shares of our Common Stock at or above the price you paid. The price of our Common Stock is subject to significant fluctuations in response to, among other factors, developments in the industries in which we do business, general economic conditions, general market conditions, geo-

political events, changes in the nature and composition of our stockholder base, changes in securities analysts' recommendations regarding our securities and our performance relative to securities analysts' expectations for any quarterly period, as well as other factors outside of our control including any and all factors that move the securities markets generally. These factors may adversely affect the market price of our Common Stock.

Future sales of our Common Stock in the public market could lower our stock price. Sales of a substantial number of shares of Common Stock in the public market by our current stockholders, or the threat that substantial sales may occur, could cause the market price of our Common Stock to decrease significantly or make it difficult for us to raise additional capital by selling stock. Furthermore, we have various equity incentive plans that provide for awards in the form of stock options, stock appreciation rights, restricted stock, restricted stock units and other stock-based awards which have the effect of adding shares of Common Stock into the public market. At the present time, we are executing against a board-approved share repurchase program to reduce the number of outstanding shares of our Common Stock. At December 31, 2014, \$413.3 million remained available for share purchases under this program. No assurance can be given that we will continue these activities in the future when the program is completed, or in the event that the price of our Common Stock reaches levels at which repurchases are not accretive.

As of December 31, 2014, the aggregate number of shares of our Common Stock issuable pursuant to outstanding grants and awards under these plans was approximately 2.9 million shares (approximately 0.6 million of which have vested). In addition, at the present time, approximately 8.0 million shares may be issued in connection with future awards under our equity incentive plans. Shares of Common Stock issued under these plans are freely transferable and have been registered under the Securities Act of 1933, as amended (the "Securities Act"), except for any shares held by affiliates (as that term is defined in Rule 144 under the Securities Act) which are subject to certain limitations. We cannot predict the size of future issuances of our Common Stock or the effect, if any, that future issuances and sales of shares of our Common Stock will have on the market price of our Common Stock.

Interests of certain of our significant stockholders may conflict with yours. To our knowledge, as of the date hereof, and based upon publicly-available SEC filings, four institutional investors each presently hold over 5% of our Common Stock. While no stockholder or institutional investor individually holds a majority of our outstanding shares, these significant stockholders may be able, either individually or acting together, to exercise significant influence over matters requiring stockholder approval, including the election of directors, amendment of our certificate of incorporation, adoption or amendment of equity plans and approval of significant transactions such as mergers, acquisitions, consolidations and sales or purchases of assets. In addition, in the event of a proposed acquisition of the Company by a third party, this concentration of ownership may delay or prevent a change of control in us. Accordingly, the interests of these stockholders may not always coincide with our interests or the interests of other stockholders, or otherwise be in the best interests of us or all stockholders.

Our anti-takeover protections may discourage or prevent a change of control, even if a change in control would be beneficial to our stockholders. Provisions of our restated certificate of incorporation and bylaws and Delaware law may make it difficult for any party to acquire control of us in a transaction not approved by our Board of Directors. These provisions include:

- the ability of our Board of Directors to issue and determine the terms of preferred stock;
- advance notice requirements for inclusion of stockholder proposals at stockholder meetings; and
- the anti-takeover provisions of Delaware law.

These provisions could discourage or prevent a change of control or change in management that might provide stockholders with a premium to the market price of their Common Stock.

ITEM 1B. UNRESOLVED STAFF COMMENTS.

The Company has no unresolved written comments that were received from the SEC staff 180 days or more before the end of our fiscal year relating to our periodic or current reports under the Exchange Act.

ITEM 2. PROPERTIES.

We currently lease 32 domestic and 65 international offices and we have a significant presence in Stamford, Connecticut; Ft. Myers, Florida; and Egham, the United Kingdom. The Company does not own any properties.

Our corporate headquarters is located in 213,000 square feet of leased office space in three buildings located in Stamford. This facility also accommodates research and analysis, marketing, sales, client support, production, corporate services, and administration. The Company's lease on the Stamford facility expires in 2028 and we have three options to renew the lease at fair market value for five years each.

Our Ft. Myers operations are currently located in 120,000 square feet of leased office space in one building for which the lease will expire in 2026. We have also leased an additional 132,000 square feet of space in Ft. Myers in an adjoining building, which is under construction. We currently anticipate this facility will open in mid-2015, and the lease will expire in 2030. Our Egham location has approximately 72,000 square feet of leased office space located in two separate buildings. However, we recently exercised our rights to early termination of one of the Egham leases, and we have entered into agreements with the landlord to occupy under lease a new 120,000 square foot building in the location of one of the existing buildings. Our other domestic and international locations support our research, consulting, domestic and international sales efforts, and other functions.

Our existing and planned facility expansions are adequate for our currently anticipated needs. However, we expect to continue to invest in our business by adding headcount. As a result, we may need additional office space in various locations. Should additional space be necessary, we believe that it will be available and at reasonable terms.

ITEM 3. LEGAL PROCEEDINGS.

We are involved in various legal and administrative proceedings and litigation arising in the ordinary course of business. The outcome of these individual matters is not predictable at this time. However, we believe that the ultimate resolution of these matters, after considering amounts already accrued and insurance coverage, will not have a material adverse effect on our financial position, results of operations, or cash flows in future periods.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

SHARE REPURCHASES

The Company has an \$800.0 million share repurchase program, of which \$413.3 million remained available for repurchases as of December 31, 2014. The Company may repurchase its common stock from time-to-time in amounts and at prices the Company deems appropriate, subject to the availability of stock, prevailing market conditions, the trading price of the stock, the Company's financial performance and other conditions. Repurchases may be made through open market purchases, private transactions, or other transactions and will be funded from cash on hand and borrowings under the Company's credit agreement. Repurchases may also be made from time-to-time in connection with the settlement of the Company's share-based compensation awards.

FORWARD-LOOKING STATEMENTS

In addition to historical information, this Annual Report on Form 10-K contains certain forward-looking statements. Forward-looking statements are any statements other than statements of historical fact, including statements regarding our expectations, beliefs, hopes, intentions or strategies regarding the future. In some cases, forward-looking statements can be identified by the use of words such as “may,” “will,” “expect,” “should,” “could,” “believe,” “plan,” “anticipate,” “estimate,” “predict,” “potential,” “continue,” or other words of similar meaning.

Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those discussed in, or implied by, the forward-looking statements. BUSINESS MEASUREMENTS

We believe the following business measurements are important performance indicators for our business segments:

BUSINESS SEGMENT	BUSINESS MEASUREMENTS
Research	<p>Contract value represents the value attributable to all of our subscription-related research products that recognize revenue on a ratable basis. Contract value is calculated as the annualized value of all subscription research contracts in effect at a specific point in time, without regard to the duration of the contract.</p> <p>Client retention rate represents a measure of client satisfaction and renewed business relationships at a specific point in time. Client retention is calculated on a percentage basis by dividing our current clients, who were also clients a year ago, by all clients from a year ago.</p> <p>Wallet retention rate represents a measure of the amount of contract value we have retained with clients over a twelve-month period. Wallet retention is calculated on a percentage basis by dividing the contract value of clients, who were clients one year earlier, by the total contract value from a year earlier, excluding the impact of foreign currency exchange. When wallet retention exceeds client retention, it is an indication of retention of higher-spending clients, or increased spending by retained clients, or both.</p>
Consulting	<p>Consulting backlog represents future revenue to be derived from in-process consulting, measurement and strategic advisory services engagements.</p> <p>Utilization rate represents a measure of productivity of our consultants. Utilization rates are calculated for billable headcount on a percentage basis by dividing total hours billed by total hours available to bill.</p> <p>Billing rate represents earned billable revenue divided by total billable hours.</p> <p>Average annualized revenue per billable headcount represents a measure of the revenue generating ability of an average billable consultant and is calculated periodically by multiplying the average billing rate per hour times the utilization percentage times the billable hours available for one year.</p>
Events	<p>Number of events represents the total number of hosted events completed during the period.</p> <p>Number of attendees represents the total number of people who attend events.</p>

Consultant utilization was 68% for 2014 compared to 64% in 2013, and we had 535 billable consultants at December 31, 2014 compared to 509 at year-end 2013. Backlog decreased 3% year-over-year, to \$102.6 million at December 31, 2014.

Events revenues increased 14% year-over-year, to \$227.7 million, and 16% adjusted for foreign currency impact. The segment contribution margin was 49% in 2014, a 3 point increase over 2013. We held 61 events in 2014 compared to 64 in 2013, while the number of attendees increased 9% year-over-year, to over 49,000.

For a more detailed discussion of our results, see the Segment Results section below.

Cash flow from our operating activities was \$346.8 million in 2014, an increase of 10% compared to 2013. We continue to focus on maximizing shareholder value, and in 2014 we repurchased 5.9 million of our outstanding common shares. We ended 2014 with \$365.3 million in cash and cash equivalents. We refinanced our existing credit facility during the fourth quarter of 2014 to take advantage of favorable market conditions, provide for additional liquidity, and extend the maturity of our debt. Our total borrowing capacity under the new arrangement is \$1.5 billion, which consists of a \$400.0 million term loan and a \$1.1 billion revolving credit arrangement. The new facility has a five year maturity. At December 31, 2014, approximately \$1.1 billion was available for borrowing under the revolver. We believe that we have adequate liquidity to meet our currently anticipated needs.

The Company completed three business acquisitions in 2014 (the "2014 Acquisitions"). These include Software Advice, Inc., which assists customers with software purchases; Market Visio Oy, a Finnish company and former sales agent for Gartner research in Finland and Russia; and SircleIT, Inc., a provider of cloud-based search technology that identifies subject-matter experts. Note 2 - Acquisitions in the Notes to the Consolidated Financial Statements included in this Annual Report on Form 10-K provides additional information regarding the 2014 Acquisitions. The operating results of these acquisitions have been included in our consolidated and segment operating results beginning on their respective dates of acquisition. The results of these businesses were not material to our consolidated or segment results for the year ended December 31, 2014.

FLUCTUATIONS IN QUARTERLY RESULTS

Our quarterly and annual revenue, operating income, and cash flow fluctuate as a result of many factors, including: the timing of our Symposium/ITxpo series, which are normally held during the fourth calendar quarter, as well as other events; the timing and amount of new business generated; the mix between domestic and international business; changes in market demand for our products and services; changes in foreign currency rates; the timing of the development, introduction and marketing of our new products and services; competition in the industry; general economic conditions; and other factors which are beyond our control. The potential fluctuations in our operating income could cause period-to-period comparisons of operating results not to be meaningful and could provide an unreliable indication of future operating results and cash flows.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements requires the application of appropriate accounting policies and the use of estimates. Our significant accounting policies are described in Note 1 in the Notes to Consolidated Financial Statements. Management considers the policies discussed below to be critical to an understanding of our financial statements because their application requires complex and subjective management judgments and estimates. Specific risks for these critical accounting policies are described below.

The preparation of our financial statements also requires us to make estimates and assumptions about future events. We develop our estimates using both current and historical experience, as well as other factors, including the general economic environment and actions we may take in the future. We adjust such estimates when facts and circumstances dictate. However, our estimates may involve significant uncertainties and judgments and cannot be determined with precision. In addition, these estimates are based on our best judgment at a point in time and as such these estimates may ultimately differ from actual results. On-going changes in our estimates could be material and would be reflected in the Company's financial statements in future periods.

Our critical accounting policies are as follows:

Revenue recognition — Revenue is recognized in accordance with the requirements of U.S. GAAP and SEC Staff Accounting Bulletin No. 104, Revenue Recognition ("SAB 104"). Revenue is only recognized once all required criteria for revenue recognition have been met. Revenue by significant source is accounted for as follows:

- Research revenues are derived from subscription contracts for research products and are deferred and recognized ratably over the applicable contract term. Fees from research reprints are recognized when the reprint is delivered.
- Consulting revenues are principally generated from fixed fee and time and material engagements. Revenues from fixed fee contracts are recognized on a proportional performance basis. Revenues from time and materials engagements are recognized as work is delivered and/or services are provided. Revenues related to contract optimization contracts are contingent in nature and are only recognized upon satisfaction of all conditions related to their payment.

- Events revenues are deferred and then recognized upon the completion of the related symposium, conference or exhibition.

The majority of research contracts are billable upon signing, absent special terms granted on a limited basis from time to time. All research contracts are non-cancelable and non-refundable, except for government contracts that may have cancellation or fiscal funding clauses. It is our policy to record the entire amount of the contract that is billable as a fee receivable at the time the contract is signed with a corresponding amount as deferred revenue, since the contract represents a legally enforceable claim.

Uncollectible fees receivable — We maintain an allowance for losses which is composed of a bad debt allowance and a sales reserve. Provisions are charged against earnings, either as a reduction in revenues or an increase to expense. The measurement of likely and probable losses and the allowance for losses is based on historical loss experience, aging of outstanding receivables, an assessment of current economic conditions and the financial health of specific clients. This evaluation is inherently judgmental and requires estimates. These valuation reserves are periodically re-evaluated and adjusted as more information about the ultimate collectability of fees receivable becomes available. Circumstances that could cause our valuation reserves to increase include changes in our clients' liquidity and credit quality, other factors negatively impacting our clients' ability to pay their obligations as they come due, and the effectiveness of our collection efforts.

The following table provides our total fees receivable and the related allowance for losses (in thousands):

	December 31,	
	2014	2013
Total fees receivable	\$ 558,807	\$ 497,923
Allowance for losses	(6,700)	(7,000)
Fees receivable, net	<u>\$ 552,107</u>	<u>\$ 490,923</u>

Goodwill and other intangible assets — The Company evaluates recorded goodwill in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 350, which requires goodwill to be assessed for impairment at least annually and whenever events or changes in circumstances indicate that the carrying value may not be recoverable. In addition, an impairment evaluation of our amortizable intangible assets may also be performed on a periodic basis should events or circumstances indicate potential impairment. If we determine that the fair value of a reporting unit is less than its related carrying amount, we must recognize an impairment charge against earnings. Among the factors we consider important that could trigger an impairment review are the following:

- Significant under-performance relative to historical or projected future operating results;
- Significant changes in the manner of our use of acquired assets or the strategy for our overall business;
- Significant negative industry or general economic trends;
- Significant decline in our stock price for a sustained period; and
- Our market capitalization relative to net book value.

The annual assessment of the recoverability of recorded goodwill can be based on either a quantitative or qualitative assessment or a combination of the two. Both methods require the use of estimates which in turn contain judgments and assumptions regarding future trends and events. As a result, both the precision and reliability of the resulting estimates are subject to uncertainty. In 2014, we completed the required annual goodwill impairment test utilizing a qualitative approach. Based on this assessment, the Company believes the fair values of the Company's reporting units continue to exceed their respective carrying amounts. See Note 1 — Business and Significant Accounting Policies in the Notes to the Consolidated Financial Statements for additional discussion.

Accounting for income taxes — The Company uses the asset and liability method of accounting for income taxes. We estimate our income taxes in each of the jurisdictions where we operate. This process involves estimating our current tax expense together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included within our consolidated balance sheets. In assessing the realizability of deferred tax assets, management considers if it is more likely than not that some or all of the deferred tax assets will not be realized. We consider the availability of loss carryforwards, projected reversal of deferred tax liabilities, projected future taxable income, and ongoing prudent and feasible tax planning strategies in making this assessment. The Company recognizes the tax

benefit from an uncertain tax position only if it is more likely than not the tax position will be sustained based on the technical merits of the position.

Accounting for stock-based compensation — The Company accounts for stock-based compensation in accordance with FASB ASC Topics 505 and 718, as interpreted by SEC Staff Accounting Bulletins No. 107 (“SAB No. 107”) and No. 110 (“SAB No. 110”). The Company recognizes stock-based compensation expense, which is based on the fair value of the award on the date of grant, over the related service period, net of estimated forfeitures (see Note 8 — Stock-Based Compensation in the Notes to the Consolidated Financial Statements for additional information regarding stock-based compensation).

Determining the appropriate fair value model and calculating the fair value of stock compensation awards requires the input of certain complex and subjective assumptions, including the expected life of the stock compensation award and the Company’s Common Stock price volatility. In addition, determining the appropriate amount of associated periodic expense requires management to estimate the rate of employee forfeitures and the likelihood of achievement of certain performance targets. The assumptions used in calculating the fair value of stock compensation awards and the associated periodic expense represent management’s best estimates, but these estimates involve inherent uncertainties and the application of judgment. As a result, if factors change and the Company deems it necessary in the future to modify the assumptions it made or to use different assumptions, or if the quantity and nature of the Company’s stock-based compensation awards changes, then the amount of expense may need to be adjusted and future stock compensation expense could be materially different from what has been recorded in the current period.

Restructuring and other accruals — We may record accruals for severance costs, costs associated with excess facilities that we have leased, contract terminations, asset impairments, and other costs as a result of on-going actions we undertake to streamline our organization, reposition certain businesses and reduce ongoing costs. Estimates of costs to be incurred to complete these actions, such as future lease payments, sublease income, the fair value of assets, and severance and related benefits, are based on assumptions at the time the actions are initiated. These accruals may need to be adjusted to the extent actual costs differ from such estimates. In addition, these actions may be revised due to changes in business conditions that we did not foresee at the time such plans were approved.

We also record accruals during the year for our various employee cash incentive programs. Amounts accrued at the end of each reporting period are based on our estimates and may require adjustment as the ultimate amount paid for these incentives are sometimes not known with certainty until after year end.

Please refer to the section of this MD&A below entitled "Segment Results" for a further discussion of revenues and results by segment.

COST OF SERVICES AND PRODUCT DEVELOPMENT (“COS”) expense increased 12% in 2014 compared to 2013, or \$84.4 million, to \$797.9 million compared to \$713.5 million in 2013. The impact of foreign currency exchange for the full year was not significant. The increase was primarily due to higher payroll and related benefits costs from additional headcount, which increased 12%. The headcount increase reflects our continued investment in our Research business and includes the additional employees resulting from the 2014 Acquisitions. COS as a percentage of revenues was 39% in the 2014 period compared to 40% in the 2013 period.

SELLING, GENERAL AND ADMINISTRATIVE (“SG&A”) expense increased by \$115.6 million in 2014, or 15%, to \$876.1 million compared to \$760.5 million in 2013. Excluding the favorable impact of foreign currency exchange, SG&A expense increased 16% year-over-year. The increase was primarily due to higher payroll and related benefits costs from additional headcount, higher sales commissions, and merit salary increases. The increased headcount includes our investment in additional quota-bearing sales associates, which increased to 1,881 at December 31, 2014, a 14% increase over year-end 2013.

DEPRECIATION expense increased 8% in 2014 compared to 2013, which reflects our additional investment in fixed assets.

AMORTIZATION OF INTANGIBLES increased 51% year-over-year due to the intangibles arising from the 2014 Acquisitions.

ACQUISITION AND INTEGRATION CHARGES was \$21.9 million in 2014 compared to \$0.3 million in 2013. These charges are directly-related to our acquisitions and primarily include amounts accrued for payments contingent on the achievement of certain employment conditions, legal, consulting, and severance costs.

OPERATING INCOME increased \$10.7 million year-over-year, or 4%, to \$286.2 million in 2014 from \$275.5 million in 2013. The increased operating income was attributable to higher segment contributions from our Research and Events businesses. Operating income as a percentage of revenues was 14% in 2014 and 15% in 2013.

INTEREST EXPENSE, NET increased 23% year-over-year due to additional borrowings in the 2014 period.

OTHER EXPENSE, NET was \$0.6 million in 2014 and \$0.2 million in 2013. These expenses primarily consisted of net foreign currency exchange gains and losses.

PROVISION FOR INCOME TAXES was \$90.9 million in 2014 compared to \$83.6 million in 2013 and the effective tax rate was 33.1% for 2014 compared to 31.4% for 2013. The higher effective tax rate in 2014 was primarily due to the impact of certain favorable items in 2013, as well as the unfavorable mix of pretax income by jurisdiction in 2014 which was partially offset by foreign tax credit benefits in 2014. The favorable items in 2013 included the enactment of certain beneficial legislation in 2013, the release of tax reserves due to audit settlements, and increased tax exempt income.

During 2014, the Internal Revenue Service closed its audit of the Company's 2011 and 2010 federal income tax returns. The resolution of the audit did not have a material adverse effect on the Company's consolidated financial position, cash flows, or results of operations.

NET INCOME was \$183.8 million in 2014 and \$182.8 million in 2013, an increase of 1%, as the increased operating income in 2014 was substantially offset by additional income tax charges. Diluted earnings per share increased 5% year-over-year, to \$2.03 in 2014, primarily due to a lower number of weighted-average shares outstanding.

2013 VERSUS 2012

The following table presents the changes in selected line items in our Consolidated Statements of Operations for the two years ended December 31, 2013 (in thousands):

	Twelve Months Ended December 31, 2013	Twelve Months Ended December 31, 2012	Income Increase (Decrease) \$	Increase (Decrease) %

TOTAL REVENUES for the twelve months ended December 31, 2013 increased \$168.4 million, or 10%, compared to the twelve months ended December 31, 2012. Total revenues increased 11% excluding the unfavorable impact of foreign currency. Revenues increased in all three of our business segments and across all of our geographic regions.

COST OF SERVICES AND PRODUCT DEVELOPMENT (“COS”) expense increased 8% in 2013 compared to 2012, or \$54.4 million, to \$713.5 million compared to \$659.1 million in 2012. The increase was primarily due to higher payroll and related benefits costs from additional headcount as we continued to invest to support the growth in our business, and to a lesser extent, merit salary increases. We also had higher conference costs due to an increase in the number of events, a double-digit increase in the number of exhibitors at our events, and the upgrading of facilities in several locations to support anticipated growth in the

events business. These additional costs were partially offset by the favorable impact of foreign currency. COS as a percentage of revenues was 40% in the 2013 period compared to 41% in the 2012 period.

SELLING, GENERAL AND ADMINISTRATIVE (“SG&A”) expense increased by \$81.6 million in 2013, or 12%, to \$760.5 million compared to \$678.8 million in 2012. The increase was primarily due to higher payroll and related benefits costs, which was partially offset by favorable foreign currency impact. The higher payroll and benefit cost was primarily driven by our investment in additional headcount, and to a lesser extent, higher sales commissions and merit salary increases. The increased headcount includes additional quota-bearing sales associates, which increased to 1,643 at December 31, 2013, a 16% increase over year-end 2012.

DEPRECIATION expense increased 14% in 2013 compared to 2012, primarily due to additional depreciation on leasehold improvements from two renovated buildings on our Stamford headquarters campus being placed into service during 2013.

AMORTIZATION OF INTANGIBLES increased 24% year-over-year due to a full year of amortization in 2013 of the intangible assets recorded from the Ideas International acquisition in mid-2012.

ACQUISITION AND INTEGRATION CHARGES was \$0.3 million in 2013 compared to \$2.4 million in 2012. These charges are directly-related to our acquisitions and primarily include legal, consulting, and severance costs.

OPERATING INCOME increased \$29.8 million year-over-year, or 12%, to \$275.5 million in 2013 from \$245.7 million in 2012. The increased operating income was primarily attributable to a substantially higher segment contribution from our Research segment. Operating income as a percentage of revenues was 15% for both periods.

INTEREST EXPENSE, NET was flat year-over-year.

OTHER EXPENSE, NET was \$0.2 million in 2013 and \$1.3 million in 2012. These expenses primarily consisted of net foreign currency exchange gains and losses.

PROVISION FOR INCOME TAXES was \$83.6 million in 2013 compared to \$69.7 million in 2012 and the effective tax rate was 31.4% for 2013 compared to 29.6% for 2012. The higher effective tax rate in 2013 was primarily attributable to a change in the annual mix of pre-tax income by jurisdiction as well as the impact of certain state tax credits recognized in 2012.

In 2013 the Company closed the Internal Revenue Service (“IRS”) audit of its 2008 and 2009 federal income tax returns. The resolution of the audit did not have a material adverse effect on the consolidated financial position, cash flows, or results of operations of the Company. In late 2013 the Company received notice that the IRS would conduct an audit of the Company's 2010 and 2011 tax years.

The American Taxpayer Relief Act of 2012 (the “2012 Tax Act”) was enacted in January of 2013 and contained beneficial tax provisions for the Company which applied retroactively to 2012. However, since the 2012 Tax Act was passed in 2013, approximately \$1.5 million of tax benefits relating to its retroactive application were recorded by the Company in early 2013.

NET INCOME was \$182.8 million in 2013 and \$165.9 million in 2012, an increase of \$16.9 million, or 10%, primarily due to the higher operating income, which was partially offset by higher income tax charges. Diluted earnings per share increased 12% year-over-year due to the higher net income and to a lesser extent a lower number of weighted-average shares outstanding.

SEGMENT RESULTS

We evaluate reportable segment performance and allocate resources based on gross contribution margin. Gross contribution is defined as operating income excluding certain Cost of services and product development charges, SG&A, Depreciation, Acquisition and integration charges, and Amortization of intangibles. Gross contribution margin is defined as gross contribution as a percentage of revenues.

The following sections present the results of our three business segments.

2014 VERSUS 2013

Research segment revenues in 2014 increased 14% compared to 2013. The impact of foreign exchange translation was not significant. The segment gross contribution margin was 69% for both periods. Contribution margin remained at 69% in spite of a 16% increase in segment headcount, which includes the additional employees from the 2014 Acquisitions.

Research contract value increased 13% in 2014 to \$1.603 billion, and increased 14% year-over-year adjusted for the impact of foreign currency translation. Our growth in contract value was broad-based, with every region, industry segment, and client size growing at double-digit rates compared to 2013. The number of our research client enterprises increased by 10% in 2014, to 9,958. Both enterprise client retention and wallet retention remained strong, at 85% and 106% as of December 31, 2014, respectively.

2013 VERSUS 2012

Research segment revenues in 2013 increased 12% compared to 2012. The impact of foreign exchange translation was not significant. The segment gross contribution margin increased by 1 point, to 69%, driven by the operating leverage in this business. Contribution margin improved in spite of an 8% increase in segment headcount. Research contract value increased 13% in 2013 to \$1.423 billion, and increased 12% year-over-year adjusted for the impact of foreign currency translation. Our growth in contract value was broad-based, with almost every region, industry segment, and client size growing at double-digit rates compared to 2012. Enterprise client retention and wallet retention were 83% and 104% at December 31, 2013, respectively.

2014 VERSUS 2013

Consulting revenues increased 11% year-over-year and 12% when adjusted for the impact of foreign exchange. The increase was primarily due to higher core consulting revenues and to a lesser extent, higher contract optimization revenues. Contract optimization revenues can fluctuate from period to period but are generally about 10-15% of total annual Consulting segment revenues. The gross contribution margin was 34% for both periods. Backlog decreased \$3.5 million, or 3%, year-over-year, to \$102.6 million at December 31, 2014.

2013 VERSUS 2012

Consulting revenues increased 3% year-over-year and 4% when adjusted for the impact of foreign exchange. The increase was due to higher contract optimization revenue. The increased contract optimization revenues were partially offset by slightly lower core consulting and strategic advisory (“SAS”) revenues. The gross contribution margin declined by 2 points due to higher payroll and benefit costs from additional headcount and merit salary increases, and to a lesser extent, lower utilization in core consulting. Backlog increased \$3.4 million, or 3%, year-over-year, to \$106.1 million at December 31, 2013.

2014 VERSUS 2013

Events revenues increased \$28.8 million when comparing 2014 to 2013, or 14%. Excluding the impact of foreign currency translation, revenues increased 16% year-over-year. We held 61 events in 2014, consisting of 59 ongoing events and 2 new events, compared to 64 events in 2013. Five events that were held in 2013 were discontinued in 2014. The year-over-year revenue increase was primarily attributable to higher exhibitor revenue at our ongoing events and to a lesser extent, higher attendee revenue. The overall number of attendees increased 9%, while the number of exhibitors increased 10%. Average revenue per attendee rose 6% and average revenue per exhibitor increased 9%. The gross contribution margin increased 3 points year-over-year.

2013 VERSUS 2012

Events revenues increased \$25.2 million when comparing 2013 to 2012, or 14%, but excluding the impact of foreign currency translation, revenues increased 15% year-over-year. We held 64 events in 2013, consisting of 58 ongoing events and 6 new events, compared to 62 events in 2012. The year-over-year revenue increase was primarily attributable to higher exhibitor revenue at our ongoing events. The overall number of attendees declined slightly while the number of exhibitors increased 11%. Average revenue per attendee rose 15% and average revenue per exhibitor increased 6%. The gross contribution margin was flat year-over-year at 46%.

LIQUIDITY AND CAPITAL RESOURCES

We finance our operations primarily through cash generated from our operating activities. For 2014, we had operating cash flow of \$346.8 million, which was the highest in the Company's history and represented an increase of 10% over 2013. Our operating cash flow has been continuously enhanced by the leverage characteristics of our subscription-based business model as well as our focus on operational efficiencies. Revenues in our Research segment, which increased 14% in 2014 compared to 2013, constituted 72% and 71% of our total revenues in 2014 and 2013, respectively. The majority of our research contracts renew annually and typically are paid in advance, and combined with a strong customer retention rate and high incremental margins, has generally resulted in strong growth in operating cash flow each year. Our cash flow generation has also benefited from our continuing efforts to improve the operating efficiencies of our businesses as well as a focus on the optimal management of our working capital as we increase our sales volume.

We had over \$365.0 million of cash and cash equivalents at year-end 2014. We refinanced our debt in 2014 to take advantage of favorable market conditions and we had approximately \$1.1 billion of available borrowing capacity under our revolving credit facility at year-end 2014. We believe that our consistently strong operating cash flow, as well as our existing cash balances and our available borrowing capacity, provide us with adequate liquidity to meet our currently anticipated needs.

Our cash and cash equivalents are held in numerous locations throughout the world. At December 31, 2014, \$305.0 million of our cash and cash equivalents was held outside the U.S. Approximately 61% of the cash and cash equivalents held overseas represents unremitted earnings of our non-U.S. subsidiaries. Under U.S. accounting rules, no provision for income taxes that may result from the remittance of such earnings is required if the Company intends to reinvest such funds overseas. Our current plans do not demonstrate a need to repatriate these undistributed earnings to fund our U.S. operations or otherwise satisfy the liquidity needs of our U.S. operations. We intend to reinvest these earnings in our non-U.S. operations, except in instances in which the repatriation of these earnings would result in minimal additional tax. As a result, the Company has not recognized additional income tax expense that may result from the remittance of these earnings. However, should our liquidity needs change or we decide to repatriate some or all of these unremitted earnings, we may be required to accrue additional taxes which could have a material effect on our consolidated financial position, cash flows, and results of operations.

Changes in cash and cash equivalents

(1) During 2014, a number of foreign currencies in which we hold cash weakened relative to the U.S. Dollar. As a result, the effects of exchange rates had a significant impact on the December 31, 2014 cash and cash equivalent balance.

2014 VERSUS 2013

Operating

Operating cash flow increased by \$31.1 million, or 10%, when comparing 2014 to 2013. The increase was primarily due to additional cash collections in our Research and Events businesses and other positive working capital changes. Partially offsetting the additional collections were higher cash payments for bonuses, commissions, and income taxes.

Investing

We used an additional \$126.3 million of cash in our investing activities in 2014 compared to 2013, principally due to the 2014 Acquisitions, in which we paid a total of \$109.9 million (net of the cash acquired), and an additional \$14.4 million was placed in escrow. The Company used both existing cash and additional borrowings to finance the 2014 Acquisitions. We also used an additional \$2.0 million in cash for capital expenditures in the 2014 period.

Financing

We used \$208.7 million of cash in our financing activities during 2014 compared to \$153.9 million of cash used in 2013. During 2014, the Company used \$432.0 million of cash for share repurchases, which was partially offset by \$195.4 million of net proceeds from debt issuance and related debt issuance costs and \$28.0 million from employee share-based activity. During 2013 the Company used \$182.0 million of cash for share repurchases and \$4.0 million for debt refinancing fees, which was partially offset by \$32.0 million from employee share-based activities.

2013 VERSUS 2012

Operating

Operating cash flow increased by \$35.8 million, or 13%, when comparing 2013 to 2012. The increase was primarily due to higher net income in the 2013 period, as well as additional receivable collections and other positive working capital changes. These increases were partially offset by additional cash payments in the 2013 period for bonus, commissions, and income taxes, and we also had lower cash reimbursements in the 2013 period related to the completion of the renovation of our Stamford headquarters facility.

Investing

Cash used in our investing activities declined by \$18.2 million in 2013 compared to 2012. The decrease was primarily due to \$10.3 million of cash used in 2012 for the acquisition of Ideas International and to a lesser extent, higher capital expenditures in 2012.

Capital expenditures were \$36.5 million in 2013 compared to \$44.3 million in 2012, which included \$7.7 million and \$17.0 million, respectively, that were paid for the renovation of our Stamford headquarters facility. The Company's total expenditures on the renovation were approximately \$34.2 million. The Company received a total of \$25.0 million of reimbursements from the facility landlord for the renovation, of which \$3.0 million was received in 2013, \$13.0 million in 2012, and \$9.0 million in 2011, which were recorded in operating cash flows.

Financing

We used \$154.0 million of cash in our financing activities in 2013 compared to \$73.0 million in 2012, an increase in cash used of \$81.0 million, primarily due to share repurchases. We used \$182.0 million of cash in 2013 for share repurchases compared to \$111.0 million in 2012. We also had lower cash proceeds from employee share-based activity in the 2013 period, and we also paid \$4.0 million of fees related to our debt refinancing in the 2013 period.

OBLIGATIONS AND COMMITMENTS

2014 Credit Agreement

The Company has a five-year credit arrangement that it entered into in December 2014 that provides for a \$400.0 million term loan and a \$1.1 billion revolving credit facility (the "2014 Credit Agreement"). Under the revolving credit facility, amounts may be borrowed, repaid, and re-borrowed through the maturity date of the agreement in December 2019. The term and revolving facilities may be increased, at the Company's option, by up to an additional \$500.0 million in the aggregate. As of December 31, 2014, the Company had \$400.0 million outstanding under the term facility and zero under the revolver. See Note 5 - Debt in the Notes to the Consolidated Financial Statements for additional information regarding the 2014 Credit Agreement.

Off-Balance Sheet Arrangements

Through December 31, 2014, we have not entered into any off-balance sheet arrangements or transactions with unconsolidated entities or other persons.

Contractual Cash Commitments

The Company has certain contractual commitments that require future cash payments. The following table summarizes these contractual cash commitments due after December 31, 2014 (in thousands):

(1) Includes amounts due under the 2014 Credit Agreement, which matures in December 2019. Amounts borrowed under the term loan arrangement have been classified in the table based on the scheduled repayment dates. Interest payments on amounts outstanding under the 2014 Credit Agreement were based on the floating rate as of December 31, 2014.

(2) The Company's \$5.0 million State of Connecticut economic development loan is included in the Due In More Than 5 Years category since it has a 10 year maturity. Interest payments on the loan have been calculated based on the contractual fixed rate of interest of 3%. Under certain circumstances, part or all of this debt may be forgiven by the State. See Note 5 — Debt in the Notes to the Consolidated Financial Statements for additional information.

- (3) The Company leases various facilities, furniture, autos, and computer equipment. These leases expire between 2015 and 2028. See Note 1 — Business and Significant Accounting Policies in the Notes to the Consolidated Financial Statements for additional information on the Company's leases.
- (4) Represents the Company's liability to participants in its supplemental deferred compensation arrangement (see Note 13 — Employee Benefits in the Notes to the Consolidated Financial Statements for additional information). Amounts payable to active employees whose payment date is unknown have been included in the Due In More Than 5 Years category since the Company cannot determine when the amounts will be paid.
- (5) Includes interest and penalties. In addition to the amount presented in the table, the Company also has recorded liabilities of \$19.9 million for unrecognized tax benefits and \$2.9 million for related potential interest and penalties. We are uncertain as to when or if such amounts may be settled.
- (6) Includes (i) contractual commitments for software, building maintenance, and telecom services; (ii) amounts due for share repurchase transactions that occurred in late December 2014 but were settled in early January 2015; and (iii) projected cash contributions to the Company's defined benefit pension plans.

RECENTLY ISSUED ACCOUNTING STANDARDS

Accounting rules issued by the various U.S. standard setting and governmental authorities that have not yet become effective and may impact our Consolidated Financial Statements in future periods are described below, together with our assessment of the potential impact they may have on our Consolidated Financial Statements and related disclosures in future periods:

Revenue Recognition

In May 2014, the FASB issued Accounting Standards Update (ASU) No. 2014-09, "*Revenue from Contracts with Customers*" ("ASU No. 2014-09"). ASU No. 2014-09 is intended to clarify the principles for recognizing revenue by: removing inconsistencies and weaknesses in revenue recognition requirements; providing a more robust framework for addressing revenue issues; improving comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets; and providing more useful information to users of financial statements through improved revenue disclosure requirements. The provisions of the new rule are effective for Gartner on January 1, 2017. Early adoption is not permitted. We continue to evaluate the impact of ASU No. 2014-09.

Discontinued Operations

In May 2014, the FASB issued ASU No. 2014-08, "*Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*" ("ASU 2014-08"), which changes the criteria for determining which disposal transactions can be presented as discontinued operations and modifies related disclosure requirements. Under the new guidance, a discontinued operation is defined as a disposal of a component or group of components that is disposed of or is classified as held for sale and represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. The Company adopted the new rule on January 1, 2015 and it did not have an impact on the Company's consolidated financial statements.

The FASB also continues to work on a number of significant accounting rules which may impact the Company's accounting and disclosures in future periods. Since these rules have not yet been issued, the effective dates and potential impact are unknown.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

INTEREST RATE RISK

The Company's 2014 Credit Agreement provides for a five-year, \$400.0 million term loan and a \$1.1 billion revolving credit facility. We have exposure to changes in interest rates arising from borrowings under the 2014 Credit Agreement since amounts borrowed are based on a floating base rate of interest. At December 31, 2014, we had \$400.0 million outstanding under the term portion of the 2014 Credit Agreement and zero under the revolver. We have an interest rate swap contract which effectively converts the floating base rate on the first \$200.0 million of our borrowings to a 2.26% fixed rate. Since the Company only hedges the base interest rate risk on the first \$200.0 million of its outstanding borrowings, we are exposed to interest rate risk on floating rate borrowings in excess of \$200.0 million. Assuming the Company borrowed the entire \$1.5 billion under the 2014 Credit Agreement as of December 31, 2014, a 25 basis point increase or decrease in interest rates could change pre-tax annual interest expense by approximately \$3.3 million.

FOREIGN CURRENCY RISK

For both the fiscal years ended December 31, 2014 and 2013, approximately 45% of our revenues were derived from sales outside of the U.S. As a result, we conduct business in numerous currencies other than the U.S. dollar. Among the major foreign currencies in which we conduct business are the Euro, the British Pound, the Japanese Yen, the Australian dollar, and the Canadian dollar. This foreign currency exposure results in both translation risk and transaction risk:

Translation Risk

We are exposed to foreign currency translation risk since the functional currencies of our foreign operations are generally denominated in the local currency. Translation risk arises since the assets and liabilities that we report for our foreign subsidiaries are translated into U.S. dollars at the exchange rates in effect at the balance sheet dates, and these exchange rates fluctuate over time. For accounting purposes, these foreign currency translation adjustments are deferred and are recorded as a component of stockholders' equity and do not impact our operating results.

A measure of the potential impact of foreign currency translation on our Consolidated Balance Sheets can be determined through a sensitivity analysis of our cash and cash equivalents. At December 31, 2014, we had over \$365.0 million of cash and cash equivalents, with a substantial portion denominated in foreign currencies. If the foreign exchange rates of the five major foreign currencies in which we operate changed in comparison to the U.S. dollar by 10%, the amount of cash and cash equivalents we would have reported on December 31, 2014 could have increased or decreased by approximately \$24.0 million.

Because our foreign subsidiaries generally operate in a local functional currency that differs from the U.S. dollar, revenues and expenses in these foreign currencies translate into higher or lower revenues and expenses in U.S. dollars as the U.S. dollar continuously weakens or strengthens against these other currencies. Therefore, changes in exchange rates may affect our consolidated revenues and expenses (as expressed in U.S. dollars) from foreign operations. Historically, this impact on our consolidated earnings has not been material since foreign currency movements in the major currencies in which we operate tend to impact our revenues and expenses fairly equally.

Transaction Risk

We also have foreign exchange transaction risk since foreign subsidiaries typically enter into transactions in the normal course of business that are denominated in foreign currencies that differ from the local functional currency in which the foreign subsidiary operates. We may enter into foreign currency forward exchange contracts to mitigate the effects of foreign currency transaction risk. These contracts are normally short term in duration and both realized and unrealized gains and losses are recognized in current period earnings. At December 31, 2014, we had 77 outstanding foreign currency forward contracts with a total notional amount of approximately \$45.6 million and an immaterial net unrealized gain. Substantially all of these contracts matured by the end of January 2015.

CREDIT RISK

Financial instruments that potentially subject the Company to concentration of credit risk consist primarily of short-term, highly liquid investments classified as cash equivalents, accounts receivable, and an interest rate swap contract. The majority of the Company's cash and cash equivalents and its interest rate swap contract are with large investment grade commercial banks. Accounts receivable balances collectible from customers have limited concentration of credit risk due to our diverse customer base and geographic dispersion.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

ITEM 9A. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES

Management conducted an evaluation, as of December 31, 2014, of the effectiveness of the design and operation of our disclosure controls and procedures, (as such term is defined in Rules 13a- 15(e) and 15d- 15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) under the supervision and with the participation of our chief executive officer and chief financial officer. Based upon that evaluation, our chief executive officer and chief financial officer have concluded that our disclosure controls and procedures are effective in alerting them in a timely manner to material Company information required to be disclosed by us in reports filed or submitted under the Act.

MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Gartner management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Exchange Act Rules 13a-15(f) and 15d-15(f). Gartner's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. In addition, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions and that the degree of compliance with the policies or procedures may deteriorate. Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2014. In making this assessment, management used the criteria set forth in the *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Management's assessment was reviewed with the Audit Committee of the Board of Directors.

Based on its assessment of internal control over financial reporting, management has concluded that, as of December 31, 2014, Gartner's internal control over financial reporting was effective.

The effectiveness of management's internal control over financial reporting as of December 31, 2014 has been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report which is included in this Annual Report on Form 10-K in Part IV, Item 15.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes in our internal controls over financial reporting during the quarter ended December 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Gartner, Inc.:

We have audited the accompanying consolidated balance sheets of Gartner, Inc. and subsidiaries (the Company) as of December 31, 2014 and 2013, and the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2014. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Gartner, Inc. and subsidiaries as of December 31, 2014 and 2013, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 27, 2015 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Gartner, Inc.:

We have audited Gartner, Inc. and subsidiaries' (the Company) internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Gartner, Inc. and subsidiaries as of December 31, 2014 and 2013, and the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2014, and our report dated February 27, 2015 expressed an unqualified opinion on those consolidated financial statements.

GARTNER, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1 — BUSINESS AND SIGNIFICANT ACCOUNTING POLICIES

Business. Gartner, Inc. is a global information technology research and advisory company founded in 1979 with its headquarters in Stamford, Connecticut. Gartner delivers its principal products and services through three business segments: Research, Consulting, and Events. When used in these notes, the terms “Gartner,” “Company,” “we,” “us,” or “our” refer to Gartner, Inc. and its consolidated subsidiaries.

Basis of presentation. The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”), as defined in the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 270 for financial information and with the applicable instructions of U.S. Securities & Exchange Commission (“SEC”) Regulation S-X. The fiscal year of Gartner represents the twelve-month period from January 1 through December 31. All references to 2014, 2013, and 2012 herein refer to the fiscal year unless otherwise indicated.

Principles of consolidation. The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany transactions and balances have been eliminated.

Use of estimates. The preparation of the accompanying consolidated financial statements requires management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities, and reported amounts of revenues and expenses. Such estimates include the valuation of fees receivable, goodwill, intangible assets, and other long-lived assets, as well as tax accruals and other liabilities. In addition, estimates are used in revenue recognition, income tax expense, performance-based compensation charges, depreciation and amortization, and the allowance for losses on fees receivable. Management believes its use of estimates in the accompanying consolidated financial statements to be reasonable.

Management continuously evaluates and revises its estimates using historical experience and other factors, including the general economic environment and actions it may take in the future. Management adjusts these estimates when facts and circumstances dictate. However, these estimates may involve significant uncertainties and judgments and cannot be determined with precision. In addition, these estimates are based on management’s best judgment at a point in time. As a result, differences between our estimates and actual results could be material and would be reflected in the Company’s consolidated financial statements in future periods.

Acquisitions. The Company accounts for acquisitions in accordance with the acquisition method of accounting as prescribed by FASB ASC Topic 805, *Business Combinations*. The acquisition method of accounting requires the Company to record the net assets and liabilities acquired based on their estimated fair values as of the acquisition date, with any excess of the consideration transferred over the estimated fair value of the net assets acquired, including identifiable intangible assets, to be recorded to goodwill. Under the acquisition method, the operating results of acquired companies are included in the Company’s consolidated financial statements beginning on the date of acquisition. The Company had acquisitions in 2014 and 2012, which are discussed in Note 2 — Acquisitions.

Revenue Recognition. Revenue is recognized in accordance with U.S. GAAP and SEC Staff Accounting Bulletin No. 104, *Revenue Recognition* (“SAB 104”). Revenues are only recognized once all required criteria for recognition have been met. The accompanying Consolidated Statements of Operations presents revenues net of any sales or value-added taxes that we collect from customers and remit to government authorities.

The Company’s revenues by significant source are as follows:

Research

Research revenues are derived from subscription contracts for research products. These revenues are deferred and recognized ratably over the applicable contract term. The Company typically enters into twelve-month subscription contracts for research products, although multi-year contracts are being entered into with greater frequency. Reprint fees are recognized when the reprint is delivered.

The majority of research contracts are billable upon signing, absent special terms granted on a limited basis from time to time. Research contracts are non-cancelable and non-refundable, except for government contracts that may have cancellation or fiscal funding clauses, which historically have not produced material cancellations. It is our policy to record the entire amount of the contract that is billable as a fee receivable at the time the contract is signed with a corresponding amount as deferred revenue, since the contract represents a legally enforceable claim.

Consulting

Consulting revenues, primarily derived from consulting, measurement and strategic advisory services (paid one-day analyst engagements), are principally generated from fixed fee or time and materials engagements. Revenues from fixed fee engagements are recognized on a proportional performance basis, while revenues from time and material engagements are recognized as work is delivered and/or services are provided. Revenues related to contract optimization engagements are contingent in nature and are only recognized upon satisfaction of all conditions related to their payment. Unbilled fees receivable associated with consulting engagements were \$44.0 million at December 31, 2014 and \$37.0 million at December 31, 2013.

Events

Events revenues are deferred and recognized upon the completion of the related symposium, conference or exhibition. In addition, the Company defers certain costs directly related to events and expenses these costs in the period during which the related symposium, conference or exhibition occurs. The Company's policy is to defer only those costs, primarily prepaid site and production services costs, which are incremental and are directly attributable to a specific event. Other costs of organizing and producing our events, primarily Company personnel and non-event specific expenses, are expensed in the period incurred. At the end of each fiscal quarter, the Company assesses on an event-by-event basis whether expected direct costs of producing a scheduled event will exceed expected revenues. If such costs are expected to exceed revenues, the Company records the expected loss in the period determined.

Allowance for losses. The Company maintains an allowance for losses which is composed of a bad debt allowance and a sales reserve. Provisions are charged against earnings, either as a reduction of revenues or as an increase to expense. The amount of the allowance for losses is based on historical loss experience, aging of outstanding receivables, our assessment of current economic conditions and the financial health of specific clients.

Cost of services and product development ("COS"). COS expense includes the direct costs incurred in the creation and delivery of our products and services. These costs primarily relate to personnel.

Selling, general and administrative ("SG&A"). SG&A expense includes direct and indirect selling costs, general and administrative costs, and charges against earnings related to uncollectible accounts.

Commission expense. The Company records commission obligations upon the signing of customer contracts and amortizes the deferred obligation as commission expense over the period in which the related revenues are earned. Commission expense is included in SG&A in the Consolidated Statements of Operations.

Stock-based compensation expense. The Company accounts for stock-based compensation in accordance with FASB ASC Topics 505 and 718, as interpreted by SEC Staff Accounting Bulletins No. 107 ("SAB No. 107") and No. 110 ("SAB No. 110"). Stock-based compensation cost is based on the fair value of the award on the date of grant, which is expensed over the related service period, net of estimated forfeitures. The service period is the period over which the employee performs the related services, which is normally the same as the vesting period. During 2014, 2013 and 2012, the Company recognized \$38.8 million, \$34.7 million and \$36.4 million, respectively, of stock-based compensation expense, a portion of which is recorded in both COS and SG&A in the Consolidated Statements of Operations (see Note 8 — Stock-Based Compensation for additional information).

Income tax expense. The Company uses the asset and liability method of accounting for income taxes. We estimate our income taxes in each of the jurisdictions where we operate. This process involves estimating our current tax expense together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities, which are included within our consolidated balance sheets. In assessing the realizability of deferred tax assets, management considers if it is more likely than not that some or all of the deferred tax assets will not be realized. We consider the availability of loss carryforwards, projected reversal of deferred tax liabilities, projected future taxable income, and ongoing prudent and feasible tax planning strategies in making this assessment. The Company recognizes the tax benefit from an uncertain tax position only if it is more likely than not the tax position will be sustained based on the technical merits of the position.

Cash and cash equivalents. Includes cash and all highly liquid investments with original maturities of three months or less, which are considered cash equivalents. The carrying value of cash equivalents approximates fair value due to their short-term maturity. Investments with maturities of more than three months are classified as marketable securities. Interest earned is classified in Interest income in the Consolidated Statements of Operations.

Property, equipment and leasehold improvements. The Company leases all of its facilities and certain equipment. These leases are all classified as operating leases in accordance with FASB ASC Topic 840. The cost of these operating leases, including any contractual rent increases, rent concessions, and landlord incentives, are recognized ratably over the life of the related lease agreement. Lease expense was \$31.5 million, \$30.8 million, and \$30.3 million in 2014, 2013, and 2012, respectively.

Equipment, leasehold improvements, and other fixed assets owned by the Company are recorded at cost less accumulated depreciation. Except for leasehold improvements, these fixed assets are depreciated using the straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized using the straight-line method over the shorter of the estimated useful lives of the improvement or the remaining term of the related lease. The Company had total depreciation expense of \$31.2 million, \$29.0 million, and \$25.4 million in 2014, 2013, and 2012, respectively. The Company's total fixed assets, less accumulated depreciation and amortization, consisted of the following (in thousands):

Category	Useful Life (Years)	December 31,	
		2014	2013
Computer equipment and software	2-7	\$ 144,293	\$ 136,640

Less — accumulated depreciation and amortization		(161,618)	(149,166)
Property, equipment, and leasehold improvements, net		\$ 97,990	\$ 91,759

The Company incurs costs to develop internal use software used in our operations, and certain of these costs meeting the criteria outlined in FASB ASC Topic 350 are capitalized and amortized over future periods. Net capitalized development costs for internal use software was \$14.1 million at both December 31, 2014 and 2013, which is included in the Computer equipment and software category above. Amortization of capitalized internal software development costs, which is classified in Depreciation in the Consolidated Statements of Operations, totaled \$8.2 million in both 2014 and 2013, and \$7.4 million in 2012.

Intangible assets. The Company has amortizable intangible assets which are amortized against earnings using the straight-line method over their expected useful lives. Changes in intangible assets subject to amortization during the two-year period ended December 31, 2014 are as follows (in thousands):

December 31, 2014	Trade Names	Customer Relationships	Content	Software	Non-Compete	Total

(1) The additions are due to the Company's 2014 Acquisitions. See Note 2 — Acquisitions for additional information.

(2) The non-competition intangible relates to a separation agreement with the Company's former CFO.

(3) Intangible assets are amortized against earnings over the following periods: Trade name—2 to 5 years; Customer relationships 4 to 7 years; Content—1.5 to 4 years; Software—3 years; Non-compete—4 to 5 years.

(4) Aggregate amortization expense related to intangible assets was \$8.2 million, \$5.4 million, and \$4.4 million in 2014, 2013, and 2012, respectively.

The estimated future amortization expense by year from amortizable intangibles is as follows (in thousands):

2015	\$ 8,094

2018	4,330

Goodwill. Goodwill represents the excess of the purchase price of acquired businesses over the estimated fair value of the tangible and identifiable intangible net assets acquired. The evaluation of the recoverability of goodwill is performed in accordance with FASB ASC Topic 350, which requires an annual assessment of potential goodwill impairment at the reporting unit level and whenever events or changes in circumstances indicate that the carrying value of goodwill may not be recoverable. The annual assessment of the recoverability of recorded goodwill can be based on either a qualitative or quantitative assessment or a combination of the two. Both methods utilize estimates which in turn require judgments and assumptions regarding future trends and events. As a result, both the precision and reliability of the resulting estimates are subject to uncertainty.

The Company conducted a qualitative assessment of the fair value of its reporting units as of September 30, 2014 based in part on the demonstrated historical trend of the fair values of the Company's reporting units substantially exceeding their carrying values and the Company's recent financial performance. Among the factors included in the Company's qualitative assessment were general economic conditions and the competitive environment; actual and projected reporting unit financial performance; forward-looking business measurements; and external market assessments. Based on the results of the qualitative assessment, the Company believes the fair values of its reporting units continue to exceed their respective carrying values.

The following table presents changes to the carrying amount of goodwill by segment during the two-year period ended December 31, 2014 (in thousands):

	Research	Consulting	Events	Total
Balance, December 31, 2012 (1)	\$ 377,225	\$ 100,349	\$ 41,932	\$ 519,506

Balance, December 31, 2014	<u>\$ 445,460</u>	<u>\$ 99,417</u>	<u>\$ 41,788</u>	<u>\$ 586,665</u>

(1) The Company does not have an accumulated goodwill impairment loss.

(2) The addition is due to the 2014 Acquisitions (See Note 2—Acquisitions for additional discussion). All of the recorded goodwill from these acquisitions has been included in the Research segment.

Impairment of long-lived and intangible assets. The Company reviews its long-lived and intangible assets other than goodwill for impairment whenever events or changes in circumstances indicate that the carrying amount of the respective asset may not be recoverable. Such evaluation may be based on a number of factors including current and projected operating results and cash flows, changes in management's strategic direction as well as external economic and market factors. The Company's policy regarding long-lived assets and intangible assets other than goodwill is to evaluate the recoverability of these assets by determining whether the balance can be recovered through undiscounted future operating cash flows. Should events or circumstances indicate that the carrying value might not be recoverable based on undiscounted future operating cash flows, an impairment loss would be recognized. The amount of impairment, if any, is measured based on the difference between projected discounted future operating cash flows using a discount rate reflecting the Company's average cost of funds and the carrying value of the asset. The Company did not record any material impairment charges for long-lived and intangible assets during the three year period ended December 31, 2014.

Pension obligations. The Company has defined-benefit pension plans in several of its international locations (see Note 13 — Employee Benefits). Benefits earned under these plans are generally based on years of service and level of employee compensation. The Company accounts for defined benefit plans in accordance with the requirements of FASB ASC Topic 715. The Company determines the periodic pension expense and related liabilities for these plans through actuarial assumptions and valuations. The Company recognized \$3.4 million, \$3.8 million, and \$2.6 million of expense for these plans in 2014, 2013, and 2012, respectively. The Company classifies pension expense in SG&A in the Consolidated Statements of Operations.

Debt. The Company presents amounts borrowed in the Consolidated Balance Sheets at amortized cost. Interest accrued on amounts borrowed is classified in Interest expense in the Consolidated Statements of Operations. The Company refinanced its debt in 2014 and had \$405.0 million of debt outstanding at December 31, 2014 (see Note 5—Debt for additional information).

Foreign currency exposure. The functional currency of our foreign subsidiaries is typically the local currency. All assets and liabilities of foreign subsidiaries are translated into U.S. dollars at exchange rates in effect at the balance sheet date. Income and expense items are translated at average exchange rates for the year. The resulting translation adjustments are recorded as foreign currency translation adjustments, a component of Accumulated other comprehensive income, net within the Stockholders' equity section of the Consolidated Balance Sheets.

Currency transaction gains or losses arising from transactions denominated in currencies other than the functional currency of a subsidiary are recognized in results of operations in Other expense, net within the Consolidated Statements of Operations. Net currency transaction losses were \$(1.7) million, \$(0.9) million, and \$(2.3) million in 2014, 2013, and 2012, respectively. The Company enters into foreign currency forward exchange contracts to mitigate the effects of adverse fluctuations in foreign currency exchange rates on these transactions. These contracts generally have a short duration and are recorded at fair value with both realized and unrealized gains and losses recorded in Other expense, net. The net gain (loss) from these contracts was \$0.6 million, \$(0.1) million, and \$0.6 million in 2014, 2013, and 2012, respectively.

Comprehensive income. The Company reports comprehensive income in a separate statement termed the *Consolidated Statements of Comprehensive Income*, which is included herein. The Company's comprehensive income disclosures are included in Note 7 — Stockholders' Equity.

Fair value disclosures. The Company has a limited number of assets and liabilities that are adjusted to fair value at each balance sheet date. The Company's fair value disclosures are included in Note 12 — Fair Value Disclosures.

Concentrations of credit risk. Assets that may subject the Company to concentration of credit risk consist primarily of short-term, highly liquid investments classified as cash equivalents, accounts receivable, interest rate swaps, and a pension reinsurance asset. The majority of the Company's cash equivalent investments and its interest rate swap contract are with investment grade commercial banks. Accounts receivable balances deemed to be collectible from customers have limited concentration of credit risk due to our diverse customer base and geographic dispersion. The Company's pension reinsurance asset (see Note 13 — Employee Benefits) is maintained with a large international insurance company that was rated investment grade as of December 31, 2014.

Stock repurchase programs. The Company records the cost to repurchase its own common shares to treasury stock. During 2014, 2013 and 2012, the Company used \$432.0 million, \$181.7 million, and \$111.3 million, respectively, in cash for stock repurchases (see Note 7 — Stockholders' Equity). Shares repurchased by the Company are added to treasury shares and are not retired.

Adoption of new accounting rules. The Company adopted the following accounting rules in the year ended December 31, 2014:

Unrecognized Tax Benefits

The Company adopted ASU No. 2013-11, *"Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists"* ("ASU No. 2013-11") on January 1, 2014. ASU No. 2013-11 addresses the balance sheet presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. ASU No. 2013-11 requires that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. The balance sheet impact from the adoption of ASU No. 2013-11 was not material to the Company.

Cumulative Translation Adjustments

The Company adopted ASU No. 2013-05, *Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity* ("ASU No. 2013-05"), on January 1, 2014. ASU No. 2013-05 provides updated guidance to resolve diversity in practice concerning the release of the cumulative foreign currency translation adjustment into net income when a parent sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets within a foreign entity. When a company ceases to have a controlling financial interest, the company should recognize any related cumulative translation adjustment into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary had resided. Upon a partial sale, the company should release into earnings a pro rata portion of the cumulative translation adjustment. The adoption of ASU No. 2013-05 did not impact the Company's financial statements and will only have an impact upon the occurrence of a transaction within its scope.

Recent accounting developments. Accounting rules that have been issued by the FASB that have not yet become effective and that may impact the Company's consolidated financial statements or related disclosures in future periods are described below:

Revenue Recognition

In May 2014, the FASB issued Accounting Standards Update (ASU) No. 2014-09, *"Revenue from Contracts with Customers"* ("ASU No. 2014-09"). ASU No. 2014-09 is intended to clarify the principles for recognizing revenue by removing inconsistencies and weaknesses in revenue recognition requirements; providing a more robust framework for addressing revenue issues; improving comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets; and providing more useful information to users of financial statements through improved revenue disclosure requirements. The provisions of the new rule are effective for Gartner on January 1, 2017. Early adoption is not permitted. We continue to evaluate the impact of ASU No. 2014-09.

Discontinued Operations

In May 2014, the FASB issued ASU No. 2014-08, *Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity* ("ASU 2014-08"), which changes the criteria for determining which disposal transactions can be presented as discontinued operations and modifies related disclosure requirements. Under the new guidance, a discontinued operation is defined as a disposal of a component or group of components that is disposed of or is classified as held for sale and represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. The Company adopted the new rule on January 1, 2015 and it did not have an impact on the Company's consolidated financial statements.

The FASB also continues to work on a number of significant accounting rules which may impact the Company's accounting and disclosures in future periods. Since these rules have not yet been issued, the effective dates and potential impact are unknown.

2 — ACQUISITIONS

The Company completed three acquisitions in the year ended December 31, 2014 (the "2014 Acquisitions") and one acquisition in 2012, which are discussed below.

2014

In March 2014, the Company acquired Software Advice, Inc., ("Software Advice"), a privately-owned company based in Austin, Texas with 120 employees. Software Advice assists customers with software purchases. At closing, the Company paid \$103.2 million in cash for 100% of the outstanding shares of Software Advice. The Company is also obligated to pay up to an additional \$31.9 million in cash related to the acquisition. This includes \$13.5 million placed in escrow as security for potential losses. Release of the escrowed funds is also subject to the achievement of certain employment conditions. The escrow amount is considered restricted cash and is recorded in Other Assets in the Consolidated Balance Sheets. An additional \$18.4 million is payable contingent on the achievement of certain employment conditions. This amount is also subject to any indemnified losses in excess of the escrowed funds. The \$31.9 million obligation (adjusted for any indemnified losses) is being recognized as compensation expense over the two-year service period of the relevant employees in Acquisition and integration charges in the Consolidated Statements of Operations. If the employment conditions are not met, any expense previously accrued will be reversed in the period employment terminates.

In May 2014, the Company acquired 100% of the outstanding shares of Market-Visio Oy ("Market-Visio"), a privately-owned Finnish company with 68 employees, now named Gartner Finland Oy. Market-Visio was previously an independent sales agent of Gartner research products, as well as locally-created research content, in Finland and Russia. Gartner Finland Oy conducts its operations in Russia through a wholly-owned operating subsidiary, now named Gartner RUS LLC. The Company paid a total of \$6.5 million in cash for Market-Visio, which included \$4.1 million paid at close in May and \$2.4 million paid in October for working capital adjustments.

In June 2014, the Company acquired 100% of the outstanding shares of SircleIT Inc., a developer of cloud-based knowledge automation software, for \$5.7 million in cash. SircleIT Inc. is a domestic company that conducts its operations principally through Senexx Israel Ltd., its wholly-owned subsidiary in Israel with 2 employees. Gartner paid \$4.9 million in cash at close and an additional \$0.8 million was placed in escrow as security for certain indemnity claims, which is payable 18 months from the date of close.

The Company's financial statements include the operating results of these businesses beginning from their respective dates of acquisition. The operating results of these businesses were not material to the Company's consolidated and segment operating results for the fiscal year ended December 31, 2014. In addition, had the Company acquired these businesses in prior periods the impact to the Company's operating results for prior periods would not have been material, and as a result pro forma financial information for prior periods has not been presented. The Company recorded \$21.9 million of pre-tax acquisition and integration charges in the fiscal year ended December 31, 2014 related to these acquisitions, which are classified in Acquisition and integration charges in the Condensed Consolidated Statements of Operations. Acquisition and integration charges are directly-related to our acquisitions and primarily include amounts accrued for payments contingent on the achievement of certain employment conditions, legal, consulting, and severance costs.

The following table summarizes the preliminary allocation of the purchase price to the fair value of the assets acquired and liabilities assumed in the 2014 Acquisitions (in thousands):

	Software Advice	Other Acquisitions (1)	Total
Assets:			
Cash	\$ 1,450	\$ 3,203	\$ 4,653
Fees receivable and other current assets	3,606	3,694	7,300
Property, equipment, and leasehold improvements	235	170	405
Amortizable intangible assets (2)	26,928	5,047	31,975
Goodwill (3)	73,663	4,710	78,373
Total assets	\$ 105,882	\$ 16,824	\$ 122,706
Liabilities:			
Accounts payable and accrued liabilities	\$ 2,657	\$ 4,484	\$ 7,141
Total liabilities	\$ 2,657	\$ 4,484	\$ 7,141
Net assets acquired (4)	\$ 103,225	\$ 12,340	\$ 115,565

(1) Includes the SircleIT Inc. and Market-Visio acquisitions.

(2) See Note 1 - Business and Significant Accounting Policies for additional information regarding the types and amounts of amortizable intangibles recorded from the 2014 Acquisitions.

(3) During 2014, and subsequent to the 2014 Acquisitions, the Company recorded certain working capital, tax, and other minor adjustments which decreased the recorded goodwill resulting from the Market-Visio and SircleIT Inc. acquisitions by approximately \$0.1 million and \$0.2 million, respectively. In addition, the recorded amount of an amortizable intangible asset resulting from the Software Advice acquisition was reduced by \$2.7 million and goodwill was increased by the same amount due to a change in the underlying assumptions used to value the amortizable intangible asset based on the consideration of additional information that became available.

(4) The Company paid \$114.6 million in cash on a gross basis for the net assets acquired through December 31, 2014. On a net basis, and for cash flow reporting, the Company paid \$109.9 million in cash through December 31, 2014, which represents the \$114.6 million in cash paid on a gross basis minus the \$4.7 million of cash acquired from the purchased companies.

The determination of the fair value of the amortizable intangibles required management judgment and the consideration of a number of factors, significant among them the historical financial performance of the acquired businesses and projected performance, estimates surrounding customer turnover, as well as assumptions regarding the level of competition and the cost to reproduce certain assets. In determining the fair value of the intangibles, management primarily relied on income methodologies, in particular the discounted cash flow approach. Establishing the useful lives of the amortizable intangibles also required management judgment and the evaluation of a number of factors, among them projected cash flows and the likelihood of competition.

The Company considers the allocation of the purchase price for the 2014 Acquisitions to be preliminary with respect to certain tax contingencies. The majority of the recorded goodwill and intangibles from these transactions will be deductible for tax purposes over 15 years. All of the recorded goodwill from the 2014 Acquisitions was included in the Company's Research segment. The Company believes the recorded goodwill is supported by the anticipated revenue synergies, customer retention, and cost savings resulting from the combined operations.

2012

In 2012 the Company acquired 100% of the outstanding shares of Ideas International Limited ("Ideas International"), a publicly-owned Australian corporation for aggregate cash consideration of \$18.8 million. The operating results of Ideas International were not material to the Company's 2012 results. The Company recorded \$7.5 million of goodwill and \$8.5 million of amortizable intangible assets as a result of the acquisition. The Company also recorded \$0.3 million and \$2.4 million of pre-tax charges in 2013 and 2012, respectively, related to the acquisition, which are classified in Acquisition and integration charges in the Consolidated Statements of Operations.

5 — DEBT

2014 Credit Agreement

The Company entered into a new credit arrangement in December 2014 (the “2014 Credit Agreement”) to take advantage of favorable credit conditions. The 2014 Credit Agreement provides for a five-year, \$400.0 million term loan and a \$1.1 billion revolving credit facility. In addition, the 2014 Credit Agreement contains an expansion feature by which the term loan and revolving credit facility may be increased, at the Company’s option and under certain conditions, by up to an additional \$500.0 million in the aggregate.

The term loan will be repaid in 16 consecutive quarterly installments which will commence on March 31, 2015, plus a final payment due in December 2019, and may be prepaid at any time without penalty or premium (other than applicable breakage costs) at the Company’s option. The revolving credit facility may be used for loans, and up to \$40.0 million may be used for letters of credit. The revolving loans may be borrowed, repaid and re-borrowed until December 2019, at which time all amounts borrowed must be repaid. The Company recorded a charge of \$0.5 million for capitalized debt issuance costs related to the termination of the previous credit arrangement, which is included in Interest expense, net in the Condensed Consolidated Statements of Operations. The Company incurred \$4.6 million in debt issuance costs related to the new credit facility, which was capitalized and is being amortized to interest expense over the term of the 2014 Credit Agreement.

Amounts borrowed under the 2014 Credit Agreement bear interest at a rate equal to, at Gartner’s option, either:

(1) the greatest of: (i) the administrative agent’s prime rate; (ii) the average rate on overnight federal funds plus 1/2 of 1%; (iii) the eurodollar rate (adjusted for statutory reserves) plus 1%; in each case plus a margin equal to between 0.125% and 0.50% depending on Gartner’s consolidated leverage ratio as of the end of the four consecutive fiscal quarters most recently ended; or

(2) the eurodollar rate (adjusted for statutory reserves) plus a margin equal to between 1.125% and 1.50%, depending on Gartner’s leverage ratio as of the end of the four consecutive fiscal quarters most recently ended.

The 2014 Credit Agreement contains certain customary restrictive loan covenants, including, among others, financial covenants requiring a maximum leverage ratio, a minimum interest expense coverage ratio, and covenants limiting Gartner’s ability to incur indebtedness, grant liens, make acquisitions, be acquired, dispose of assets, pay dividends, repurchase stock, make capital expenditures, make investments and enter into certain transactions with affiliates. The Company was in full compliance with the loan covenants as of December 31, 2014.

The following table summarizes the Company’s total outstanding borrowings (in thousands):

Description:	Amount Outstanding	Amount Outstanding
	December 31, 2014	December 31, 2013
Term loan (1)	\$ 400,000	\$ 144,375
Revolver (1), (2)	—	55,625
Other (3)	5,000	5,000
Total (4)	\$ 405,000	\$ 205,000

(1) The contractual annual interest rate as of December 31, 2014 on the term loan was 1.42%, which consisted of a floating Eurodollar base rate of 0.17% plus a margin of 1.25%. However, the Company has an interest rate swap contract which converts the floating Eurodollar base rate to a 2.26% fixed base rate on the first \$200.0 million of Company borrowings (see below). As a result, the Company’s weighted-average annual interest rate on the \$400.0 million of outstanding debt under the 2014 Credit Facility as of December 31, 2014, including the margin, was approximately 2.46%.

(2) The Company had approximately \$1.1 billion of available borrowing capacity on the revolver (not including the expansion feature) as of December 31, 2014.

(3) Consists of a \$5.0 million State of Connecticut economic development loan with a 3.0% fixed rate of interest. The loan was originated in 2012 and has a 10 year maturity. Principal payments are deferred for the first five years and the loan may be

repaid at any point by the Company without penalty. The loan has a principal forgiveness provision in which up to \$2.5 million of the loan may be forgiven if the Company meets certain employment targets during the first five years of the loan.

(4) As of December 31, 2014, \$20.0 million of debt was classified as short term and \$385.0 million was classified as long term on the Consolidated Balance Sheets.

Interest Rate Hedge

The Company has a \$200.0 million notional fixed-for-floating interest rate swap contract which it designates as a hedge of the forecasted interest payments on the Company's variable rate borrowings. Under the swap terms, the Company pays a base fixed rate of 2.26% and in return receives a floating Eurodollar rate. The swap contract expires in late 2015.

The Company accounts for the interest rate swap as a cash flow hedge in accordance with FASB ASC Topic 815. Since the swap is hedging forecasted interest payments, changes in the fair value of the swap are recorded in OCI as long as the swap continues to be a highly effective hedge of the designated interest rate risk. Any ineffective portion of change in the fair value of the hedge is recorded in earnings. At December 31, 2014, there was no ineffective portion of the hedge. The interest rate swap had a negative fair value (liability) to the Company of \$2.9 million and \$6.5 million as of December 31, 2014 and 2013, respectively, which is recorded in Other liabilities in the Consolidated Balance Sheets.

Subsequent to year-end 2014, the Company entered into an additional \$200.0 million notional fixed-for-floating interest rate swap which will also hedge the forecasted interest payments on the Company's variable rate borrowings. The swap contract requires the Company to pay a fixed rate of 1.6% and in return receive a floating Eurodollar rate. The swap contract expires in September 2019.

Letters of Credit

The Company had \$9.3 million of letters of credit and related guarantees outstanding at year-end 2014. The Company issues these instruments in the ordinary course of business to facilitate transactions with customers and others.

6 — COMMITMENTS AND CONTINGENCIES

Contractual Lease Commitments. The Company leases various facilities, computer and office equipment, furniture, and other assets under non-cancelable operating lease agreements expiring between 2015 and 2030. The future minimum annual cash payments under these operating lease agreements as of December 31, 2014 were as follows (in thousands):

Year ended December 31,	
2015	\$ 35,230
2016	28,515
2017	22,930
2018	18,795
2019	16,740
Thereafter	100,960
Total minimum lease payments (1)	\$ 223,170

(1) Excludes \$0.1 million of future contractual sublease rental income.

Legal Matters. We are involved in various legal and administrative proceedings and litigation arising in the ordinary course of business. The outcome of these individual matters is not predictable at this time. However, we believe that the ultimate resolution of these matters, after considering amounts already accrued and insurance coverage, will not have a material adverse effect on our financial position, results of operations, or cash flows in future periods.

Indemnifications. The Company has various agreements that may obligate us to indemnify the other party with respect to certain matters. Generally, these indemnification clauses are included in contracts arising in the normal course of business under which we customarily agree to hold the other party harmless against losses arising from a breach of representations related to such matters as title to assets sold and licensed or certain intellectual property rights. It is not possible to predict the maximum potential amount of future payments under these indemnification agreements due to the conditional nature of the Company's obligations and the

unique facts of each particular agreement. Historically, payments made by us under these agreements have not been material. As of December 31, 2014, we did not have any indemnification agreements that could require material payments.

7 — STOCKHOLDERS' EQUITY

Common stock. Holders of Gartner's Common Stock, par value \$.0005 per share ("Common Stock") are entitled to one vote per share on all matters to be voted by stockholders. The Company does not currently pay cash dividends on its Common Stock. Also, our credit arrangement contains a negative covenant which may limit our ability to pay dividends. The following table summarizes transactions relating to Common Stock for the three years' ending December 31, 2014:

	Issued Shares	Treasury Stock Shares

(1) The Company used a total of \$432.0 million, \$181.7 million, and \$111.3 million in cash for share repurchases in 2014, 2013, and 2012, respectively.

Share repurchase authorization. On February 4, 2014, the Company's Board of Directors authorized \$800.0 million to repurchase the Company's common stock. This authorization succeeded the Company's prior \$500.0 million share repurchase authorization, which was substantially utilized. The Company may repurchase its common stock from time to time in amounts and at prices the Company deems appropriate, subject to the availability of stock, prevailing market conditions, the trading price of the stock, the Company's financial performance and other conditions. Repurchases may be made through open market purchases, private transactions or other transactions and will be funded from cash on hand and borrowings under the Company's credit agreement. As of December 31, 2014, approximately \$413.3 million of this authorization remained available for repurchases.

The following tables disclose information about changes in accumulated other comprehensive income ("AOCI"), a component of equity, by component and the related amounts reclassified out of AOCI to income during the years indicated (net of tax, in thousands) (1):

(2) The reclassifications related to the interest rate swap (cash flow hedge) were recorded in Interest expense, net of tax effect. See Note 11 – Derivatives and Hedging for information regarding the hedge.

(3) The reclassifications related to defined benefit pension plans were recorded in Selling, general and administrative expense, net of tax effect. See Note 13 – Employee Benefits for information regarding the Company’s defined benefit pension plans.

8 — STOCK-BASED COMPENSATION

The Company grants stock-based compensation awards as an incentive for employees and directors to contribute to the Company’s long-term success. The Company currently awards stock-settled stock appreciation rights, service-based and performance-based restricted stock units, and common stock equivalents. At December 31, 2014, the Company had 8.0 million shares of Common Stock available for awards of stock-based compensation under its 2014 Long-Term Incentive Plan.

The Company accounts for stock-based compensation awards in accordance with FASB ASC Topics 505 and 718, as interpreted by SEC Staff Accounting Bulletins No. 107 (“SAB No. 107”) and No. 110 (“SAB No. 110”). Stock-based compensation expense is based on the fair value of the award on the date of grant, which is then recognized as expense over the related service period, net of estimated forfeitures. The service period is the period over which the related service is performed, which is generally the same as the vesting period. Currently the Company issues treasury shares upon the exercise, release or settlement of stock-based compensation awards.

Determining the appropriate fair value model and calculating the fair value of stock-based compensation awards requires the input of certain complex and subjective assumptions, including the expected life of the stock-based compensation awards and the Common Stock price volatility. In addition, determining the appropriate amount of associated periodic expense requires management to estimate the amount of employee forfeitures and the likelihood of the achievement of certain performance targets. The assumptions used in calculating the fair value of stock-based compensation awards and the associated periodic expense represent management’s best estimates, which involve inherent uncertainties and the application of judgment. As a result, if factors change and the Company deems it necessary in the future to modify the assumptions it made or to use different assumptions, or if the quantity and nature of the Company’s stock-based compensation awards changes, then the amount of expense may need to be adjusted and future stock-based compensation expense could be materially different from what has been recorded in the current period.

The Company recognized the following amounts of stock-based compensation expense by award type for the years ended December 31 (in millions):

Award type:	2014	2013	2012
Stock appreciation rights	\$ 5.0	\$ 5.2	\$ 6.4
Common stock equivalents	0.6	0.6	0.5
Restricted stock units	33.2	28.9	29.5
Total (1)	<u>\$ 38.8</u>	<u>\$ 34.7</u>	<u>\$ 36.4</u>

- (1) Includes charges of \$14.8 million, \$12.5 million, and \$5.1 million in 2014, 2013 and 2012, respectively, for awards to retirement-eligible employees since these awards vest on an accelerated basis

Stock-based compensation expense was recognized by line item in the Consolidated Statements of Operations for the years ended December 31 (in millions):

Amount recorded in:	2014	2013	2012
Costs of services and product development	\$ 17.6	\$ 15.3	\$ 15.3
Selling, general, and administrative	21.2	19.4	21.1
Total	\$ 38.8	\$ 34.7	\$ 36.4

As of December 31, 2014, the Company had \$44.9 million of total unrecognized stock-based compensation cost, which is expected to be recognized as stock-based compensation expense over the remaining weighted-average service period of approximately 2.2 years.

Stock-Based Compensation Awards

The following disclosures provide information regarding the Company's stock-based compensation awards, all of which are classified as equity awards in accordance with FASB ASC Topic 505:

Stock Appreciation Rights

Stock-settled stock appreciation rights (SARs) permit the holder to participate in the appreciation of the Common Stock. SARs are settled in shares of Common Stock by the employee once the applicable vesting criteria have been met. SARs vest ratably over a four-year service period and expire seven years from the grant date. The fair value of SARs awards is recognized as compensation expense on a straight-line basis over four years. SARs have only been awarded to the Company's executive officers.

When SARs are exercised, the number of shares of Common Stock issued is calculated as follows: (1) the total proceeds from the SARs exercise (calculated as the closing price of the Common Stock on the date of exercise less the exercise price of the SARs, multiplied by the number of SARs exercised) is divided by (2) the closing price of the Common Stock as reported on the New York Stock Exchange on the exercise date. The Company withholds a portion of the shares of Common Stock issued upon exercise to satisfy minimum statutory tax withholding requirements. SARs recipients do not have any stockholder rights until after actual shares of Common Stock are issued in respect of the award, which is subject to the prior satisfaction of the vesting and other criteria relating to such grants.

The following table summarizes changes in SARs outstanding for the year ended December 31, 2014:

	SARs in millions	Per Share Weighted- Average Exercise Price	Per Share Weighted- Average Grant Date Fair Value	Weighted- Average Remaining Contractual Term
Outstanding at December 31, 2013	1.6	\$ 34.14	\$ 11.63	4.34 years
Granted	0.4	64.64	14.99	6.11 years
Forfeited	(0.1)	na	na	na
Exercised	(0.5)	24.12	8.82	na
Outstanding at December 31, 2014 (1), (2)	1.4	\$ 44.44	\$ 13.26	4.34 years
Vested and exercisable at December 31, 2014 (1)	0.6	\$ 33.36	\$ 11.62	3.22 years

na = not applicable

- (1) At December 31, 2014, 0.8 million of these SARs were unvested. The Company expects that substantially all of these unvested awards will vest in future periods.
- (2) At December 31, 2014, SARs outstanding had an intrinsic value of \$58.5 million. SARs vested and exercisable had an intrinsic value of \$30.8 million.

The fair value of the SARs granted was estimated on the date of grant using the Black-Scholes-Merton valuation model with the following weighted-average assumptions for the years ended December 31:

	2014	2013	2012
Expected dividend yield (1)	—%	—%	—%
Expected stock price volatility (2)	25%	35%	40%
Risk-free interest rate (3)	1.3%	0.8%	0.8%
Expected life in years (4)	4.43	4.49	4.61

- (1) The dividend yield assumption is based on both the history and expectation of the Company's dividend payouts. Historically the Company has not paid cash dividends on its Common Stock.
- (2) The determination of expected stock price volatility was based on both historical Common Stock prices and the implied volatility from publicly traded options in Common Stock.
- (3) The risk-free interest rate is based on the yield of a U.S. Treasury security with a maturity similar to the expected life of the award.
- (4) The expected life represents the Company's weighted-average estimate of the period of time the SARs are expected to be outstanding (that is, the period between the service inception date and the expected exercise date).

Restricted Stock Units

Restricted stock units (RSUs) give the awardee the right to receive shares of Common Stock when the vesting conditions are met and the restrictions lapse, and each RSU that vests entitles the awardee to one common share. RSU awardees do not have any of the right of a Gartner stockholder, including voting rights and the right to receive dividends and distributions, until the shares are released.

The fair value of RSUs is determined on the date of grant based on the closing price of the Common Stock as reported by the New York Stock Exchange on that date. Service-based RSUs vest ratably over four years and are expensed on a straight-line basis over four years. Performance-based RSUs are subject to both performance and service conditions, vest ratably over four years, and are expensed on an accelerated basis.

The following table summarizes the changes in RSUs outstanding during the year ended December 31, 2014:

	Restricted Stock Units (RSUs) (in millions)	Per Share Weighted Average Grant Date Fair Value
Outstanding at December 31, 2013	1.8	\$ 38.83
Granted (1)	0.6	65.48
Vested and released	(0.9)	34.17
Forfeited	(0.1)	—
Outstanding at December 31, 2014 (2), (3)	1.4	\$ 50.76

- (1) The 0.6 million RSUs granted in 2014 consisted of 0.3 million performance-based RSUs awarded to executives and 0.3 million service-based RSUs awarded to non-executive employees and non-management board members. The aggregate target number of performance-based RSUs awarded in 2014 was 0.2 million, subject to adjustment from 0% to 200% of the target number depending upon the increase in the Company's subscription-based contract value ("CV") measured on December 31, 2014 compared to December 31, 2013. The actual CV increase achieved for 2014 was 172.6%, which resulted in the final grant of approximately 0.3 million performance-based RSUs to the executives.

(2) The Company expects that substantially all of the outstanding awards at December 31, 2014 will vest in future periods.

(3) The weighted-average remaining contractual term of the outstanding RSUs is approximately 1 year.

Common Stock Equivalents

Common stock equivalents (CSEs) are convertible into Common Stock and each CSE entitles the holder to one common share. Members of our Board of Directors receive directors' fees payable in CSEs unless they opt to receive up to 50% of the fees in cash. Generally, the CSEs have no defined term and are converted into common shares when service as the director terminates unless the director has elected an accelerated release. The fair value of the CSEs is determined on the date of grant based on the closing price of the Common Stock as reported by the New York Stock Exchange on that date. CSEs vest immediately and as a result are recorded as expense on the date of grant.

The following table summarizes the changes in CSEs outstanding for the year ended December 31, 2014:

	Common Stock Equivalents (CSEs)	Per Share Weighted Average Grant Date Fair Value
Outstanding at December 31, 2013	102,479	\$ 17.71
Granted	8,509	74.48
Converted to common shares	(6,785)	74.48
Outstanding at December 31, 2014	104,203	\$ 18.65

Employee Stock Purchase Plan

The Company has an employee stock purchase plan (the "ESP Plan") under which eligible employees are permitted to purchase Common Stock through payroll deductions, which may not exceed 10% of an employee's compensation (or \$23,750 in any calendar year), at a price equal to 95% of the closing price of the Common Stock as reported by the New York Stock Exchange at the end of each offering period. At December 31, 2014, the Company had approximately 1.1 million shares available for purchase under the ESP Plan. The ESP Plan is considered non-compensatory under FASB ASC Topic 718, and as a result the Company does not record stock-based compensation expense for employee share purchases. The Company received \$7.8 million, \$6.0 million, and \$12.4 million in cash from share purchases under the ESP Plan and exercises of stock options during 2014, 2013, and 2012, respectively.

9 — COMPUTATION OF EARNINGS PER SHARE

Basic earnings per share ("EPS") is computed by dividing net income by the weighted average number of shares of Common Stock outstanding for the period. Diluted EPS reflects the potential dilution of securities that could share in earnings. When the impact of common share equivalents is anti-dilutive, they are excluded from the calculation. The following table sets forth the reconciliation of the basic and diluted earnings per share computations for the years ended December 31 (in thousands, except per share amounts):

	2014	2013	2012
Numerator:			
Net income used for calculating basic and diluted earnings per common share	\$ 183,766	\$ 182,801	\$ 165,903
Denominator: (1)			
Weighted average number of common shares used in the calculation of basic earnings per share	89,337	93,015	93,444
Common share equivalents associated with stock-based compensation plans	1,382	1,815	2,398
Shares used in the calculation of diluted earnings per share	90,719	94,830	95,842
Earnings per share:			
Basic	\$ 2.06	\$ 1.97	\$ 1.78
Diluted	\$ 2.03	\$ 1.93	\$ 1.73

(1) The Company repurchased 5.9 million, 3.4 million, and 2.7 million shares of its Common Stock in 2014, 2013, and 2012, respectively.

The following table presents the number of common share equivalents that were not included in the computation of diluted EPS in the table above because the effect would have been anti-dilutive. During periods with net income, these common share equivalents were anti-dilutive because their exercise price was greater than the average market value of a share of Common Stock during the period.

	2014	2013	2012
Anti-dilutive common share equivalents as of December 31 (in millions):	0.3	0.3	0.7
Average market price per share of Common Stock during the year	\$ 73.27	\$ 57.50	\$ 43.80

10 — INCOME TAXES

Current and long-term deferred tax assets and liabilities are comprised of the following (in thousands):

	December 31,	
	2014	2013
Accrued liabilities	\$ 67,066	\$ 56,787
Loss and credit carryforwards	13,350	17,648

Gross deferred tax liabilities	(70,392)	(59,922)
Valuation allowance	(570)	(617)
Net deferred tax assets	\$ 32,794	\$ 34,975

Current net deferred tax assets and current net deferred tax liabilities were \$17.5 million and \$2.1 million as of December 31, 2014 and \$19.5 million and \$8.7 million as of December 31, 2013, respectively, and are included in Prepaid expenses and other current assets and Accounts payable and accrued liabilities in the Consolidated Balance Sheets. Long-term net deferred tax assets and long-term net deferred tax liabilities were \$18.0 million and \$0.6 million as of December 31, 2014 and \$24.4 million and \$0.2 million as of December 31, 2013, respectively, and are included in Other assets and Other liabilities in the Consolidated Balance Sheets. Based on its assessment, management has concluded it is more likely than not that the reversal of deferred tax liabilities and results of future operations will generate sufficient taxable income to realize the deferred tax assets, net of the valuation allowance at December 31, 2014.

The valuation allowances of \$0.6 million as of both December 31, 2014 and 2013 largely relate to certain net operating losses.

As of December 31, 2014, the Company had state and local tax net operating loss carryforwards of \$7.8 million, of which \$0.7 million expire within one to five years, \$6.3 million expire within six to fifteen years, and \$0.8 million expire within sixteen to twenty years. The Company also had state tax credits of \$1.6 million which will expire within two to five years. These amounts have been reduced for unrecognized tax benefits, consistent with FASB ASU 2013-11.

As of December 31, 2014, the Company had non-U.S. net operating loss carryforwards of \$30.2 million, of which \$2.6 million expire over the next 20 years and \$27.6 million can be carried forward indefinitely. In addition, the Company also had foreign tax credit carryforwards of \$3.4 million, of which approximately half will expire at the end of 2017 and the remainder at the end of 2024.

The differences between the U.S. federal statutory income tax rate and the Company's effective tax rate on income before income taxes for the years ended December 31 follow:

	2014	2013	2012
Statutory tax rate	35.0 %	35.0 %	35.0 %
State income taxes, net of federal benefit	3.1	3.2	1.8
Effect of non-U.S. operations (1)	(7.0)	(6.1)	(6.4)
Record (release) reserve for tax contingencies	2.6	0.9	0.7
Record (release) valuation allowance	—	(0.5)	—
Other items, net	(0.6)	(1.1)	(1.5)
Effective tax rate	33.1 %	31.4 %	29.6 %

(1) Includes the effect of foreign income taxed at different rates, U.S. tax on actual and deemed distributions, and foreign tax credits.

For 2014 and 2013 state income taxes, net of federal tax benefit, include approximately \$1.3 million and \$1.3 million, respectively, of benefit relating to economic development tax credits associated with the renovation of the Company's Stamford headquarters facility.

As of December 31, 2014 and December 31, 2013, the Company had unrecognized tax benefits of \$20.6 million and \$14.5 million, respectively. The increase is primarily attributable to positions taken with respect to state income tax apportionment and the realizability of certain refund claims. It is reasonably possible that the unrecognized tax benefits will be decreased by \$4.9 million within the next 12 months due to anticipated closure of audits and the expiration of certain statutes of limitation. The unrecognized tax benefits relate primarily to the utilization of certain tax attributes, state income tax positions, and intercompany transactions.

The Company classifies uncertain tax positions not expected to be settled within one year as long term liabilities. As of December 31, 2014 and December 31, 2013, the Company had \$15.7 million and \$11.4 million, respectively, related to long term uncertain tax positions.

The following is a reconciliation of the beginning and ending amount of unrecognized tax benefits, excluding interest and penalties, for the years ending December 31 (in thousands):

	2014	2013
Beginning balance	\$ 14,488	\$ 17,552
Additions based on tax positions related to the current year	6,351	4,237
Additions for tax positions of prior years	4,112	827
Reductions for tax positions of prior years	(2,317)	(1,973)
Reductions for expiration of statutes	(1,027)	(3,860)
Settlements	(143)	(1,575)
Change in foreign currency exchange rates	(819)	(720)
Ending balance	<u>\$ 20,645</u>	<u>\$ 14,488</u>

Included in the balance of unrecognized tax benefits at December 31, 2014 are potential benefits of \$16.5 million that if recognized would reduce the effective tax rate on income from continuing operations. Also included in the balance of unrecognized tax benefits as of December 31, 2014 are potential benefits of \$4.1 million that, if recognized, would result in adjustments to other tax accounts, primarily deferred taxes.

The Company accrues interest and penalties related to unrecognized tax benefits in its income tax provision. As of both December 31, 2014 and December 31, 2013, the Company had \$3.3 million of accrued interest and penalties related to unrecognized tax benefits. These amounts are in addition to the unrecognized tax benefits disclosed above. The total amount of interest and penalties recognized in the Consolidated Statements of Operations for the years ending December 31, 2014 and December 31, 2013 was \$0.1 million and \$0.3 million, respectively.

The number of years with open statutes of limitation varies depending on the tax jurisdiction. Generally, the Company's statutes are open for tax years ended December 31, 2010 and forward, with the exception of India which is open for tax years 2003 and forward. Major taxing jurisdictions include the U.S. (federal and state), the United Kingdom, Canada, Japan, Italy, India, France, and Ireland.

During 2014, the Internal Revenue Service closed the audit of the Company's 2010 and 2011 federal income tax returns. The resolution of the audit did not have a material adverse effect on the consolidated financial position, cash flows, or results of operations of the Company.

Under U.S. accounting rules, no provision for income taxes that may result from the remittance of earnings held overseas is required if the Company intends to reinvest such funds overseas. Our current plans do not demonstrate a need to repatriate these undistributed earnings to fund our U.S. operations or otherwise satisfy the liquidity needs of our U.S. operations. We intend to reinvest these earnings in our non-U.S. operations, except in instances in which the repatriation of these earnings would result in minimal additional tax. As a result, the Company has not recognized additional income tax expense that may result from the remittance of these earnings. The accumulated undistributed earnings of non-U.S. subsidiaries were approximately \$186.5 million as of December

31, 2014. An estimate of the income tax liability that would be payable if such earnings were not indefinitely invested is \$35.8 million.

11 — DERIVATIVES AND HEDGING

The Company enters into a limited number of derivative contracts to offset the potentially negative economic effects of interest rate and foreign exchange movements. The Company accounts for its outstanding derivative contracts in accordance with FASB ASC Topic 815, which requires all derivatives, including derivatives designated as accounting hedges, to be recorded on the balance sheet at fair value.

The following tables provide information regarding the Company's outstanding derivatives contracts as of, and for, the years ended (in thousands, except for number of outstanding contracts):

December 31, 2014

Derivative Contract Type	Number of Outstanding Contracts	Contract Notional Amount	Fair Value Asset (Liability) (3)	Balance Sheet Line Item	OCI Unrealized (Loss), Net Of Tax
Interest rate swap (1)	1	\$ 200,000	\$ (2,900)	Other liabilities	\$ (1,740)
Foreign currency forwards (2)	77	45,650	238	Other current liabilities	—
Total	78	\$ 245,650	\$ (2,662)		\$ (1,740)

December 31, 2013

Derivative Contract Type	Number of Outstanding Contracts	Contract Notional Amount	Fair Value Asset (Liability) (3)	Balance Sheet Line Item	OCI Unrealized (Loss), Net Of Tax
Interest rate swap (1)	1	\$ 200,000	\$ (6,505)	Other liabilities	\$ (3,903)
Foreign currency forwards (2)	89	61,325	(60)	Other current assets	—
Total	90	\$ 261,325	\$ (6,565)		\$ (3,903)

(1) The swap is designated as a cash flow hedge of the forecasted interest payments on borrowings. As a result, changes in the fair value of this swap are deferred and are recorded in OCI, net of tax effect (see Note 5 — Debt for additional information).

(2) The Company has foreign exchange transaction risk since it typically enters into transactions in the normal course of business that are denominated in foreign currencies that differ from the local functional currency. The Company enters into short-term foreign currency forward exchange contracts to offset the economic effects of these foreign currency transaction risks. These contracts are accounted for at fair value with realized and unrealized gains and losses recognized in Other expense, net since the Company does not designate these contracts as hedges for accounting purposes. Substantially all of the outstanding contracts at December 31, 2014 matured by the end of January 2015.

(3) See Note 12 — Fair Value Disclosures for the determination of the fair value of these instruments.

At December 31, 2014, the Company's derivative counterparties were all large investment grade financial institutions. The Company did not have any collateral arrangements with its derivative counterparties, and none of the derivative contracts contained credit-risk related contingent features.

The following table provides information regarding amounts recognized in the Consolidated Statements of Operations for derivative contracts for the years ended December 31 (in thousands):

Amount recorded in:	2014	2013	2012
Interest expense (1)	\$ 4.1	\$ 4.0	\$ 3.6
Other expense, net (2)	(0.5)	0.1	(0.6)
Total expense	\$ 3.6	\$ 4.1	\$ 3.0

(1) Consists of interest expense from interest rate swap contracts.

(2) Consists of realized and unrealized gains and losses on foreign currency forward contracts.

12 — FAIR VALUE DISCLOSURES

The Company's financial instruments include cash equivalents, fees receivable from customers, accounts payable, and accruals which are normally short-term in nature. The Company believes the carrying amounts of these financial instruments reasonably approximates their fair value due to their short-term nature. The Company's financial instruments also includes borrowings outstanding under its 2014 Credit Agreement, and at December 31, 2014, the Company had \$400.0 million of floating rate debt outstanding under this arrangement, which is carried at amortized cost. The Company believes the carrying amount of the outstanding borrowings reasonably approximates fair value since the rate of interest on the borrowings reflect current market rates of interest for similar instruments with comparable maturities.

FASB ASC Topic 820 provides a framework for the measurement of fair value and a valuation hierarchy based upon the transparency of inputs used in the valuation of assets and liabilities. Classification within the hierarchy is based upon the lowest level of input that is significant to the resulting fair value measurement. The valuation hierarchy contains three levels. Level 1 measurements consist of quoted prices in active markets for identical assets or liabilities. Level 2 measurements include significant other observable inputs such as quoted prices for similar assets or liabilities in active markets; identical assets or liabilities in inactive markets; observable inputs such as interest rates and yield curves; and other market-corroborated inputs. Level 3 measurements include significant unobservable inputs, such as internally-created valuation models. The Company does not currently utilize Level 3 valuation inputs to remeasure any of its assets or liabilities. However, level 3 inputs may be used by the Company in its required annual impairment review of goodwill. Information regarding the periodic assessment of the Company's goodwill is included in Note 1 — Business and Significant Accounting Policies. The Company does not typically transfer assets or liabilities between different levels of the fair value hierarchy.

The Company enters into a limited number of derivatives transactions but does not enter into repurchase agreements, securities lending transactions, or master netting arrangements. Receivables or payables that result from derivatives transactions are recorded gross in the Company's Consolidated Balance Sheets. The Company's assets and liabilities that are remeasured to fair value are presented in the following table (in thousands):

Description:	Fair Value December 31, 2014	Fair Value December 31, 2013
Assets:		
Values based on Level 1 inputs:		
Deferred compensation plan assets (1)	\$ 7,650	\$ 7,775
Total Level 1 inputs	\$ 7,650	\$ 7,775
Values based on Level 2 inputs:		
Deferred compensation plan assets (1)	\$ 27,000	\$ 24,780
Foreign currency forward contracts (2)	458	116
Total Level 2 inputs	\$ 27,458	\$ 24,896
Total Assets	\$ 35,108	\$ 32,671
Liabilities:		
Values based on level 2 inputs:		
Deferred compensation plan liabilities (1)	\$ 39,100	\$ 36,410
Foreign currency forward contracts (2)	220	176
Interest rate swap contract (3)	2,900	6,505
Total Level 2 inputs	\$ 42,220	\$ 43,091
Total Liabilities	\$ 42,220	\$ 43,091

- (1) The Company has a deferred compensation plan for the benefit of certain highly compensated officers, managers and other key employees (see Note 13 — Employee Benefits). The plan’s assets consist of investments in money market and mutual funds, and company-owned life insurance contracts.

The money market funds consist of cash equivalents while the mutual fund investments consist of publicly-traded and quoted equity shares. The Company considers the fair value of these assets to be based on Level 1 inputs, and these assets had a fair value of \$7.7 million and \$7.8 million as of December 31, 2014 and 2013, respectively. The carrying amount of the life insurance contracts equals their cash surrender value. Cash surrender value represents the estimated amount that the Company would receive upon termination of the contract, which approximates fair value. The Company considers the life insurance contracts to be valued based on a Level 2 input, and these assets had a fair value of \$27.0 million and \$24.8 million at December 31, 2014 and 2013, respectively. The related deferred compensation plan liabilities are recorded at the amount needed to settle the liability, which approximates fair value, and is based on a Level 2 input.

- (2) The Company enters into foreign currency forward exchange contracts to hedge the effects of adverse fluctuations in foreign currency exchange rates (see Note 11 — Derivatives and Hedging). Valuation of the foreign currency forward contracts is based on foreign currency exchange rates in active markets, which the Company considers a Level 2 input.
- (3) The Company has an interest rate swap contract which hedges the risk from variability of interest rates on its borrowings (see Note 11 — Derivatives and Hedging). The fair value of the swap is based on a mark-to-market valuation prepared by a third-party broker. Valuation is based on observable interest rates from recently executed market transactions and other observable market data, which the Company considers Level 2 inputs. The Company independently corroborates the reasonableness of the valuation prepared by the third-party broker through the use of an electronic quotation service.

13 — EMPLOYEE BENEFITS

Defined contribution plan. The Company has a savings and investment plan (the “401k Plan”) covering substantially all U.S. employees. Company contributions are based upon the level of employee contributions, up to a maximum of 4% of the employee’s eligible salary, subject to an annual maximum. For 2014, the maximum match was \$7,000. Amounts expensed in connection with the 401k Plan totaled \$17.4 million, \$15.8 million, and \$14.2 million, in 2014, 2013, and 2012, respectively.

Deferred compensation plan. The Company has a supplemental deferred compensation plan for the benefit of certain highly compensated officers, managers and other key employees, which is structured as a rabbi trust. The plan’s investment assets are classified in Other assets on the Consolidated Balance Sheets at fair value. The value of these assets was \$34.7 million and \$32.6 million at December 31, 2014 and 2013, respectively (see Note 12 — Fair Value Disclosures for detailed fair value information). The corresponding deferred compensation liability of \$39.1 million and \$36.4 million at December 31, 2014 and 2013, respectively, is carried at fair value, and is adjusted with a corresponding charge or credit to compensation cost to reflect the fair value of the amount owed to the employees which is classified in Other liabilities on the Consolidated Balance Sheets. Total compensation expense recognized for the plan was \$0.6 million in 2014 and \$0.4 million in both 2013 and 2012.

Defined benefit pension plans. The Company has defined-benefit pension plans in several of its non-U.S. locations. Benefits earned under these plans are based on years of service and level of employee compensation. The Company accounts for defined benefit plans in accordance with the requirements of FASB ASC Topics 715 and 960.

The following are the components of defined benefit pension expense for the years ended December 31 (in thousands):

	2014	2013	2012
Service cost (1)	\$ 2,630	\$ 2,545	\$ 1,775
Interest cost	1,190	1,075	980
Expected return on plan assets	(540)	(340)	(115)
Recognition of actuarial loss (gain)	75	30	(215)
Recognition of termination benefits	30	455	175
Total defined benefit pension expense (2)	<u>\$ 3,385</u>	<u>\$ 3,765</u>	<u>\$ 2,600</u>

- (1) The higher service cost beginning in 2013 was primarily due to additional employees covered under the plans.
- (2) Pension expense is classified in SG&A in the Consolidated Statements of Operations.

The following are the assumptions used in the computation of pension expense for the years ended December 31:

	2014	2013	2012
Weighted-average discount rate (1)	2.15%	3.35%	3.20%
Average compensation increase	2.65%	2.70%	2.70%

(1) Discount rates are typically determined by utilizing the yields on long-term corporate or government bonds in the relevant country with a duration consistent with the expected term of the underlying pension obligations.

The following table provides information related to changes in the projected benefit obligation for the years ended December 31 (in thousands):

	2014	2013	2012
Projected benefit obligation at beginning of year	\$ 34,585	\$ 31,605	\$ 21,160
Service cost	2,630	2,545	1,775
Interest cost	1,190	1,075	980
Actuarial loss (gain) due to assumption changes and plan experience (1)	6,300	625	6,265
Additions and contractual termination benefits	30	460	1,925
Benefits paid (2)	(1,350)	(1,255)	(680)
Foreign currency impact	(5,270)	(470)	180
Projected benefit obligation at end of year (3)	<u>\$ 38,115</u>	<u>\$ 34,585</u>	<u>\$ 31,605</u>

(1) The 2014 and 2012 actuarial losses were primarily due to significant declines in the weighted-average discount rate.

(2) The Company projects the following approximate amounts will be paid in future years to plan participants: \$1.0 million in 2015; \$1.9 million in 2016; \$1.4 million in each of the years 2017, 2018, and 2019; and \$9.6 million in total in the five years thereafter.

(3) Measured as of December 31.

The following table provides information regarding the funded status of the plans and related amounts recorded in the Company's Consolidated Balance Sheets as of December 31 (in thousands):

Funded status of the plans:

	2014	2013	2012
Projected benefit obligation	\$ 38,115	\$ 34,585	\$ 31,605
Plan assets at fair value (1)	(13,220)	(13,870)	(8,885)
Funded status – shortfall (2)	<u>\$ 24,895</u>	<u>\$ 20,715</u>	<u>\$ 22,720</u>

Amounts recorded in the Consolidated Balance Sheets for the plans:

Other liabilities — accrued pension obligation (2)	<u>\$ 24,895</u>	<u>\$ 20,715</u>	<u>\$ 22,720</u>
Stockholders' equity — deferred actuarial loss (3)	<u>\$ (6,028)</u>	<u>\$ (1,811)</u>	<u>\$ (1,578)</u>

(1) The plan assets are held by third-party trustees and are invested in a diversified portfolio of equities, high quality government and corporate bonds, and other investments. The assets are primarily valued based on Level 1 and Level 2 inputs under the fair value hierarchy in FASB ASC Topic 820, with the majority of the invested assets considered to be of low-to-medium investment risk. The Company projects a future long-term rate of return on these plan assets of 2.7%, which it believes is

reasonable based on the composition of the assets and both current and projected market conditions. For the year-ended December 31, 2014, the Company contributed \$2.8 million to these plans, and benefits paid to participants were \$1.4 million.

In addition to the plan assets held with third-party trustees, the Company also maintains a reinsurance asset arrangement with a large international insurance company. The reinsurance asset is an asset of the Company whose purpose is to provide funding for benefit payments for one of the plans. At December 31, 2014, the reinsurance asset was carried on the Company's Consolidated Balance Sheets at its cash surrender value of \$8.5 million and is classified in Other Assets. The Company believes the cash surrender value approximates fair value and is equivalent to a Level 2 input under the FASB's fair value framework in ASC Topic 820.

- (2) The Funded status — shortfall represents the amount of the projected benefit obligation that the Company has not funded with a third-party trustee. This amount is a liability of the Company and is recorded in Other Liabilities on the Company's Consolidated Balance Sheets.
- (3) The deferred actuarial loss as of December 31, 2014 is recorded in Accumulated Other Comprehensive Income ("AOCI") and will be reclassified out of AOCI and recognized as pension expense over approximately 14 years, subject to certain limitations set forth in FASB ASC Topic 715. The impact of this amortization on the periodic pension expense in 2015 is projected to be approximately \$0.4 million. The actual amortization of deferred actuarial losses (gains) from AOCI to pension expense was less than \$0.1 million in 2014 and 2013 and \$(0.2) million in 2012.

14 — SEGMENT INFORMATION

The Company manages its business through three reportable segments: Research, Consulting and Events. Research consists primarily of subscription-based research products, access to research inquiry, peer networking services, and membership programs. Consulting consists primarily of consulting, measurement engagements, and strategic advisory services. Events consists of various symposia, conferences and exhibitions.

The Company evaluates reportable segment performance and allocates resources based on gross contribution margin. Gross contribution, as presented in the table below, is defined as operating income excluding certain COS expenses, SG&A expense, depreciation, acquisition and integration charges, and amortization of intangibles. Certain bonus and fringe benefit costs included in consolidated COS are not allocated to segment expense. The accounting policies used by the reportable segments are the same as those used by the Company. There are no intersegment revenues.

The Company earns revenue from clients in many countries. Other than the United States, there is no individual country in which revenues from external clients represent 10% or more of the Company's consolidated revenues. Additionally, no single client accounted for 10% or more of total revenue and the loss of a single client, in management's opinion, would not have a material adverse effect on revenues. The Company does not identify or allocate assets, including capital expenditures, by reportable segment. Accordingly, assets are not being reported by segment because the information is not available by segment and is not reviewed in the evaluation of performance or making decisions in the allocation of resources.

The following tables present operating information about the Company's reportable segments for the years ended December 31 (in thousands):

	Research	Consulting	Events	Consolidated

The following table provides a reconciliation of total segment gross contribution to net income for the periods indicated (in thousands):

Net income	<u>\$ 183,766</u>	<u>\$ 182,801</u>	<u>\$ 165,903</u>

(1) The unallocated amounts consist of certain bonus and related fringe costs recorded in Consolidated cost of services and product development expense that are not allocated to segment expense. The Company's policy is to only allocate bonus and related fringe charges to segments for up to 100% of the segment employee's target bonus. Amounts above 100% are absorbed by corporate.

The Company's revenues are generated primarily through direct sales to clients by domestic and international sales forces and a network of independent international sales agents. Most of the Company's products and services are provided on an integrated worldwide basis, and because of this integrated delivery, it is not practical to precisely separate our revenues by geographic location.

Accordingly, the separation set forth in the table below is based upon internal allocations, which involve certain management estimates and judgments. Revenues in the table are reported based on where the sale is fulfilled; "Other International" revenues are those attributable to all areas located outside of the United States and Canada, as well as Europe, Middle East, and Africa.

Summarized information by geographic location as of and for the years ended December 31 follows (in thousands):

	2014	2013	2012

(1) Excludes goodwill and other intangible assets.

15 — VALUATION AND QUALIFYING ACCOUNTS

The Company maintains an allowance for losses which is composed of a bad debt allowance and a revenue reserve. Provisions are charged against earnings either as an increase to expense or a reduction in revenues. The following table summarizes activity in the Company's allowance for the years ended December 31(in thousands):

	Balance at Beginning of Year	Additions Charged to Expense	Additions Charged Against Revenues	Deductions from Reserve	Balance at End of Year
2014:

CREDIT AGREEMENT (this “Agreement”), dated as of December 16, 2014 among GARTNER, INC., a Delaware corporation (the “Borrower”), the several banks and other financial institutions or entities from time to time parties to this Agreement (the “Lenders”), WELLS FARGO BANK, NATIONAL ASSOCIATION and CITIZENS BANK, N.A., as co-syndication agents (in such capacity, the “Co-Syndication Agents”), BANK OF AMERICA, N.A., MUFG UNION BANK, N.A. F/K/A UNION BANK, N.A., SUNTRUST BANK, TD BANK, N.A., and U.S. BANK NATIONAL ASSOCIATION, as co-documentation agents (in such capacity, the “Co-Documentation Agents”), and JPMORGAN CHASE BANK, N.A., as administrative agent (the “Administrative Agent”).

The parties hereto hereby agree as follows:

Section 1. DEFINITIONS

1.1 Defined Terms. As used in this Agreement, the terms listed in this Section 1.1 shall have the respective meanings set forth in this Section 1.1.

“ABR”: for any day, a rate per annum equal to the greatest of (a) the Prime Rate in effect on such day, (b) the Federal Funds Effective Rate in effect on such day plus ½ of 1% and (c) the Eurodollar Rate that would be calculated as of such day (or, if such day is not a Business Day, as of the next preceding Business Day) in respect of a proposed Eurodollar Loan with a one-month Interest Period plus 1.0%. Any change in the ABR due to a change in the Prime Rate, the Federal Funds Effective Rate or such Eurodollar Rate shall be effective as of the opening of business on the day of such change in the Prime Rate, the Federal Funds Effective Rate or such Eurodollar Rate, respectively.

“ABR Loans”: Loans the rate of interest applicable to which is based upon the ABR.

“Acquisition Step-Up Period”: a period of four fiscal quarters commencing with the fiscal quarter during which a Designated Acquisition is consummated and ending on the last day of the fourth fiscal quarter ending after the date on which the Designated Acquisition is consummated.

“Adjustment Date”: as defined in the definition of “Applicable Margin”.

“Administrative Agent”: JPMorgan Chase Bank, together with its affiliates, as the arranger of the Commitments and as the administrative agent for the Lenders under this Agreement and the other Loan Documents, together with any of its successors.

“Affiliate”: as to any Person, any other Person that, directly or indirectly, is in control of, is controlled by, or is under common control with, such Person. For purposes of this definition, “control” of a Person means the power, directly or indirectly, either to (a) vote 20% or more of the securities having ordinary voting power for the election of directors (or persons performing similar functions) of such Person or (b) direct or cause the direction of the management and policies of such Person, whether by contract or otherwise.

“Agents”: the collective reference to the Co-Syndication Agents, the Co-Documentation Agents and the Administrative Agent.

“Aggregate Exposure”: with respect to any Lender at any time, an amount equal to (a) until the Closing Date, the aggregate amount of such Lender’s Commitments at such time and (b) thereafter, the sum of (i) the aggregate then unpaid principal amount of such Lender’s Term Loans and (ii)

the amount of such Lender's Revolving Commitment then in effect or, if the Revolving Commitments have been terminated, the amount of such Lender's Revolving Extensions of Credit then outstanding.

“Aggregate Exposure Percentage”: with respect to any Lender at any time, the ratio (expressed as a percentage) of such Lender's Aggregate Exposure at such time to the Aggregate Exposure of all Lenders at such time; provided, that in the case of Section 2.21 when a Defaulting Lender shall exist, “Aggregate Exposure Percentage” shall mean the percentage of the Aggregate Exposure of all Lenders (disregarding any Defaulting Lender's Aggregate Exposure) represented by such Lender's Aggregate Exposure. If the Commitments have terminated or expired, the Aggregate Exposure Percentages shall be determined based upon the Commitments most recently in effect, giving effect to any assignments and to any Lender's status as a Defaulting Lender at the time of determination.

“Agreement”: as defined in the preamble hereto.

“Anti-Corruption Laws”: all laws, rules and regulations of any jurisdiction applicable to the Borrower or its Subsidiaries from time to time concerning or relating to bribery or corruption.

“Applicable Margin”: for each Type of Loan or the Commitment Fee Rate, the rate per annum set forth under the relevant column heading below:

Level	Consolidated Leverage Ratio	Applicable Margin for Eurodollar Loans	Applicable Margin for ABR Loans	Commitment Fee Rate
I	> 2.75 to 1.00	1.50%	0.50%	0.25%
II	> 1.75 to 1.00 ≤ 2.75 to 1.00	1.375%	0.375%	0.20%
III	> 0.75 to 1.00 ≤ 1.75 to 1.00	1.25%	0.25%	0.175%
IV	≤ 0.75 to 1.00	1.125%	0.125%	0.15%

The Applicable Margin and Commitment Fee Rate on the Closing Date and until the first Adjustment Date (as defined below) following the Closing Date shall be the rate per annum set forth in Level III above. Changes in the Applicable Margin and the Commitment Fee Rate resulting from changes in the Consolidated Leverage Ratio shall become effective on the date (the “Adjustment Date”) that is three Business Days after the date on which financial statements are delivered to the Lenders pursuant to Section 6.1 and shall remain in effect until the next change to be effected pursuant to this paragraph. If any financial statements referred to above are not delivered within the time periods specified in Section 6.1, then, until the date that is three Business Days after the date on which such financial statements are delivered, the highest Applicable Margin and Commitment Fee Rate shall apply. Each determination of the Consolidated Leverage Ratio pursuant hereto shall be made in a manner consistent with the determination thereof pursuant to Section 7.1(a). In the event that any financial statement or certification delivered pursuant to Section 6.2(a) is shown to be inaccurate (regardless of whether this Agreement or the Commitments are in effect when such inaccuracy is discovered), and such inaccuracy, if corrected, would have led to the application of a higher Applicable Margin for any period (an “Applicable Period”) than the Applicable Margin applied for such Applicable Period, the Borrower shall immediately (a) deliver to the Administrative Agent a corrected Compliance Certificate for such Applicable Period, (b) determine the Applicable Margin for such Applicable Period based upon the corrected Compliance Certificate, and (c) immediately pay to the Administrative Agent for the benefit of the Lenders the

accrued additional interest and other fees owing as a result of such increased Applicable Margin for such Applicable Period, which payment shall be promptly distributed by the Administrative Agent to the Lenders entitled thereto.

SECTION 2. AMOUNT AND TERMS OF COMMITMENTS

2.1 Term Commitments. (e) Subject to the terms and conditions hereof, each Term Lender severally agrees to make a term loan (a “Term Loan”) to the Borrower in Dollars on the Closing Date in an amount not to exceed the amount of the Term Commitment of such Lender. The Term Loans may from time to time be Eurodollar Loans or ABR Loans, as determined by the Borrower and notified to the Administrative Agent in accordance with Sections 2.2 and 2.10.

(f) (i) The Borrower may at any time or from time to time after the Closing Date, by notice to the Administrative Agent (whereupon the Administrative Agent shall promptly deliver a copy to each of the Lenders), request one or more additional tranches of term loans (the “Incremental Term Loans” and such borrowing, an “Incremental Extension of Credit”); provided that both at the time of any such request and upon the effectiveness of any Incremental Amendment (other than with respect to any acquisition permitted by this Agreement) referred to below, no Default or Event of Default shall exist. Each Incremental Extension of Credit shall be in an aggregate principal amount that is not less than \$5,000,000. Notwithstanding anything to the contrary herein, the aggregate amount of any Incremental Extension of Credit, when taken together with all other Incremental Extensions of Credit and all Revolving Commitment Increases, shall not exceed \$500,000,000. The Incremental Term Loans shall rank pari passu in right of payment and of security with the Term Loans. The Incremental Term Loans (i) shall not mature earlier than the Revolving Termination Date and shall have a Weighted Average Life to Maturity no shorter than the Weighted Average Life to Maturity of the Term Loans (except by virtue of amortization of or prepayment of the Term Loans and prepayments of scheduled amortization prior to such date of determination) and (i) except as set forth above and below, shall be treated substantially the same as the Term Loans (in each case, including with respect to mandatory and voluntary prepayments); provided that (x) the interest rates and amortization schedule (subject to clause (i) above) applicable to the Incremental Term Loans shall be determined by the Borrower and the lenders thereof and (y) to the extent such terms

applicable to the Incremental Term Loans are not consistent with the then existing Term Loans (except as permitted by the immediately preceding clause (x)) such terms shall be mutually agreed to by the Borrower and the Administrative Agent.

(ii) Each notice from the Borrower pursuant to this Section shall set forth the requested amount and proposed terms of the relevant Incremental Extension of Credit. The Borrower may arrange for any such increase to be provided by one or more Lenders (each Lender so agreeing to an increase in its Term Commitment, an “Increasing Term Lender”), or by one or more new banks, financial institutions or other entities (each such new bank, financial institution or other entity, an “Augmenting Term Lender”); provided that (i) each Augmenting Term Lender, shall be subject to the approval of the Borrower and the Administrative Agent (such approval by the Administrative Agent not to be unreasonably withheld) and (ii) (x) in the case of an Increasing Term Lender, the Borrower and such Increasing Term Lender execute an agreement substantially in the form of Exhibit G hereto, and (y) in the case of an Augmenting Term Lender, the Borrower and such Augmenting Term Lender execute an agreement substantially in the form of Exhibit H hereto. For the avoidance of doubt, no existing Lender will be required to provide any Incremental Term Loans and the Borrower shall have no obligation to offer any existing Lender the opportunity to provide any commitment for any Incremental Term Loans.

(iii) Commitments in respect of Incremental Term Loans shall become Commitments under this Agreement pursuant to an amendment (an “Incremental Amendment”) to this Agreement and, as appropriate, the other Loan Documents, executed by the Borrower, each Lender agreeing to provide such Commitment, if any, each Increasing Term Lender, if any, each Augmenting Term Lender, if any, and the Administrative Agent. The Incremental Amendment may, without the consent of any other Lenders, effect such amendments to this Agreement and the other Loan Documents as may be necessary or appropriate, in the reasonable opinion of the Administrative Agent and the Borrower, to effect the provisions of this Section; provided that any amendments included in any Incremental Amendment meant to effect changes not relating to this Section 2.1(b) shall require the vote of the Lenders as described in Section 10.1 hereof. The making of any loans pursuant to any Incremental Amendment shall not be effective unless on the date thereof (each, an “Incremental Facility Closing Date”), after giving effect to such Incremental Extension of Credit (i) the conditions set forth in Section 5.2 are satisfied; provided that with respect to Incremental Term Loans used to finance an acquisition permitted by this Agreement, (i) as of the date of consummation of such acquisition, (x) the only representations and warranties that are required to be true as a condition to the borrowing of such Incremental Term Loans are the Limited Conditionality Representations and (y) no payment Event of Default shall have occurred and be continuing, (ii) the Borrower shall be in compliance with Section 7.1, (iii) the Administrative Agent shall have received documents consistent with those delivered on the Closing Date under Section 5.1(f) as to the corporate power and authority of the Borrower to borrow hereunder after giving effect to such increase, and (iv) such other conditions as the Borrower and the Lender of Incremental Term Loans may agree. The Borrower will use the proceeds of the Incremental Term Loans for any purpose not prohibited by this Agreement. No Lender shall be obligated to provide any Incremental Term Loans unless it so agrees.

2.2 Procedure for Term Loan Borrowing. The Borrower shall give the Administrative Agent irrevocable notice (which notice must be received by the Administrative Agent prior to 10:00 A.M., New York City time, three Business Days prior to the anticipated Closing Date) requesting that the Term Lenders make the Term Loans on the Closing Date and specifying the amount to be borrowed. The Term Loans made on the Closing Date shall initially be Eurodollar Loans. Upon receipt of such notice the Administrative Agent shall promptly notify each Term Lender thereof. Not later than 12:00 Noon, New York City time, on the Closing Date each Term Lender shall make available to the

Administrative Agent at the Funding Office an amount in immediately available funds equal to the Term Loan or Term Loans to be made by such Lender. The Administrative Agent shall credit the account of the Borrower on the books of such office of the Administrative Agent with the aggregate of the amounts made available to the Administrative Agent by the Term Lenders in immediately available funds.

2.3 Repayment of Term Loans. The Term Loan of each Lender shall mature in 16 consecutive quarterly installments (with the balance of the Term Loan of each Lender maturing on the Term Loan Maturity Date), each of which shall be in an amount equal to such Lender's Term Percentage multiplied by the amount set forth below opposite such installment:

2.4 Revolving Commitments. (a) Subject to the terms and conditions hereof, each Revolving Lender severally agrees to make revolving credit loans ("Revolving Loans") to the Borrower in Dollars from time to time during the Revolving Commitment Period in an aggregate principal amount at any one time outstanding which, when added to such Lender's Revolving Percentage of the L/C Obligations then outstanding does not exceed the amount of such Lender's Revolving Commitment. During the Revolving Commitment Period the Borrower may use the Revolving Commitments by borrowing, prepaying the Revolving Loans in whole or in part, and reborrowing, all in accordance with the terms and conditions hereof. The Revolving Loans may from time to time be Eurodollar Loans or ABR Loans, as determined by the Borrower and notified to the Administrative Agent in accordance with Sections 2.5 and 2.10.

(b) The Borrower may from time to time elect to increase the Revolving Commitments (a "Revolving Commitment Increase") in a minimum amount of \$5,000,000 so long as, after giving effect thereto, the aggregate amount of the Incremental Extensions of Credit and Revolving Commitment Increases does not exceed \$500,000,000. The Borrower may arrange for any such increase to be provided by one or more Lenders (each Lender so agreeing to an increase in its Revolving Commitment, an "Increasing Revolving Lender"), or by one or more new banks, financial institutions or other entities (each such new bank, financial institution or other entity, an "Augmenting Revolving Lender"), to increase their existing Revolving Commitments, or extend Revolving Commitments, as the case may be, provided that (i) each Augmenting Revolving Lender, shall be subject to the approval of the Borrower and the Administrative Agent (such approval by the

Administrative Agent not to be unreasonably withheld) and (ii) (x) in the case of an Increasing Revolving Lender, the Borrower and such Increasing Revolving Lender execute an agreement substantially in the form of Exhibit G hereto, and (y) in the case of an Augmenting Revolving Lender, the Borrower and such Augmenting Revolving Lender execute an agreement substantially in the form of Exhibit H hereto. Increases and new Revolving Commitments created pursuant to this clause shall become effective on the date agreed by the Borrower, the Administrative Agent (such approval by the Administrative Agent not to be unreasonably withheld) and the relevant Increasing Revolving Lenders or Augmenting Revolving Lenders and the Administrative Agent shall notify each Revolving Lender thereof. Notwithstanding the foregoing, no increase in the Revolving Commitments (or in the Revolving Commitment of any Lender), shall become effective under this paragraph unless, (i) on the proposed date of the effectiveness of such increase, the conditions set forth in paragraphs (a) and (b) of Section 5.2 shall be satisfied or waived by the Required Lenders and the Administrative Agent shall have received a certificate to that effect dated such date and executed by a Responsible Officer of the Borrower, (ii) after giving effect to such Revolving Commitment Increase, the Borrower shall be in compliance with Section 7.1, and (iii) the Administrative Agent shall have received documents consistent with those delivered on the Closing Date under Section 5.1(f) as to the corporate power and authority of the Borrower to borrow hereunder after giving effect to such increase. On the effective date of any increase in the Revolving Commitments, (i) each relevant Increasing Revolving Lender and Augmenting Revolving Lender shall make available to the Administrative Agent such amounts in immediately available funds as the Administrative Agent shall determine, for the benefit of the other Revolving Lenders, as being required in order to cause, after giving effect to such increase and the use of such amounts to make payments to such other Revolving Lenders, each Revolving Lender's portion of the outstanding Revolving Loans of all the Revolving Lenders to equal its Revolving Percentage of such outstanding Revolving Loans, and (ii) the Borrower shall be deemed to have repaid and reborrowed all outstanding Revolving Loans as of the date of any increase in the Revolving Commitments (with such reborrowing to consist of the Types of Revolving Loans, with related Interest Periods if applicable, specified in a notice delivered by the Borrower in accordance with the requirements of Section 2.5). The deemed payments made pursuant to clause (ii) of the immediately preceding sentence in respect of each Eurodollar Loan shall be subject to indemnification by the Borrower pursuant to the provisions of Section 2.18 if the deemed payment occurs other than on the last day of the related Interest Periods. For the avoidance of doubt, no existing Lender will be required to provide any Revolving Commitment Increase and the Borrower shall have no obligation to offer any existing Lender the opportunity to provide any commitment for any Revolving Commitment Increase.

(c) The Borrower shall repay all outstanding Revolving Loans on the Revolving Termination Date.

2.5 Procedure for Revolving Loan Borrowing. The Borrower may borrow under the Revolving Commitments during the Revolving Commitment Period on any Business Day, provided that the Borrower shall give the Administrative Agent irrevocable notice (which notice must be received by the Administrative Agent prior to 12:00 Noon, New York City time, (a) three Business Days prior to the requested Borrowing Date, in the case of Eurodollar Loans, or (b) one Business Day prior to the requested Borrowing Date, in the case of ABR Loans) (provided that any such notice of a borrowing of ABR Loans under the Revolving Facility to finance payments required by Section 3.5 may be given not later than 10:00 A.M., New York City time, on the date of the proposed borrowing), specifying (i) the amount and Type of Revolving Loans to be borrowed, (ii) the requested Borrowing Date and (iii) in the case of Eurodollar Loans, the respective amounts of each such Type of Loan and the respective lengths of the initial Interest Period therefor. Any Revolving Loans made on the Closing Date shall initially be ABR

Loans. Each borrowing under the Revolving Commitments shall be in an amount equal to (x) in the case of ABR Loans, \$1,000,000 or a whole multiple thereof (or, if the then aggregate Available Revolving Commitments are less than \$1,000,000, such lesser amount) and (y) in the case of Eurodollar Loans, \$5,000,000 or a whole multiple of \$1,000,000 in excess thereof. Upon receipt of any such notice from the Borrower, the Administrative Agent shall promptly notify each Revolving Lender thereof. Each Revolving Lender will make the amount of its pro rata share of each borrowing available to the Administrative Agent for the account of the Borrower at the Funding Office prior to 12:00 Noon, New York City time, on the Borrowing Date requested by the Borrower in funds immediately available to the Administrative Agent. Such borrowing will then be made available to the Borrower by the Administrative Agent crediting the account of the Borrower on the books of such office with the aggregate of the amounts made available to the Administrative Agent by the Revolving Lenders and in like funds as received by the Administrative Agent.

2.6 Commitment Fees, etc. (a) The Borrower agrees to pay to the Administrative Agent for the account of each Revolving Lender a commitment fee for the period from and including the date hereof to the last day of the Revolving Commitment Period, computed at the Commitment Fee Rate on the average daily amount of the Available Revolving Commitment of such Lender during the period for which payment is made, payable quarterly in arrears on each Fee Payment Date, commencing on the first such date to occur after the date hereof.

(b) The Borrower agrees to pay to the Administrative Agent the fees in the amounts and on the dates as set forth in any fee agreements with the Administrative Agent and to perform any other obligations contained therein.

2.7 Termination or Reduction of Revolving Commitments. The Borrower shall have the right, upon not less than three Business Days' notice to the Administrative Agent, to terminate the Revolving Commitments or, from time to time, to reduce the amount of the Revolving Commitments; provided that no such termination or reduction of Revolving Commitments shall be permitted to the extent that, after giving effect thereto and to any prepayments of the Revolving Loans made on the effective date thereof, the Total Revolving Extensions of Credit would exceed the Total Revolving Commitments. Any such reduction shall be in an amount equal to \$5,000,000, or a whole multiple thereof, and shall reduce permanently the Revolving Commitments then in effect.

2.8 Optional Prepayments. The Borrower may at any time and from time to time prepay the Loans, in whole or in part, without premium or penalty, upon irrevocable notice delivered to the Administrative Agent no later than 11:00 A.M., New York City time, three Business Days prior thereto, in the case of Eurodollar Loans, and no later than 11:00 A.M., New York City time, one Business Day prior thereto, in the case of ABR Loans, which notice shall specify the date and amount of prepayment and whether the prepayment is of Eurodollar Loans or ABR Loans; provided, that if a Eurodollar Loan is prepaid on any day other than the last day of the Interest Period applicable thereto, the Borrower shall also pay any amounts owing pursuant to Section 2.18. Upon receipt of any such notice the Administrative Agent shall promptly notify each relevant Lender thereof. If any such notice is given, the amount specified in such notice shall be due and payable on the date specified therein, together with (except in the case of Revolving Loans that are ABR Loans) accrued interest to such date on the amount prepaid. Amounts to be applied in connection with prepayments made pursuant to this Section 2.9 shall be applied to the prepayment of the Term Loans in accordance with Section 2.15(b). Partial prepayments of Term Loans and Revolving Loans shall be in an aggregate principal amount of \$1,000,000 or a whole multiple thereof.

2.9 Mandatory Prepayments and Commitment Reductions. (a) If on any date any Group Member shall receive Net Cash Proceeds from any Asset Sale or Recovery Event, and the Consolidated Leverage Ratio of the Borrower for the most recently ended four fiscal quarters is greater than 2.00 to 1.00, then, unless a Reinvestment Notice shall be delivered in respect thereof, an amount equal to 50% of such Net Cash Proceeds shall be applied on such date to the prepayment of the Term Loans as set forth in Section 2.9(b); provided, that, notwithstanding the foregoing, on each Reinvestment Prepayment Date, an amount equal to the Reinvestment Prepayment Amount with respect to the relevant Reinvestment Event shall be applied to the prepayment of the Term Loans as set forth in Section 2.9(b).

(b) Amounts to be applied in connection with prepayments made pursuant to this Section 2.9 shall be applied to the prepayment of the Term Loans in accordance with Section 2.15(b). The application of any prepayment pursuant to this Section 2.9 shall be made, first, to ABR Loans and, second, to Eurodollar Loans. Each prepayment of the Loans under this Section 2.9 shall be accompanied by accrued interest to the date of such prepayment on the amount prepaid.

2.10 Conversion and Continuation Options. (a) The Borrower may elect from time to time to convert Eurodollar Loans to ABR Loans by giving the Administrative Agent prior irrevocable notice of such election no later than 11:00 A.M., New York City time, on the Business Day preceding the proposed conversion date, provided that any such conversion of Eurodollar Loans may only be made on the last day of an Interest Period with respect thereto. The Borrower may elect from time to time to convert ABR Loans to Eurodollar Loans by giving the Administrative Agent prior irrevocable notice of such election no later than 11:00 A.M., New York City time, on the third Business Day preceding the proposed conversion date (which notice shall specify the length of the initial Interest Period therefor), provided that no ABR Loan under a particular Facility may be converted into a Eurodollar Loan when any Event of Default has occurred and is continuing and the Administrative Agent or the Majority Facility Lenders in respect of such Facility have determined in its or their sole discretion not to permit such conversions. Upon receipt of any such notice the Administrative Agent shall promptly notify each relevant Lender thereof.

(b) Any Eurodollar Loan may be continued as such upon the expiration of the then current Interest Period with respect thereto by the Borrower giving irrevocable notice to the Administrative Agent, in accordance with the applicable provisions of the term "Interest Period" set forth in Section 1.1, of the length of the next Interest Period to be applicable to such Loans, provided that no Eurodollar Loan under a particular Facility may be continued as such when any Event of Default has occurred and is continuing and the Administrative Agent has or the Majority Facility Lenders in respect of such Facility have determined in its or their sole discretion not to permit such continuations, and provided, further, that if the Borrower shall fail to give any required notice as described above in this paragraph or if such continuation is not permitted pursuant to the preceding proviso such Loans shall be automatically converted to ABR Loans on the last day of such then expiring Interest Period. Upon receipt of any such notice the Administrative Agent shall promptly notify each relevant Lender thereof.

2.11 Limitations on Eurodollar Tranches. Notwithstanding anything to the contrary in this Agreement, all borrowings, conversions and continuations of Eurodollar Loans and all selections of Interest Periods shall be in such amounts and be made pursuant to such elections so that, (a) after giving effect thereto, the aggregate principal amount of the Eurodollar Loans comprising each Eurodollar Tranche shall be equal to \$5,000,000 or a whole multiple of \$1,000,000 in excess thereof and (b) no more than ten Eurodollar Tranches shall be outstanding at any one time.

2.12 Interest Rates and Payment Dates. (a) Each Eurodollar Loan shall bear interest for each day during each Interest Period with respect thereto at a rate per annum equal to the Eurodollar Rate determined for such day plus the Applicable Margin.

(b) Each ABR Loan shall bear interest at a rate per annum equal to the ABR plus the Applicable Margin.

(c) (i) If all or a portion of the principal amount of any Loan or Reimbursement Obligation shall not be paid when due (whether at the stated maturity, by acceleration or otherwise), all outstanding Loans and Reimbursement Obligations (whether or not overdue) shall bear interest at a rate per annum equal to (x) in the case of the Loans, the rate that would otherwise be applicable thereto pursuant to the foregoing provisions of this Section plus 2% or (y) in the case of Reimbursement Obligations, the rate applicable to ABR Loans under the Revolving Facility plus 2%, and (ii) if all or a portion of any interest payable on any Loan or Reimbursement Obligation or any commitment fee or other amount payable hereunder shall not be paid when due (whether at the stated maturity, by acceleration or otherwise), such overdue amount shall bear interest at a rate per annum equal to the rate then applicable to ABR Loans under the relevant Facility plus 2% (or, in the case of any such other amounts that do not relate to a particular Facility, the rate then applicable to ABR Loans under the Revolving Facility plus 2%), in each case, with respect to clauses (i) and (ii) above, from the date of such non-payment until such amount is paid in full (as well after as before judgment).

(d) Interest shall be payable in arrears on each Interest Payment Date, provided that interest accruing pursuant to paragraph (c) of this Section shall be payable from time to time on demand.

2.13 Computation of Interest and Fees. (a) Interest and fees payable pursuant hereto shall be calculated on the basis of a 360-day year for the actual days elapsed, except that, with respect to ABR Loans the rate of interest on which is calculated on the basis of the Prime Rate, the interest thereon shall be calculated on the basis of a 365- (or 366-, as the case may be) day year for the actual days elapsed. The Administrative Agent shall as soon as practicable notify the Borrower and the relevant Lenders of each determination of a Eurodollar Rate. Any change in the interest rate on a Loan resulting from a change in the ABR or the Eurocurrency Reserve Requirements shall become effective as of the opening of business on the day on which such change becomes effective. The Administrative Agent shall as soon as practicable notify the Borrower and the relevant Lenders of the effective date and the amount of each such change in interest rate.

(b) Each determination of an interest rate by the Administrative Agent pursuant to any provision of this Agreement shall be conclusive and binding on the Borrower and the Lenders in the absence of manifest error. The Administrative Agent shall, at the request of the Borrower, deliver to the Borrower a statement showing the quotations used by the Administrative Agent in determining any interest rate pursuant to Section 2.12(a).

2.14 Inability to Determine Interest Rate. If prior to the first day of any Interest Period:

(a) the Administrative Agent shall have determined (which determination shall be conclusive and binding upon the Borrower) that, by reason of circumstances affecting the relevant market, adequate and reasonable means do not exist for ascertaining the Eurodollar Rate for such Interest Period, or

(b) the Administrative Agent shall have received notice from the Majority Facility Lenders in respect of the relevant Facility that the Eurodollar Rate determined or to be determined for such Interest Period will not adequately and fairly reflect the cost to such Lenders (as conclusively certified by such Lenders) of making or maintaining their affected Loans during such Interest Period (each of clause (a) and (b), a “Market Disruption Event”),

the Administrative Agent shall give telecopy or telephonic notice thereof to the Borrower and the relevant Lenders as soon as practicable thereafter. If such notice is given (x) any Eurodollar Loans under the relevant Facility requested to be made on the first day of such Interest Period shall be made as ABR Loans, (y) any Loans under the relevant Facility that were to have been converted on the first day of such Interest Period to Eurodollar Loans shall be continued as ABR Loans and (z) any outstanding Eurodollar Loans under the relevant Facility shall be converted, on the last day of the then-current Interest Period, to ABR Loans. Until such notice has been withdrawn by the Administrative Agent, no further Eurodollar Loans under the relevant Facility shall be made or continued as such, nor shall the Borrower have the right to convert Loans under the relevant Facility to Eurodollar Loans; provided that during any period in which a Market Disruption Event is in effect, the Borrower may request that the Administrative Agent request the Majority Facility Lenders to confirm that the circumstances giving rise to the Market Disruption Event continue to be in effect; provided that (A) the Borrower shall not be permitted to submit any such request more than once in any 30-day period and (B) nothing contained in this Section 2.14 or the failure to provide confirmation of the continued effectiveness of such Market Disruption Event shall in any way affect the Administrative Agent’s or Majority Facility Lenders’ right to provide any additional notices of a Market Disruption Event as provided in this Section 2.14.

2.15 Pro Rata Treatment and Payments. (a) Each borrowing by the Borrower from the Lenders hereunder, each payment by the Borrower on account of any commitment fee and any reduction of the Commitments of the Lenders shall be made pro rata according to the respective Term Percentages or Revolving Percentages, as the case may be, of the relevant Lenders.

(b) Each payment (including each prepayment) by the Borrower on account of principal of and interest on the Term Loans shall be made pro rata according to the respective outstanding principal amounts of the Term Loans then held by the Term Lenders. The amount of each principal prepayment of the Term Loans shall be applied to reduce the then remaining installments of the Term Loans pro rata based upon the then remaining principal amounts thereof. Amounts prepaid on account of the Term Loans may not be reborrowed.

(c) Each payment (including each prepayment) by the Borrower on account of principal of and interest on the Revolving Loans shall be made pro rata according to the respective outstanding principal amounts of the Revolving Loans then held by the Revolving Lenders.

(d) All payments (including prepayments) to be made by the Borrower hereunder, whether on account of principal, interest, fees or otherwise, shall be made without setoff or counterclaim and shall be made prior to 12:00 Noon, New York City time, on the due date thereof to the Administrative Agent, for the account of the Lenders, at the Funding Office, in Dollars and in immediately available funds. The Administrative Agent shall distribute such payments to the Lenders promptly upon receipt in like funds as received. If any payment hereunder (other than payments on the Eurodollar Loans) becomes due and payable on a day other than a Business Day, such payment shall be extended to the next succeeding Business Day. If any payment on a Eurodollar Loan becomes due and payable on a day other than a Business Day, the maturity thereof shall be extended to the next succeeding Business Day unless the result of such extension would be to extend such

payment into another calendar month, in which event such payment shall be made on the immediately preceding Business Day. In the case of any extension of any payment of principal pursuant to the preceding two sentences, interest thereon shall be payable at the then applicable rate during such extension.

(e) Unless the Administrative Agent shall have been notified in writing by any Lender prior to a borrowing that such Lender will not make the amount that would constitute its share of such borrowing available to the Administrative Agent, the Administrative Agent may assume that such Lender is making such amount available to the Administrative Agent, and the Administrative Agent may, in reliance upon such assumption, make available to the Borrower a corresponding amount. If such amount is not made available to the Administrative Agent by the required time on the Borrowing Date therefor, such Lender shall pay to the Administrative Agent, on demand, such amount with interest thereon, at a rate equal to the greater of (i) the Federal Funds Effective Rate and (ii) a rate determined by the Administrative Agent in accordance with banking industry rules on interbank compensation, for the period until such Lender makes such amount immediately available to the Administrative Agent. A certificate of the Administrative Agent submitted to any Lender with respect to any amounts owing under this paragraph shall be conclusive in the absence of manifest error. If such Lender's share of such borrowing is not made available to the Administrative Agent by such Lender within three Business Days after such Borrowing Date, the Administrative Agent shall also be entitled to recover such amount with interest thereon at the rate per annum applicable to ABR Loans under the relevant Facility, on demand, from the Borrower.

(f) Unless the Administrative Agent shall have been notified in writing by the Borrower prior to the date of any payment due to be made by the Borrower hereunder that the Borrower will not make such payment to the Administrative Agent, the Administrative Agent may assume that the Borrower is making such payment, and the Administrative Agent may, but shall not be required to, in reliance upon such assumption, make available to the Lenders their respective pro rata shares of a corresponding amount. If such payment is not made to the Administrative Agent by the Borrower within three Business Days after such due date, the Administrative Agent shall be entitled to recover, on demand, from each Lender to which any amount which was made available pursuant to the preceding sentence, such amount with interest thereon at the rate per annum equal to the daily average Federal Funds Effective Rate. Nothing herein shall be deemed to limit the rights of the Administrative Agent or any Lender against the Borrower.

2.16 Requirements of Law. (a) If the adoption of or any change in any Requirement of Law or in the interpretation or application thereof or compliance by any Lender (which shall, for the avoidance of doubt, include any Issuing Lender) with any request or directive (whether or not having the force of law) from any central bank or other Governmental Authority made subsequent to the date hereof:

(i) shall subject any Lender to any tax of any kind whatsoever with respect to this Agreement, any Letter of Credit, any Application or any Eurodollar Loan made by it, or change the basis of taxation of payments to such Lender in respect thereof (except for in each case Non-Excluded Taxes and Other Taxes, which are covered by Section 2.17, changes in the rate or basis of imposition of tax imposed on or measured by the net income of such Lender, franchise taxes in lieu of such net income taxes and branch profits taxes);

(ii) shall impose, modify or hold applicable any reserve, special deposit, compulsory loan or similar requirement against assets held by, deposits or other liabilities in or for the account of, advances, loans or other extensions of credit by, or any other acquisition of

funds by, any office of such Lender that is not otherwise included in the determination of the Eurodollar Rate; or

(iii) shall impose on such Lender any other condition affecting this Agreement;

and the result of any of the foregoing is to increase the cost to such Lender, by an amount that such Lender reasonably deems to be material, of making, converting into, continuing or maintaining Eurodollar Loans or issuing or participating in Letters of Credit, or to reduce any amount receivable hereunder in respect thereof, then, in any such case, the Borrower shall promptly pay such Lender upon its demand, any additional amounts necessary to compensate such Lender for such increased cost or reduced amount receivable. If any Lender becomes entitled to claim any additional amounts pursuant to this paragraph, it shall promptly notify the Borrower in writing (with a copy to the Administrative Agent) of the event by reason of which it has become so entitled.

(b) If any Lender shall have determined that the adoption of or any change in any Requirement of Law regarding capital adequacy or liquidity requirements or in the interpretation or application thereof or compliance by such Lender or any corporation controlling such Lender with any request or directive regarding capital adequacy or liquidity requirements (whether or not having the force of law) from any Governmental Authority made subsequent to the date hereof shall have the effect of reducing the rate of return on such Lender's or such corporation's capital as a consequence of its obligations hereunder or under or in respect of any Letter of Credit to a level below that which such Lender, or such corporation could have achieved but for such adoption, change or compliance (taking into consideration such Lender's, or such corporation's policies with respect to capital adequacy or liquidity requirements) by an amount reasonably deemed by such Lender to be material, then from time to time, after submission by such Lender or to the Borrower (with a copy to the Administrative Agent) of a written request therefor, the Borrower shall pay to such Lender such additional amount or amounts as will compensate such Lender, or such corporation for such reduction; provided, that the Borrower shall not be required to pay additional amounts to compensate any Lender (i) any Non-Excluded Taxes or Other Taxes, which are covered by Section 2.17 or (ii) any change in the rate or basis of imposition of applicable taxes imposed on or measured by net income, franchise taxes in lieu of such net income taxes and branch profits taxes.

(c) Notwithstanding anything herein to the contrary, (i) all requests, rules, guidelines, requirements and directives promulgated by the Bank for International Settlements, the Basel Committee on Banking Supervision (or any successor or similar authority) or by United States or foreign regulatory authorities, in each case pursuant to Basel III, and (ii) the Dodd-Frank Wall Street Reform and Consumer Protection Act and all requests, rules, guidelines, requirements and directives thereunder or issued in connection therewith or in implementation thereof shall in each case be deemed to be a change in a Requirement of Law, regardless of the date enacted, adopted, issued or implemented; provided that the protection of this Section 2.16(c) shall be available to each Lender regardless of any possible contention of the invalidity or inapplicability of the law, rule, regulation, guideline or other change or condition which shall have occurred or been imposed, so long as it shall be customary for Lenders affected thereby to comply therewith. No Lender shall be entitled to compensation under this Section 2.16(c) with respect to any date unless it shall have notified the Borrower that it will demand compensation pursuant to this Section 2.16(c) not more than 90 days after the date on which it shall have become aware of such incurred costs or reductions. Notwithstanding any other provision herein, no Lender shall demand compensation pursuant to this Section 2.16(c) if it shall not at the time be the general policy or practice of such Lender to demand

such compensation in similar circumstances under comparable provisions of other credit agreements, if any.

(d) A certificate as to any additional amounts payable pursuant to this Section submitted by any Lender to the Borrower (with a copy to the Administrative Agent) shall set forth in reasonable detail the calculation of such amounts and shall be conclusive in the absence of manifest error. Notwithstanding anything to the contrary in this Section, the Borrower shall not be required to compensate a Lender pursuant to this Section for any amounts incurred more than nine months prior to the date that such Lender notifies the Borrower of such Lender's intention to claim compensation therefor; provided that, if the circumstances giving rise to such claim have a retroactive effect, then such nine-month period shall be extended to include the period of such retroactive effect. The obligations of the Borrower pursuant to this Section shall survive the termination of this Agreement and the payment of the Loans and all other amounts payable hereunder.

2.17 Taxes. (a) All payments made by or on behalf of any Loan Party under this Agreement or any other Loan Document shall be made free and clear of, and without deduction or withholding for or on account of, any present or future taxes, levies, imposts, duties, charges, fees, deductions or withholdings, now or hereafter imposed, levied, collected, withheld or assessed by any Governmental Authority, excluding net income taxes, branch profits taxes and franchise taxes (imposed in lieu of net income taxes) imposed on the Administrative Agent or any Lender by the jurisdiction under the laws of which the Administrative Agent or such Lender is organized or as a result of a present or former connection between the Administrative Agent or such Lender and the jurisdiction of the Governmental Authority imposing such tax or any political subdivision or taxing authority thereof or therein (other than any such connection arising solely from the Administrative Agent or such Lender having executed, delivered or performed its obligations or received a payment under, or enforced, this Agreement or any other Loan Document) (such non-excluded taxes, levies, imposts, duties, charges, fees, deductions or withholdings, the "Non-Excluded Taxes"); provided that, if any Non-Excluded Taxes or Other Taxes are required to be withheld from any amounts payable to the Administrative Agent or any Lender, as determined in good faith by the applicable Withholding Agent, (i) such amounts shall be paid to the relevant Governmental Authority in accordance with applicable law and (ii) the amounts so payable by the applicable Loan Party to the Administrative Agent or such Lender shall be increased to the extent necessary to yield to the Administrative Agent or such Lender (after payment of all Non-Excluded Taxes and Other Taxes including any such taxes imposed on amounts payable under this Section) interest or any such other amounts payable hereunder at the rates or in the amounts specified in this Agreement as if such withholding or deduction had not been made, provided further, however, that the Borrower shall not be required to increase any such amounts payable to the Administrative Agent or any Lender with respect to any Non-Excluded Taxes (i) that are attributable to such Lender's failure to comply with the requirements of paragraph (d), (e) or (f) of this Section, (ii) that are United States withholding taxes imposed under FATCA or (iii) that are United States withholding taxes resulting from any Requirement of Law in effect on the date the Administrative Agent or such Lender becomes a party to this Agreement or designates a new lending office, except to the extent that the Administrative Agent or such Lender (or its assignor (if any)) was entitled, immediately prior to such designation of a new lending office or at the time of assignment, as applicable, to receive additional amounts from the Borrower with respect to such Non-Excluded Taxes pursuant to this paragraph.

(b) In addition, the Borrower shall pay any Other Taxes to the relevant Governmental Authority in accordance with applicable law.

(c) Whenever any Non-Excluded Taxes or Other Taxes are payable by the Borrower, as promptly as possible thereafter the Borrower shall send to the Administrative Agent for its own account or for the account of the relevant Lender, as the case may be, a certified copy of an original official receipt received by the Borrower showing payment thereof. If (i) the Borrower fails to pay any Non-Excluded Taxes or Other Taxes when due to the appropriate taxing authority, (ii) the Borrower fails to remit to the Administrative Agent the required receipts or other required documentary evidence or (iii) any Non-Excluded Taxes or Other Taxes are imposed directly upon the Administrative Agent or any Lender, the Borrower shall indemnify the Administrative Agent and the Lenders for such amounts and any incremental taxes, interest or penalties that may become payable by the Administrative Agent or any Lender as a result of any such failure, in the case of (i) and (ii), or any such direct imposition, in the case of (iii); provided that the requirement to indemnify shall apply only if the Borrower is required under this Section 2.17 to pay additional amounts with respect to such Non-Excluded Taxes or Other Taxes.

(d) Each Lender (or Transferee) that is not a "United States Person" as defined in Section 7701(a)(30) of the Code (a "Non-U.S. Lender") shall deliver to the Borrower and the Administrative Agent (or, in the case of a Participant, to the Lender from which the related participation shall have been purchased) (i) two copies of U.S. Internal Revenue Service ("IRS") Form W-8BEN, Form W-8BEN-E, Form W-8ECI or Form W-8IMY (together with any applicable underlying IRS forms), (ii) in the case of a Non-U.S. Lender claiming exemption from U.S. federal withholding tax under Section 871(h) or 881(c) of the Code with respect to payments of "portfolio interest", a statement substantially in the form of Exhibit F and the applicable IRS Form W-8, or any subsequent versions thereof or successors thereto, properly completed and duly executed by such Non-U.S. Lender claiming complete exemption from, or a reduced rate of, U.S. federal withholding tax on all payments by the Borrower under this Agreement and the other Loan Documents, or (iii) any other form prescribed by applicable requirements of U.S. federal income tax law as a basis for claiming exemption from or a reduction in U.S. federal withholding tax duly completed together with such supplementary documentation as may be prescribed by applicable Requirements of Law to permit the Borrower and the Administrative Agent to determine the withholding or deduction required to be made. Such forms shall be delivered by each Non-U.S. Lender on or before the date it becomes a party to this Agreement (or, in the case of any Participant, on or before the date such Participant purchases the related participation) and from time to time thereafter upon the request of the Borrower or the Administrative Agent. Notwithstanding any other provision of this Section, a Non-U.S. Lender shall not be required to deliver any form pursuant to this Section that such Non-U.S. Lender is not legally able to deliver.

(e) A Lender that is entitled to an exemption from or reduction of non-U.S. withholding tax under the law of the jurisdiction in which the Borrower is located, or any treaty to which such jurisdiction is a party, with respect to payments under this Agreement shall deliver to the Borrower (with a copy to the Administrative Agent), at the time or times prescribed by applicable law or reasonably requested by the Borrower or the Administrative Agent, such properly completed and executed documentation prescribed by applicable law as will permit such payments to be made without withholding or at a reduced rate, provided that such Lender is legally entitled to complete, execute and deliver such documentation and in such Lender's judgment such completion, execution or submission would not materially prejudice the legal or commercial position of such Lender.

(f) The Administrative Agent and each Lender, in each case that is organized under the laws of the United States or a state thereof, shall, on or before the date of any payment by the Borrower under this Agreement or any other Loan Document to, or for the account of, such

Administrative Agent or Lender, deliver to the Borrower and the Administrative Agent (or, in the case of a Participant, to the Lender from which the related participation shall have been purchased), two duly completed copies of Internal Revenue Service Form W-9, or successor form, certifying that such Administrative Agent or Lender is a "United States Person" (as defined in Section 7701(a)(30) of the Code) and that such Administrative Agent or Lender is entitled to a complete exemption from United States backup withholding tax.

(g) If the Administrative Agent or any Lender determines, in its sole discretion, that it has received a refund of any Non-Excluded Taxes or Other Taxes as to which it has been indemnified by a Loan Party or with respect to which a Loan Party has paid additional amounts pursuant to this Section 2.17, it shall pay over such refund to such Loan Party (but only to the extent of indemnity payments made, or additional amounts paid, by such Loan Party under this Section 2.17 with respect to the Non-Excluded Taxes or Other Taxes giving rise to such refund), net of all out-of-pocket expenses of the Administrative Agent or such Lender and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund); provided, that such Loan Party, upon the request of the Administrative Agent or such Lender, agrees to repay the amount paid over to such Loan Party (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) to the Administrative Agent or such Lender in the event the Administrative Agent or such Lender is required to repay such refund to such Governmental Authority. This paragraph shall not be construed to require the Administrative Agent or any Lender to make available its tax returns (or any other information relating to its taxes which it deems confidential) to any Loan Party or any other Person.

(h) Each Lender shall indemnify the Administrative Agent, within 10 days after demand therefor, for the full amount of (i) any taxes, levies, imposts, duties, charges, fees, deductions, withholdings or similar charges imposed by any Governmental Authority that are attributable to such Lender and (ii) any taxes attributable to such Lender's failure to comply with the provisions of Section 10.6(c) relating to the maintenance of a Participant Register, in each case, that are payable or paid by the Administrative Agent, together with all interest, penalties, reasonable costs and expenses arising therefrom or with respect thereto, as determined by the Administrative Agent in good faith, whether or not such taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to any Lender by the Administrative Agent shall be conclusive absent manifest error; provided that if it is demonstrated to the reasonable satisfaction of the Administrative Agent that any Lender has overpaid in respect of any such amounts due, the Administrative Agent shall reimburse such Lender for such overpaid amount. Each Lender hereby authorizes the Administrative Agent to set off and apply any and all amounts at any time owing to such Lender under any Loan Document or otherwise payable by the Administrative Agent to the Lender from any other source against any amount due to the Administrative Agent under this paragraph (h).

(i) If a payment made to a Lender under any Loan Document would be subject to U.S. Federal withholding Tax imposed by FATCA if such Lender were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Code, as applicable), such Lender shall deliver to the Borrower and the Administrative Agent at the time or times prescribed by law and at such time or times reasonably requested by the Borrower or the Administrative Agent such documentation prescribed by applicable law (including as prescribed by Section 1471(b)(3)(C)(i) of the Code) and such additional documentation reasonably requested by the Borrower or the Administrative Agent as may be necessary for the Borrower and the Administrative Agent to comply with their obligations under FATCA and to determine that such

Lender has complied with such Lender's obligations under FATCA or to determine the amount to deduct and withhold from such payment. Solely for purposes of this paragraph (i), "FATCA" shall include any amendments made to FATCA after the date of this Agreement.

(j) Each Lender agrees that if any form or certification it previously delivered under this Section expires or becomes obsolete or inaccurate in any respect, it shall update such form or certification or promptly notify the Borrower and the Administrative Agent in writing of its legal inability to do so.

(k) For purposes of this Section 2.17, the term "Lender" includes any other Issuing Lender and the term "applicable law" includes FATCA.

(l) The agreements in this Section shall survive the termination of this Agreement and the payment of the Loans and all other amounts payable hereunder.

2.18 Indemnity. The Borrower agrees to indemnify each Lender for, and to hold each Lender harmless from, any loss or expense that such Lender may sustain or incur as a consequence of (a) default by the Borrower in making a borrowing of, conversion into or continuation of Eurodollar Loans after the Borrower has given a notice requesting the same in accordance with the provisions of this Agreement, (b) default by the Borrower in making any prepayment of or conversion from Eurodollar Loans after the Borrower has given a notice thereof in accordance with the provisions of this Agreement or (c) the making of a prepayment of Eurodollar Loans on a day that is not the last day of an Interest Period with respect thereto. Such indemnification may include an amount equal to the excess, if any, of (i) the amount of interest that would have accrued on the amount so prepaid, or not so borrowed, converted or continued, for the period from the date of such prepayment or of such failure to borrow, convert or continue to the last day of such Interest Period (or, in the case of a failure to borrow, convert or continue, the Interest Period that would have commenced on the date of such failure) in each case at the applicable rate of interest for such Loans provided for herein (excluding, however, the Applicable Margin included therein, if any) over (ii) the amount of interest (as reasonably determined by such Lender) that would have accrued to such Lender on such amount by placing such amount on deposit for a comparable period with leading banks in the interbank eurodollar market. A certificate setting forth the calculation in reasonable detail as to any amounts payable pursuant to this Section submitted to the Borrower by any Lender shall be conclusive in the absence of manifest error. This covenant shall survive the termination of this Agreement and the payment of the Loans and all other amounts payable hereunder.

2.19 Payments Generally; Pro Rata Treatment; Sharing of Set-offs. If any Lender shall fail to make any payment required to be made by it pursuant to Sections 2.15(e), 2.15(f), 3.4, 3.5 or 9.7, then the Administrative Agent may, in its discretion and notwithstanding any contrary provision hereof, (i) apply any amounts thereafter received by the Administrative Agent for the account of such Lender for the benefit of the Administrative Agent or the Issuing Lender to satisfy such Lender's obligations to it under such Section until all such unsatisfied obligations are fully paid, and/or (ii) hold any such amounts in a segregated account as cash collateral for, and application to, any future funding obligations of such Lender under any such Section, in the case of each of clauses (i) and (ii) above, in any order as determined by the Administrative Agent in its discretion.

2.20 Mitigation Obligations; Replacement of Lenders. (a) If any Lender requests compensation under Section 2.16, or if the Borrower is required to pay any additional amount to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.17, then such Lender shall use reasonable efforts to designate a different lending office for funding or booking its Loans

hereunder or to assign its rights and obligations hereunder to another of its offices, branches or affiliates, if, in the judgment of such Lender, such designation or assignment (i) would eliminate or reduce amounts payable pursuant to Section 2.16 or 2.17, as the case may be, in the future and (ii) would not subject such Lender to any unreimbursed cost or expense and would not otherwise be disadvantageous to such Lender. The Borrower hereby agrees to pay all reasonable costs and expenses incurred by any Lender in connection with any such designation or assignment.

(b) If any Lender requests compensation under Section 2.16, or does not consent to any proposed amendment, supplement, modification, consent, or waiver of this Agreement or any other Loan Document requested by the Borrower which requires the consent of all the Lenders (including such Lender's consent) and which has been consented to by the Required Lenders, or if the Borrower is required to pay any additional amount to any Lender or any Governmental Authority for the account of any Lender pursuant to Section 2.16 and Section 2.17, or if any Lender becomes a Defaulting Lender, then the Borrower may, at its sole expense and effort, upon notice to such Lender and the Administrative Agent, require such Lender to assign and delegate, without recourse (in accordance with and subject to the restrictions contained in Section 10.6), all its interests, rights and obligations under this Agreement to an assignee that shall assume such obligations (which assignee may be another Lender, if a Lender accepts such assignment); provided that (i) such assignment does not conflict with any Requirement of Law, (ii) the Borrower shall be liable to the assigning Lender under Section 2.18 if any Eurodollar Loan owing to such assigning Lender shall be purchased other than on the last day of the Interest Period relating thereto, (iii) until such time as such assignment shall be consummated, the Borrower shall pay all additional amounts (if any) required pursuant to Section 2.16 or 2.17(a), as the case may be, (iv) if the assignee is not already a Lender, the Borrower shall have received the prior written consent of the Administrative Agent (and if a Revolving Commitment is being assigned, the Issuing Lender), which consent shall not unreasonably be withheld, (v) such Lender shall have received payment of an amount equal to the outstanding principal of its Loans and participations in Letters of Credit, accrued interest thereon, accrued fees and all other amounts payable to it hereunder, from the assignee (to the extent of such outstanding principal and accrued interest and fees) or the Borrower (in the case of all other amounts), (vi) in the case of any such assignment resulting from a claim for compensation under Section 2.16 or payments required to be made pursuant to Section 2.17, such assignment will result in a reduction in such compensation or payments and (vii) any such assignment shall not be deemed to be a waiver of any rights that the Borrower, the Administrative Agent or any other Lender shall have against the replaced Lender. No action by or consent of the replaced Lender shall be necessary in connection with such removal or assignment, which shall be immediately and automatically effective upon payment of such purchase price. In connection with any such assignment, the Borrower, the Administrative Agent, such replaced Lender and the replacement Lender shall otherwise comply with Section 10.6; provided that if such replaced Lender does not comply with Section 10.6 within three Business Days after the Borrower's request, compliance with Section 10.6 shall not be required to effect such assignment. A Lender shall not be required to make any such assignment and delegation if, prior thereto, as a result of a waiver by such Lender or otherwise, the circumstances entitling the Borrower to require such assignment and delegation cease to apply.

2.21 Defaulting Lenders. Notwithstanding any provision of this Agreement to the contrary, if any Lender becomes a Defaulting Lender, then the following provisions shall apply for so long as such Lender is a Defaulting Lender:

(a) fees shall cease to accrue on the unfunded portion of the Commitment of such Defaulting Lender pursuant to Section 2.6;

(b) the Commitments of such Defaulting Lender shall not be included in determining whether the Required Lenders have taken or may take any action hereunder (including any consent to any amendment, waiver or other modification pursuant to Section 10.1); provided, that this clause (b) shall not apply to the vote of a Defaulting Lender in the case of an amendment, waiver or other modification requiring the consent of such Lender or each Lender affected thereby;

(c) if any L/C Obligations exist at the time such Lender becomes a Defaulting Lender then:

(i) all or any part of the L/C Obligations of such Defaulting Lender shall be reallocated among the non-Defaulting Lenders in accordance with their respective Aggregate Exposure Percentages but only to the extent the sum of all non-Defaulting Lenders' Aggregate Exposure Percentages plus such Defaulting Lender's L/C Obligations does not exceed the total of all non-Defaulting Lenders' Commitments;

(ii) if the reallocation described in clause (i) above cannot, or can only partially, be effected, the Borrower shall within one Business Day following notice by the Administrative Agent cash collateralize for the benefit of the Issuing Lender only the Borrower's obligations corresponding to such Defaulting Lender's L/C Obligations (after giving effect to any partial reallocation pursuant to clause (i) above) in accordance with the procedures set forth in Section 8.1 for so long as such L/C Obligations are outstanding;

(iii) if the Borrower cash collateralizes any portion of such Defaulting Lender's L/C Obligations pursuant to clause (ii) above, the Borrower shall not be required to pay any fees to such Defaulting Lender pursuant to Section 3.3 with respect to such Defaulting Lender's L/C Obligations during the period such Defaulting Lender's L/C Obligations are cash collateralized;

(iv) if the L/C Obligations of the non-Defaulting Lenders are reallocated pursuant to clause (i) above, then the fees payable to the Lenders pursuant to Section 2.6 and Section 3.3 shall be adjusted in accordance with such non-Defaulting Lenders' Aggregate Exposure Percentages; and

(v) if all or any portion of such Defaulting Lender's L/C Obligations is neither reallocated nor cash collateralized pursuant to clause (i) or (ii) above, then, without prejudice to any rights or remedies of the Issuing Lender or any other Lender hereunder, all Letter of Credit fees payable under Section 3.3 with respect to such Defaulting Lender's L/C Obligations shall be payable to the Issuing Lender until and to the extent that such L/C Obligations are reallocated and/or cash collateralized; and

(d) so long as such Lender is a Defaulting Lender, the Issuing Lender shall not be required to issue, amend or increase any Letter of Credit, unless it is satisfied that the related exposure and the Defaulting Lender's then outstanding L/C Obligations will be 100% covered by the Commitments of the non-Defaulting Lenders and/or cash collateral will be provided by the Borrower in accordance with Section 2.21(c), and participating interests in any newly issued or increased Letter of Credit shall be allocated among non-Defaulting Lenders in a manner consistent with Section 2.21(c)(i) (and such Defaulting Lender shall not participate therein).

If (i) a Bankruptcy Event with respect to a Parent of any Lender shall occur following the date hereof and for so long as such event shall continue or (ii) the Issuing Lender has a good faith belief

that any Lender has defaulted in fulfilling its obligations under one or more other agreements in which such Lender commits to extend credit, the Issuing Lender shall not be required to issue, amend or increase any Letter of Credit, unless the Issuing Lender, shall have entered into arrangements with the Borrower or such Lender, satisfactory to the Issuing Lender, to defease any risk to it in respect of such Lender hereunder.

In the event that the Administrative Agent, the Borrower and the Issuing Lender each agrees that a Defaulting Lender has adequately remedied all matters that caused such Lender to be a Defaulting Lender, then the L/C Obligations of the Lenders shall be readjusted to reflect the inclusion of such Lender's Commitment and on such date such Lender shall purchase at par such of the Loans of the other Lenders as the Administrative Agent shall determine may be necessary in order for such Lender to hold such Loans in accordance with its Aggregate Exposure Percentage.

SECTION 3. LETTERS OF CREDIT

3.1 L/C Commitment. (a) Subject to the terms and conditions hereof, the Issuing Lender, in reliance on the agreements of the other Revolving Lenders set forth in Section 3.4(a), agrees to issue letters of credit ("Letters of Credit") for the account of the Borrower and its Subsidiaries and with the Borrower as the applicant on any Business Day during the Revolving Commitment Period in such form as may be approved from time to time by the Issuing Lender; provided that no Issuing Lender shall have any obligation to issue any Letter of Credit if, after giving effect to such issuance, (i) its L/C Obligations would exceed its L/C Commitment, (ii) the aggregate amount of L/C Obligations would exceed the aggregate amount of L/C Commitments or (iii) the aggregate amount of the Available Revolving Commitments would be less than zero. Each Letter of Credit shall (i) be denominated in Dollars or in any Designated Foreign Currency and (ii) expire no later than the earlier of (x) the first anniversary of its date of issuance and (y) the date that is five Business Days prior to the Revolving Termination Date, provided that any Letter of Credit with a one-year term may provide for the renewal thereof for additional one-year periods (which shall in no event extend beyond the date referred to in clause (y) above).

(b) The Issuing Lender shall not at any time be obligated to issue any Letter of Credit if such issuance would conflict with, or cause the Issuing Lender or any L/C Participant to exceed any limits imposed by, any applicable Requirement of Law.

3.2 Procedure for Issuance of Letter of Credit. The Borrower may from time to time request that the Issuing Lender issue a Letter of Credit by delivering to the Issuing Lender at its address for notices specified herein an Application therefor (with a copy to the Administrative Agent), completed to the satisfaction of the Issuing Lender, and such other certificates, documents and other papers and information as the Issuing Lender may request. Upon receipt of any Application, the Issuing Lender will process such Application and the certificates, documents and other papers and information delivered to it in connection therewith in accordance with its customary procedures and shall promptly issue the Letter of Credit requested thereby (but in no event shall the Issuing Lender be required to issue any Letter of Credit earlier than three Business Days after its receipt of the Application therefor and all such other certificates, documents and other papers and information relating thereto) by issuing the original of such Letter of Credit to the beneficiary thereof or as otherwise may be agreed to by the Issuing Lender and the Borrower. The Issuing Lender shall furnish a copy of such Letter of Credit to the Borrower promptly following the issuance thereof. The Issuing Lender shall promptly furnish to the Administrative Agent, which shall in turn promptly furnish to the Lenders, notice of the issuance of each Letter of Credit (including the amount thereof).

3.3 Fees and Other Charges. (d) The Borrower will pay a fee on all outstanding Letters of Credit at a per annum rate equal to the Applicable Margin then in effect with respect to Eurodollar Loans under the Revolving Facility, shared ratably among the Revolving Lenders and payable quarterly in arrears on each Fee Payment Date after the issuance date. In addition, the Borrower shall pay to the Issuing Lender for its own account a fronting fee of 0.125% per annum on the undrawn and unexpired amount of each Letter of Credit, payable quarterly in arrears on each Fee Payment Date after the issuance date. Such fees shall be payable in Dollars.

(e) In addition to the foregoing fees, the Borrower shall pay or reimburse the Issuing Lender for such normal and customary costs and expenses as are incurred or charged by the Issuing Lender in issuing, negotiating, effecting payment under, amending or otherwise administering any Letter of Credit.

3.4 L/C Participations. (a) The Issuing Lender irrevocably agrees to grant and hereby grants to each L/C Participant, and, to induce the Issuing Lender to issue Letters of Credit, each L/C Participant irrevocably agrees to accept and purchase and hereby accepts and purchases from the Issuing Lender, on the terms and conditions set forth below, for such L/C Participant's own account and risk an undivided interest equal to such L/C Participant's Revolving Percentage in the Issuing Lender's obligations and rights under and in respect of each Letter of Credit and the amount of each draft paid by the Issuing Lender thereunder. Each L/C Participant agrees with the Issuing Lender that, if a draft is paid under any Letter of Credit for which the Issuing Lender is not reimbursed in full by the Borrower in accordance with the terms of this Agreement (or in the event that any reimbursement received by the Issuing Lender shall be required to be returned by it at any time), such L/C Participant shall pay to the Issuing Lender upon demand (which demand, in the case of any demand made in respect of any draft under a Letter of Credit denominated in any Designated Foreign Currency, shall not be made prior to the date that the amount of such draft shall be converted into Dollars in accordance with Section 3.5) at the Issuing Lender's address for notices specified herein an amount equal to such L/C Participant's Revolving Percentage of the amount of such draft, or any part thereof, that is not so reimbursed (or is so returned). Each L/C Participant's obligation to pay such amount shall be absolute and unconditional and shall not be affected by any circumstance, including (i) any setoff, counterclaim, recoupment, defense or other right that such L/C Participant may have against the Issuing Lender, the Borrower or any other Person for any reason whatsoever, (ii) the occurrence or continuance of a Default or an Event of Default or the failure to satisfy any of the other conditions specified in Section 5, (iii) any adverse change in the condition (financial or otherwise) of the Borrower, (iv) any breach of this Agreement or any other Loan Document by the Borrower, any other Loan Party or any other L/C Participant or (v) any other circumstance, happening or event whatsoever, whether or not similar to any of the foregoing.

(b) If any amount required to be paid by any L/C Participant to the Issuing Lender pursuant to Section 3.4(a) in respect of any unreimbursed portion of any payment made by the Issuing Lender under any Letter of Credit is paid to the Issuing Lender within three Business Days after the date such payment is due, such L/C Participant shall pay to the Issuing Lender on demand an amount equal to the product of (i) such amount, times (ii) the daily average Federal Funds Effective Rate during the period from and including the date such payment is required to the date on which such payment is immediately available to the Issuing Lender, times (iii) a fraction the numerator of which is the number of days that elapse during such period and the denominator of which is 360. If any such amount required to be paid by any L/C Participant pursuant to Section 3.4(a) is not made available to the Issuing Lender by such L/C Participant within three Business Days after the date such payment is due, the Issuing Lender shall be entitled to recover from such L/C Participant, on demand, such amount with interest thereon calculated from such due date at the rate per annum applicable to

ABR Loans under the Revolving Facility. A certificate of the Issuing Lender submitted to any L/C Participant with respect to any amounts owing under this Section shall be conclusive in the absence of manifest error.

(c) Whenever, at any time after the Issuing Lender has made payment under any Letter of Credit and has received from any L/C Participant its pro rata share of such payment in accordance with Section 3.4(a), the Issuing Lender receives any payment related to such Letter of Credit (whether directly from the Borrower or otherwise, including proceeds of collateral applied thereto by the Issuing Lender), or any payment of interest on account thereof, the Issuing Lender will distribute to such L/C Participant its pro rata share thereof; provided, however, that in the event that any such payment received by the Issuing Lender shall be required to be returned by the Issuing Lender, such L/C Participant shall return to the Issuing Lender the portion thereof previously distributed by the Issuing Lender to it.

3.5 Reimbursement Obligation of the Borrower. If any draft is paid under any Letter of Credit, the Borrower shall reimburse the Issuing Lender for the amount of (a) the draft so paid and (b) any taxes, fees, charges or other costs or expenses incurred by the Issuing Lender in connection with such payment, not later than 12:00 Noon, New York City time, on (i) the Business Day that the Borrower receives notice of such draft, if such notice is received on such day prior to 10:00 A.M., New York City time, or (ii) if clause (i) above does not apply, the Business Day immediately following the day that the Borrower receives such notice. Each such payment shall be made to the Issuing Lender at its address for notices referred to herein in the currency in which such Letter of Credit is denominated (except that, in the case of any Letter of Credit denominated in any Designated Foreign Currency, upon notice by the Issuing Lender to the Borrower, such payment shall be made in Dollars from and after the date on which the amount of such payment shall have been converted into Dollars at the Spot Rate of Exchange on such date of conversion, which date of conversion may be any Business Day after the Business Day on which such payment is due) and in immediately available funds. Any conversion by the Issuing Lender of any payment to be made in respect of any Letter of Credit denominated in any Designated Foreign Currency into Dollars in accordance with this Section 3.5 shall be conclusive and binding upon the other parties hereto in the absence of manifest error; provided that upon the request of the Borrower, the Issuing Lender shall provide to the Borrower a certificate including reasonably detailed information as to the calculation of such conversion. Interest shall be payable on any such amounts from the date on which the relevant draft is paid until payment in full at the rate set forth in (x) until the Business Day next succeeding the date of the relevant notice, Section 2.12(b) and (y) thereafter, Section 2.12(c); provided that if any such amount is denominated in a Designated Foreign Currency for any period, such interest shall be payable at the rate charged by the Issuing Lender for reimbursement of overdue obligations in such Designated Foreign Currency owing by account parties with similar credit profiles to that of the Borrower; and provided, further, that if any reimbursement is required to be paid in respect of a Letter of Credit denominated in Dollars, and such reimbursement is not made in accordance with this Section 3.5, the Borrower shall be deemed to have requested a Revolving Extension of Credit in an equivalent amount of such owed reimbursement (provided such request would not result in the Total Revolving Extensions of Credit at such time exceeding Total Revolving Commitments) and to the extent so financed, the Borrower's obligation to make such payment shall be discharged and replaced by the resulting Revolving Loan. If the Borrower fails to make such reimbursement when due, the Administrative Agent shall notify each Revolving Lender of the applicable disbursement, the payment then due from the Borrower in respect thereof and such Lender's share thereof based on the Revolving Percentages (the "Reimbursement Percentage"). Promptly following receipt of such notice, each Revolving Lender shall pay to the Administrative Agent its Reimbursement Percentage of the payment then due from the Borrower, in the same manner as provided in Section 2.5 hereof with respect to Loans made by such Lender (and Section

2.5 shall apply, mutatis mutandis, to the payment obligations of the relevant Revolving Lenders), and the Administrative Agent shall promptly pay to the applicable Issuing Lender the amounts so received by it from such Lenders.

3.6 Obligations Absolute. The Borrower's obligations under this Section 3 shall be absolute, unconditional and irrevocable, and shall be performed strictly in accordance with the terms of this Agreement under any and all circumstances whatsoever and irrespective of (i) any lack of validity or enforceability of any Letter of Credit or this Agreement, or any term or provision therein, (ii) any draft or other document presented under a Letter of Credit proving to be forged, fraudulent or invalid in any respect or any statement therein being untrue or inaccurate in any respect, (iii) payment by the Issuing Lender under a Letter of Credit against presentation of a draft or other document that does not comply with the terms of such Letter of Credit, or (iv) any other event or circumstance whatsoever, whether or not similar to any of the foregoing, that might, but for the provisions of this Section, constitute a legal or equitable discharge of, or provide a right of setoff against, the Borrower's obligations hereunder. Neither the Administrative Agent, the Lenders nor the Issuing Lender, nor any of their related parties, shall have any liability or responsibility by reason of or in connection with the issuance or transfer of any Letter of Credit or any payment or failure to make any payment thereunder (irrespective of any of the circumstances referred to in the preceding sentence), or any error, omission, interruption, loss or delay in transmission or delivery of any draft, notice or other communication under or relating to any Letter of Credit (including any document required to make a drawing thereunder), any error in interpretation of technical terms or any consequence arising from causes beyond the control of the Issuing Lender; provided that the foregoing shall not be construed to excuse the Issuing Lender from liability to the Borrower to the extent of any direct damages (as opposed to special, indirect, consequential or punitive damages, claims in respect of which are hereby waived by the Borrower to the extent permitted by applicable law) suffered by the Borrower that are caused by the Issuing Lender's failure to exercise care when determining whether drafts and other documents presented under a Letter of Credit comply with the terms thereof. The parties hereto expressly agree that, in the absence of gross negligence or willful misconduct on the part of the Issuing Lender (as finally determined by a court of competent jurisdiction), the Issuing Lender shall be deemed to have exercised care in each such determination. In furtherance of the foregoing and without limiting the generality thereof, the parties agree that, with respect to documents presented which appear on their face to be in substantial compliance with the terms of a Letter of Credit, the Issuing Lender may, in its sole discretion, either accept and make payment upon such documents without responsibility for further investigation, regardless of any notice or information to the contrary, or refuse to accept and make payment upon such documents if such documents are not in strict compliance with the terms of such Letter of Credit.

3.7 Letter of Credit Payments. If any draft shall be presented for payment under any Letter of Credit, the Issuing Lender shall promptly notify the Borrower of the date and amount thereof. The responsibility of the Issuing Lender to the Borrower in connection with any draft presented for payment under any Letter of Credit shall, in addition to any payment obligation expressly provided for in such Letter of Credit, be limited to determining that the documents (including each draft) delivered under such Letter of Credit in connection with such presentment are substantially in conformity with such Letter of Credit.

3.8 Applications. To the extent that any provision of any Application related to any Letter of Credit is inconsistent with the provisions of this Section 3, the provisions of this Section 3 shall apply.

3.9 Existing Letters of Credit. Subject to the terms and conditions hereof, each Existing Letter of Credit that is outstanding on the Closing Date and listed on Schedule 3.9 shall, effective as of the Closing Date and without any further action by the Borrower, be continued as a Letter of Credit hereunder and from and after the Closing Date shall be deemed a Letter of Credit for all purposes hereof and shall be subject to and governed by the terms and conditions hereof and shall cease to be outstanding under the Existing Credit Agreement.

SECTION 4. REPRESENTATIONS AND WARRANTIES

To induce the Administrative Agent and the Lenders to enter into this Agreement and to make the Loans and issue or participate in the Letters of Credit, the Borrower hereby represents and warrants to the Administrative Agent and each Lender that:

4.1 Financial Condition. The audited consolidated balance sheets of the Borrower and its consolidated Subsidiaries as at December 31, 2011, December 31, 2012 and December 31, 2013, and the related consolidated statements of operations and of cash flows for the year ended December 31, 2011, the year ended December 31, 2012, and the year ended December 31, 2013, reported on by and accompanied by an unqualified report from KPMG LLP, present fairly, in all material respects, the consolidated financial condition of the Borrower and its consolidated Subsidiaries as at such date, and the consolidated results of its operations and its consolidated cash flows for the respective fiscal periods then ended. All such financial statements, including the related schedules and notes thereto, have been prepared in accordance with GAAP applied consistently throughout the periods involved (except as approved by the aforementioned firm of accountants and disclosed therein). No Group Member has any material Guarantee Obligations, contingent liabilities and liabilities for taxes, or any long-term leases or unusual forward or long-term commitments, including any interest rate or foreign currency swap or exchange transaction or other obligation in respect of derivatives, that are not reflected in the most recent financial statements referred to in this paragraph. During the period from December 31, 2013 to and including the date hereof there has been no Disposition by any Group Member of any material part of its business or property.

4.2 No Change. Since December 31, 2013, there has been no development or event that has had or could reasonably be expected to have a Material Adverse Effect.

4.3 Existence; Compliance with Law. Each Group Member (a) is duly organized, validly existing and in good standing under the laws of the jurisdiction of its organization, (b) has the power and authority, and the legal right, to own and operate its property, to lease the property it operates as lessee and to conduct the business in which it is currently engaged, (c) is duly qualified as a foreign corporation or other organization and in good standing under the laws of each jurisdiction where its ownership, lease or operation of property or the conduct of its business requires such qualification and (d) is in compliance with all Requirements of Law; except, in each case except clause (a) (only with respect to the Borrower and the Subsidiary Guarantors), to the extent that the failure to comply therewith could not, in the aggregate, reasonably be expected to have a Material Adverse Effect.

4.4 Power; Authorization; Enforceable Obligations. Each Loan Party has the power and authority, and the legal right, to make, deliver and perform the Loan Documents to which it is a party and, in the case of the Borrower, to obtain extensions of credit hereunder. Each Loan Party has taken all necessary organizational action to authorize the execution, delivery and performance of the Loan Documents to which it is a party and, in the case of the Borrower, to authorize the extensions of credit on the terms and conditions of this Agreement. No consent or authorization of, filing with, notice to or other

act by or in respect of, any Governmental Authority or any other Person is required in connection with the extensions of credit hereunder or with the execution, delivery, performance, validity or enforceability of this Agreement or any of the Loan Documents. Each Loan Document has been duly executed and delivered on behalf of each Loan Party party thereto. This Agreement constitutes, and each other Loan Document upon execution will constitute, a legal, valid and binding obligation of each Loan Party party thereto, enforceable against each such Loan Party in accordance with its terms, except as enforceability may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the enforcement of creditors' rights generally and by general equitable principles (whether enforcement is sought by proceedings in equity or at law).

4.5 No Legal Bar. The execution, delivery and performance of this Agreement and the other Loan Documents, the issuance of Letters of Credit, the borrowings hereunder and the use of the proceeds thereof will not violate any Requirement of Law or any material Contractual Obligation (except those to which waivers or consents have been obtained or to the extent the violation of such material Contractual Obligation could not reasonably be expected to have a Material Adverse Effect) of any Group Member and will not result in, or require, the creation or imposition of any Lien on any of their respective properties or revenues pursuant to any Requirement of Law or any such material Contractual Obligation. No Requirement of Law applicable to the Borrower or any of its Subsidiaries could reasonably be expected to have a Material Adverse Effect.

4.6 Litigation. Except as disclosed on Schedule 4.6 hereto, no litigation, investigation or proceeding of or before any arbitrator or Governmental Authority is pending or, to the knowledge of the Borrower, threatened in writing by or against any Group Member or against any of their respective properties or revenues (a) with respect to any of the Loan Documents or any of the transactions contemplated hereby or thereby, or (b) that could reasonably be expected to have a Material Adverse Effect.

4.7 No Default. No Group Member is in default under or with respect to any of its Contractual Obligations in any respect that could reasonably be expected to have a Material Adverse Effect. No Default or Event of Default has occurred and is continuing.

4.8 Ownership of Property; Liens. Each Group Member has title in fee simple to, or a valid leasehold interest in, all its real property, and good title to, or a valid leasehold interest in, all its other property, and none of such property is subject to any Lien except as permitted by Section 7.3, except as could not reasonably be expected to have a Material Adverse Effect.

4.9 Intellectual Property. Each Group Member owns, or is licensed to use, all Intellectual Property necessary for the conduct of its business as currently conducted, except as would not reasonably be expected to have a Material Adverse Effect. No claim has been asserted and is pending by any Person challenging any Intellectual Property owned by any Group Member, which would reasonably be expected to have any Material Adverse Effect. The conduct of the business by each Group Member does not infringe the rights of any Person, and to its knowledge, each Group Member's Intellectual Property is not being infringed by any Person, except in each case as would not reasonably be expected to have a Material Adverse Effect.

4.10 Taxes. Each Group Member has filed or caused to be filed all Federal, state, and other material tax returns that are required to be filed and has paid all taxes shown to be due and payable on said returns or on any assessments made against it or any of its property and all other taxes, fees or other charges imposed on it or any of its property by any Governmental Authority (other than taxes not

yet due and payable or being contested in good faith by appropriate proceedings and with respect to which reserves in conformity with GAAP have been provided on the books of the relevant Group Member); no tax Lien has been filed, and, to the knowledge of the Borrower, other than as disclosed on Schedule 4.10, no material claim is being asserted, with respect to any such tax, fee or other charge.

4.11 Federal Regulations. No part of the proceeds of any Loans, and no other extensions of credit hereunder, will be used (a) for “buying” or “carrying” any “margin stock” within the respective meanings of each of the quoted terms under Regulation U as now and from time to time hereafter in effect for any purpose that violates the provisions of the Regulations of the Board or (b) for any purpose that violates the provisions of the Regulations of the Board. If requested by any Lender or the Administrative Agent, the Borrower will furnish to the Administrative Agent and each Lender a statement to the foregoing effect in conformity with the requirements of FR Form G-3 or FR Form U-1, as applicable, referred to in Regulation U. The Borrower is not principally engaged in the business of extending credit for “buying” or “carrying” any “margin stock” within the respective meanings of each of the quoted terms under Regulation U as now and from time to time hereafter in effect for any purpose that violates the provisions of the Regulations of the Board.

4.12 Labor Matters. Except as, in the aggregate, could not reasonably be expected to have a Material Adverse Effect: (a) there are no strikes or other labor disputes against any Group Member pending or, to the knowledge of the Borrower, threatened; (b) hours worked by and payment made to employees of each Group Member have not been in violation in any material respect or in respect of any material amount under the Fair Labor Standards Act or any other applicable Requirement of Law dealing with such matters; and (c) all material payments due from any Group Member on account of employee health and welfare insurance have been paid or accrued as a liability on the books of the relevant Group Member.

4.13 ERISA. Neither the Borrower nor any Commonly Controlled Entity has (a) any Single Employer Plan that is in “at risk” status (within the meaning of Section 430 of the Code or Section 303 of ERISA), (b) failed to make a material contribution or material payment to any Single Employer Plan, or made any amendment to any Single Employer Plan, which has resulted in the imposition of a Lien or the posting of a bond or other security under Section 303(k) of ERISA or Section 401(a)(29) of the Code, or (c) incurred, or is reasonably likely to incur, any material liability under Title IV of ERISA.

4.14 Investment Company Act; Other Regulations. No Loan Party is required to register as an “investment company”, or a company “controlled” by an “investment company”, within the meaning of the Investment Company Act of 1940, as amended. No Loan Party is subject to regulation under any Requirement of Law (other than Regulation X of the Board) that limits its ability to incur Indebtedness.

4.15 Subsidiaries. Except as disclosed to the Administrative Agent by the Borrower in writing from time to time after the Closing Date, (a) Schedule 4.15 sets forth the name and jurisdiction of incorporation of each Subsidiary and, as to each such Subsidiary, the percentage of each class of Capital Stock owned by any Loan Party and (b) there are no outstanding subscriptions, options, warrants, calls, rights or other agreements or commitments (other than stock options, stock appreciation rights or restricted stock units granted to employees, officers, consultants or directors or stock issued pursuant to the Borrower’s stock purchase plans to employees, officers, consultants or directors and directors’ qualifying shares) of any nature relating to any Capital Stock of any Subsidiary, except as created by the Loan Documents.

4.16 Use of Proceeds. The proceeds of the Term Loans and Revolving Loans shall be used to repay amounts outstanding under the Existing Credit Agreement (including to pay related fees and expenses) and for working capital or general corporate purposes of the Borrower and its Subsidiaries. The Letters of Credit shall be used for general corporate purposes of the Borrower and its Subsidiaries.

4.17 Environmental Matters. Except as, in the aggregate, could not reasonably be expected to have a Material Adverse Effect:

- (a) each Group Member is, and within the period of all applicable statutes of limitation has been, in compliance with all applicable Environmental Laws;
- (b) Materials of Environmental Concern have not been released and are not present under circumstances that could be expected to result in a release at, on, under, in, or about any real property now or formerly owned, leased or operated by the Borrower or at any other location (including, to the knowledge of the Borrower, any location to which Materials of Environmental Concern have been sent for re-use or recycling or for treatment, storage, or disposal) which could reasonably be expected to give rise to liability of any Group Member under any applicable Environmental Law;
- (c) there is no judicial, administrative, or arbitral proceeding (including any notice of violation or alleged violation) under or relating to any Environmental Law to which any Group Member is, or to the knowledge of the Borrower will be, named as a party that is pending or, to the knowledge of the Borrower, threatened;
- (d) no Group Member has received any written request for information, or been notified that it is a potentially responsible party under or relating to the federal Comprehensive Environmental Response, Compensation, and Liability Act or any similar Environmental Law, or with respect to any Materials of Environmental Concern;
- (e) no Group Member has entered into or agreed to any consent decree, order, or settlement or other agreement, nor is subject to any judgment, decree, or order or other agreement, in any judicial, administrative, arbitral, or other forum, relating to compliance with or liability under any Environmental Law; and
- (f) no Group Member has entered into any agreement assuming any liabilities of any other Person under or related to any Environmental Law.

4.18 Accuracy of Information, etc. No statement or information contained in this Agreement, any other Loan Document, the Confidential Information Memorandum or any other document, certificate or written statement furnished by or on behalf of any Loan Party to the Administrative Agent or the Lenders, or any of them, for use in connection with the transactions contemplated by this Agreement or the other Loan Documents, taken as a whole, contained as of the date such statement, information, document or certificate was so furnished (or, in the case of the Confidential Information Memorandum, as of the date of this Agreement), any untrue statement of a material fact or omitted to state a material fact necessary to make the statements contained herein or therein not misleading in light of the circumstances in which such information was provided. The projections and pro forma financial information contained in the materials referenced above are based upon good faith estimates and assumptions believed by management of the Borrower to be reasonable at the time made, it being recognized by the Lenders that such financial information as it relates to future events is not to be viewed as fact and that actual results during the period or periods covered by such financial information

may differ from the projected results set forth therein by a material amount. There is no fact known to any Loan Party that could reasonably be expected to have a Material Adverse Effect that has not been expressly disclosed herein (including the Schedules hereto), in the other Loan Documents, in the Confidential Information Memorandum or in any other documents, certificates and statements furnished to the Administrative Agent and the Lenders for use in connection with the transactions contemplated hereby and by the other Loan Documents.

4.19 Solvency. Each Loan Party is, and after giving effect to the transactions contemplated hereby and the incurrence of all Indebtedness and obligations being incurred in connection herewith and therewith will be and will continue to be, Solvent.

4.20 Anti-Corruption Laws and Sanctions. The Borrower has implemented and maintains in effect policies and procedures designed to promote compliance by the Borrower and its Subsidiaries, and to the knowledge of the Borrower, their respective directors, officers, employees and agents, with Anti-Corruption Laws and applicable Sanctions, and the Borrower, its Subsidiaries and to the knowledge of the Borrower, their respective officers, employees, directors and agents, are in compliance with Anti-Corruption Laws and applicable Sanctions in all material respects. None of (a) the Borrower or any Subsidiary or (b) to the knowledge of the Borrower, any director, officer, agent, employee or other person acting on behalf of the Borrower or any Subsidiary, is a Sanctioned Person. No Loan or Letter of Credit, use of proceeds or other transaction contemplated by the Credit Agreement will violate Anti-Corruption Laws or applicable Sanctions.

SECTION 5. CONDITIONS PRECEDENT

5.1 Conditions to Initial Extension of Credit. The agreement of each Lender to make the initial extension of credit requested to be made by it is subject to the satisfaction, prior to or concurrently with the making of such extension of credit on the Closing Date, of the following conditions precedent:

(h) Approvals. All governmental and third party approvals necessary or, in the reasonable discretion of the Administrative Agent, advisable in connection with the continuing operations of the Group Members and the transactions contemplated hereby shall have been obtained and be in full force and effect, and all applicable waiting periods shall have expired without any action being taken or threatened by any competent authority that would restrain, prevent or otherwise impose adverse conditions on the financing contemplated hereby.

(i) Fees. The Lenders, the Administrative Agent, the arrangers and counsel to the Administrative Agent and the arrangers shall have received all fees required to be paid, and all expenses for which invoices have been presented at least three Business Days prior to the Closing Date or such later time as may be reasonable under the circumstances, but at least one Business Day prior to the Closing Date (including the reasonable fees and expenses of legal counsel), on or before the Closing Date. (d) Representations and Warranties. Each of the representations and warranties made by any Loan Party in or pursuant to the Loan Documents shall be true and correct in all material respects (unless such representations and warranties are already so qualified in which case, such representations and warranties shall be true and correct in all respects) on and as of such date as if made on and as of such date unless such representation relates solely to an earlier date, in which case such representation shall be true and correct as of such date.

(e) No Default. No Default or Event of Default shall have occurred and be continuing on such date or after giving effect to the extensions of credit requested to be made on such date.

Each borrowing by and issuance of a Letter of Credit on behalf of the Borrower hereunder shall constitute a representation and warranty by the Borrower as of the date of such extension of credit that the conditions contained in this Section 5.2 have been satisfied.

(y) one or more judgments or decrees shall be entered against any Group Member involving in the aggregate a liability (not paid or fully covered by insurance as to which the relevant insurance company has acknowledged coverage) of \$30,000,000 or more, and all such judgments or decrees shall not have been vacated, discharged, stayed or bonded pending appeal within 60 days from the entry thereof; or

then, and in any such event, (A) if such event is an Event of Default specified in clause (i) or (ii) of paragraph (f) above with respect to the Borrower, automatically the Commitments shall immediately terminate and the Loans (with accrued interest thereon) and all other amounts owing under this Agreement and the other Loan Documents (including all amounts of L/C Obligations, whether or not the beneficiaries of the then outstanding Letters of Credit shall have presented the documents required thereunder) shall immediately become due and payable, and (B) if such event is any other Event of Default, either or both of the following actions may be taken: (i) with the consent of the Required Lenders, the Administrative Agent may, or upon the request of the Required Lenders, the Administrative Agent shall, by notice to the Borrower declare the Revolving Commitments to be terminated forthwith, whereupon the Revolving Commitments shall immediately terminate; and (ii) with the consent of the Required Lenders, the Administrative Agent may, or upon the request of the Required Lenders, the Administrative Agent shall, by notice to the Borrower, declare the Loans (with accrued interest thereon) and all other amounts owing under this Agreement and the other Loan Documents (including all amounts of L/C Obligations, whether or not the beneficiaries of the then outstanding Letters of Credit shall have presented the documents required thereunder) to be due and payable forthwith, whereupon the same shall

immediately become due and payable. With respect to all Letters of Credit with respect to which presentment for honor shall not have occurred at the time of an acceleration pursuant to this paragraph, the Borrower shall at such time deposit in a cash collateral account opened by the Administrative Agent an amount equal to the aggregate then undrawn and unexpired amount of such Letters of Credit and all such amounts deposited shall be applied to reduce the outstanding L/C Obligations. Amounts held in such cash collateral account shall be applied by the Administrative Agent to the payment of drafts drawn under such Letters of Credit, and the unused portion thereof after all such Letters of Credit shall have expired or been fully drawn upon, if any, shall be applied to repay other obligations of the Borrower hereunder and under the other Loan Documents. After all such Letters of Credit shall have expired or been fully drawn upon, all Reimbursement Obligations shall have been satisfied and all other obligations of the Borrower hereunder and under the other Loan Documents shall have been paid in full, the balance, if any, in such cash collateral account shall be returned to the Borrower (or such other Person as may be lawfully entitled thereto). SECTION 9. THE AGENTS

9.1 Appointment. Each Lender hereby irrevocably designates and appoints the Administrative Agent as the agent of such Lender under this Agreement and the other Loan Documents, and each such Lender irrevocably authorizes the Administrative Agent, in such capacity, to take such action on its behalf under the provisions of this Agreement and the other Loan Documents and to exercise such powers and perform such duties as are expressly delegated to the Administrative Agent by the terms of this Agreement and the other Loan Documents, together with such other powers as are reasonably incidental thereto. Notwithstanding any provision to the contrary elsewhere in this Agreement, the Administrative Agent shall not have any duties or responsibilities, except those expressly set forth herein, or any fiduciary relationship with any Lender, and no implied covenants, functions, responsibilities, duties, obligations or liabilities shall be read into this Agreement or any other Loan Document or otherwise exist against the Administrative Agent.

9.2 Delegation of Duties. The Administrative Agent may execute any of its duties under this Agreement and the other Loan Documents by or through agents or attorneys-in-fact and shall be entitled to advice of counsel concerning all matters pertaining to such duties. The Administrative Agent shall not be responsible for the negligence or misconduct of any agents or attorneys in-fact selected by it with reasonable care.

9.3 Exculpatory Provisions. Neither any Agent nor any of their respective officers, directors, employees, agents, advisors, attorneys-in-fact or affiliates shall be (i) liable for any action lawfully taken or omitted to be taken by it or such Person under or in connection with this Agreement or any other Loan Document (except to the extent that any of the foregoing are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from its or such Person's own gross negligence or willful misconduct) or (ii) responsible in any manner to any of the Lenders for any recitals, statements, representations or warranties made by any Loan Party or any officer thereof contained in this Agreement or any other Loan Document or in any certificate, report, statement or other document referred to or provided for in, or received by the Agents under or in connection with, this Agreement or any other Loan Document or for the value, validity, effectiveness, genuineness, enforceability or sufficiency of this Agreement or any other Loan Document or for any failure of any Loan Party a party thereto to perform its obligations hereunder or thereunder. The Agents shall not be under any obligation to any Lender to ascertain or to inquire as to the observance or performance of any

of the agreements contained in, or conditions of, this Agreement or any other Loan Document, or to inspect the properties, books or records of any Loan Party.

9.4 Reliance by Administrative Agent. The Administrative Agent shall be entitled to rely, and shall be fully protected in relying, upon any instrument, writing, resolution, notice, consent, certificate, affidavit, letter, telecopy, email message, statement, order or other document or conversation believed by it to be genuine and correct and to have been signed, sent or made by the proper Person or Persons and upon advice and statements of legal counsel (including counsel to the Borrower), independent accountants and other experts selected by the Administrative Agent. The Administrative Agent may deem and treat the payee of any Note as the owner thereof for all purposes unless a written notice of assignment, negotiation or transfer thereof shall have been filed with the Administrative Agent. The Administrative Agent shall be fully justified in failing or refusing to take any action under this Agreement or any other Loan Document unless it shall first receive such advice or concurrence of the Required Lenders (or, if so specified by this Agreement, all Lenders) as it deems appropriate or it shall first be indemnified to its satisfaction by the Lenders against any and all liability and expense that may be incurred by it by reason of taking or continuing to take any such action. The Administrative Agent shall in all cases be fully protected in acting, or in refraining from acting, under this Agreement and the other Loan Documents in accordance with a request of the Required Lenders (or, if so specified by this Agreement, all Lenders), and such request and any action taken or failure to act pursuant thereto shall be binding upon all the Lenders and all future holders of the Loans.

9.5 Notice of Default. The Administrative Agent shall not be deemed to have knowledge or notice of the occurrence of any Default or Event of Default unless the Administrative Agent has received notice from a Lender or the Borrower referring to this Agreement, describing such Default or Event of Default and stating that such notice is a "notice of default". In the event that the Administrative Agent receives such a notice, the Administrative Agent shall give notice thereof to the Lenders. The Administrative Agent shall take such action with respect to such Default or Event of Default as shall be reasonably directed by the Required Lenders (or, if so specified by this Agreement, all Lenders); provided that unless and until the Administrative Agent shall have received such directions, the Administrative Agent may (but shall not be obligated to) take such action, or refrain from taking such action, with respect to such Default or Event of Default as it shall deem advisable in the best interests of the Lenders.

9.6 Non-Reliance on Agents and Other Lenders. Each Lender expressly acknowledges that neither the Agents nor any of their respective officers, directors, employees, agents, advisors, attorneys-in-fact or affiliates have made any representations or warranties to it and that no act by any Agent hereafter taken, including any review of the affairs of a Loan Party or any affiliate of a Loan Party, shall be deemed to constitute any representation or warranty by any Agent to any Lender. Each Lender represents to the Agents that it has, independently and without reliance upon any Agent or any other Lender, and based on such documents and information as it has deemed appropriate, made its own appraisal of and investigation into the business, operations, property, financial and other condition and creditworthiness of the Loan Parties and their affiliates and made its own decision to make its Loans hereunder and enter into this Agreement. Each Lender also represents that it will, independently and without reliance upon any Agent or any other Lender, and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit analysis, appraisals and decisions in taking or not taking action under this Agreement and the other Loan Documents, and to make such investigation as it deems necessary to inform itself as to the business, operations, property, financial and other condition and creditworthiness of the Loan Parties and their affiliates. Except for notices, reports and other documents expressly required to be furnished to the Lenders by the Administrative Agent hereunder, the Administrative Agent shall not have any duty or responsibility to provide any Lender with

any credit or other information concerning the business, operations, property, condition (financial or otherwise), prospects or creditworthiness of any Loan Party or any affiliate of a Loan Party that may come into the possession of the Administrative Agent or any of its officers, directors, employees, agents, advisors, attorneys-in-fact or affiliates.

9.7 Indemnification. The Lenders agree to indemnify each Agent in its capacity as such and its officers, directors, employees, affiliates, agents, advisors, and controlling persons (each an “Agent Indemnitee”) (to the extent not reimbursed by the Borrower and without limiting the obligation of the Borrower to do so), ratably according to their respective Aggregate Exposure Percentages in effect on the date on which indemnification is sought under this Section (or, if indemnification is sought after the date upon which the Commitments shall have terminated and the Loans shall have been paid in full, ratably in accordance with such Aggregate Exposure Percentages immediately prior to such date), from and against any and all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind whatsoever that may at any time (whether before or after the payment of the Loans) be imposed on, incurred by or asserted against such Agent Indemnitee in any way relating to or arising out of, the Commitments, this Agreement, any of the other Loan Documents or any documents contemplated by or referred to herein or therein or the transactions contemplated hereby or thereby or any action taken or omitted by such Agent Indemnitee under or in connection with any of the foregoing; provided that no Lender shall be liable for the payment of any portion of such liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements that are found by final and nonappealable decision of a court of competent jurisdiction to have resulted from such Agent Indemnitee’s gross negligence or willful misconduct. The agreements in this Section shall survive the termination of the Agreement and payment of the Loans and all other amounts payable hereunder.

9.8 Agent in Its Individual Capacity. Each Agent and its affiliates may make loans to, accept deposits from and generally engage in any kind of business with any Loan Party as though such Agent were not an Agent. With respect to its Loans made or renewed by it and with respect to any Letter of Credit issued or participated in by it, each Agent shall have the same rights and powers under this Agreement and the other Loan Documents as any Lender and may exercise the same as though it were not an Agent, and the terms “Lender” and “Lenders” shall include each Agent in its individual capacity.

9.9 Successor Administrative Agent. The Administrative Agent may resign as Administrative Agent upon 10 days’ notice to the Lenders and the Borrower. If the Administrative Agent shall resign as Administrative Agent under this Agreement and the other Loan Documents, then the Required Lenders shall appoint from among the Lenders a successor agent for the Lenders, which successor agent shall (unless an Event of Default under Section 8.1(a) or Section 8.1(f) with respect to the Borrower shall have occurred and be continuing) be subject to approval by the Borrower (which approval shall not be unreasonably withheld or delayed), whereupon such successor agent shall succeed to the rights, powers and duties of the Administrative Agent, and the term “Administrative Agent” shall mean such successor agent effective upon such appointment and approval, and the former Administrative Agent’s rights, powers and duties as Administrative Agent shall be terminated, without any other or further act or deed on the part of such former Administrative Agent or any of the parties to this Agreement or any holders of the Loans. If no successor agent has accepted appointment as Administrative Agent by the date that is 10 days following a retiring Administrative Agent’s notice of resignation, the retiring Administrative Agent’s resignation shall nevertheless thereupon become effective, and the Lenders shall assume and perform all of the duties of the Administrative Agent hereunder until such time, if any, as the Required Lenders appoint a successor agent as provided for above. After any retiring Administrative Agent’s resignation as Administrative Agent, the provisions of this Section 9 and Section 10.5 shall

continue to inure to its benefit as to any actions taken or omitted to be taken by it while it was Administrative Agent under this Agreement and the other Loan Documents.

9.10 Co-Syndication Agents and Co-Documentation Agents. The Co-Syndication Agents and Co-Documentation Agents shall have no duties or responsibilities hereunder in their capacity as such.

SECTION 10. MISCELLANEOUS

10.1 Amendments and Waivers. Neither this Agreement, any other Loan Document, nor any terms hereof or thereof may be amended, supplemented or modified except in accordance with the provisions of this Section 10.1. The Required Lenders and each Loan Party party to the relevant Loan Document may, or, with the written consent of the Required Lenders, the Administrative Agent and each Loan Party party to the relevant Loan Document may, from time to time, (a) enter into written amendments, supplements or modifications hereto and to the other Loan Documents for the purpose of adding any provisions to this Agreement or the other Loan Documents or changing in any manner the rights of the Lenders or of the Loan Parties hereunder or thereunder or (b) waive, on such terms and conditions as the Required Lenders or the Administrative Agent, as the case may be, may specify in such instrument, any of the requirements of this Agreement or the other Loan Documents or any Default or Event of Default and its consequences; provided, however, that no such waiver and no such amendment, supplement or modification shall (i) forgive the principal amount or extend the final scheduled date of maturity of any Loan, extend the scheduled date of any amortization payment in respect of any Term Loan, reduce the stated rate of any interest or fee payable hereunder (except (x) in connection with the waiver of applicability of any post-default increase in interest rates (which waiver shall be effective with the consent of the Majority Facility Lenders of each adversely affected Facility) and (y) that any amendment or modification of defined terms used in the financial covenants in this Agreement shall not constitute a reduction in the rate of interest or fees for purposes of this clause (i)) or extend the scheduled date of any payment thereof, or increase the amount or extend the expiration date of any Lender's Revolving Commitment, in each case without the written consent of each Lender directly affected thereby; (ii) eliminate or reduce the voting rights of any Lender under this Section 10.1 without the written consent of such Lender; (iii) reduce any percentage specified in the definition of "Required Lenders," consent to the assignment or transfer by the Borrower of any of its rights and obligations under this Agreement and the other Loan Documents, release or limit any Subsidiary Guarantor that is a Material Subsidiary from its obligations under the Guarantee (other than pursuant to Section 10.14 hereof), in each case without the written consent of all Lenders; (iv) amend, modify or waive any provision of Section 2.15 without the written consent of all Lenders under each Facility adversely affected thereby; (v) reduce the amount of Net Cash Proceeds required to be applied to prepay Loans under this Agreement without the written consent of the Majority Facility Lenders with respect to each Facility; (vi) reduce the percentage specified in the definition of "Majority Facility Lenders" with respect to any Facility without the written consent of all Lenders under such Facility; (vii) amend, modify or waive any provision of Section 9 or any other provision of any Loan Document that affects the Administrative Agent without the written consent of the Administrative Agent; (viii) amend, modify or waive any provision of Section 3 without the written consent of the Issuing Lender or (ix) amend, modify or waive any provision of Section 2.21 without the written consent of the Issuing Lender and the Administrative Agent. Any such waiver and any such amendment, supplement or modification shall apply equally to each of the Lenders and shall be binding upon the Loan Parties, the Lenders, the Administrative Agent and all future holders of the Loans. In the case of any waiver, the Loan Parties, the Lenders and the Administrative Agent shall be restored to their former position and rights hereunder and under the other Loan Documents, and any Default or Event of Default waived shall be deemed to be cured and not continuing; but no such waiver

shall extend to any subsequent or other Default or Event of Default, or impair any right consequent thereon.

Notwithstanding this Section 10.1, the Commitments of any Defaulting Lender shall be disregarded for all purposes of any determination of whether the Required Lenders have taken or may take any action hereunder (including any consent to any waiver, amendment, supplement or modification pursuant to this Section 10.1); provided that any waiver, amendment, supplement or modification of the type described in clause (i) of this Section 10.1 shall require the consent of any Defaulting Lender.

Notwithstanding the foregoing, this Agreement may be amended (or amended and restated) with the written consent of the Required Lenders, the Administrative Agent and the Borrower (a) to add one or more additional credit facilities to this Agreement and to permit the extensions of credit from time to time outstanding thereunder and the accrued interest and fees in respect thereof to share ratably in the benefits of this Agreement and the other Loan Documents with the Term Loans and Revolving Extensions of Credit and the accrued interest and fees in respect thereof and (b) to include appropriately the Lenders holding such credit facilities in any determination of the Required Lenders and Majority Facility Lenders.

In addition, notwithstanding the foregoing, this Agreement may be amended with the written consent of the Administrative Agent, the Borrower and the Lenders providing the relevant Replacement Term Loans (as defined below) to permit the refinancing, replacement or modification of all or a portion of the outstanding Term Loans having the same terms ("Replaced Term Loans") with a replacement term loan tranche hereunder ("Replacement Term Loans"), provided that (a) the aggregate principal amount of such Replacement Term Loans shall not exceed the aggregate principal amount of such Replaced Term Loans and (b) the Weighted Average Life to Maturity of such Replacement Term Loans shall not be shorter than the Weighted Average Life to Maturity of such Replaced Term Loans at the time of such refinancing.

Further, notwithstanding anything to the contrary contained in this Section 10.1, this Agreement may be amended to extend the maturity date of outstanding Term Loans and/or Revolving Commitments pursuant to one or more offers made from time to time by the Borrower to all the Lenders on a *pro rata* basis (based on the aggregate outstanding principal amount of the respective Term Loans or Revolving Commitments) and on the same terms to each such Lender, with the written consent of the Administrative Agent, the Borrowers and each of the Lenders holding Loans having an extended maturity date. Each group of Term Loans or Revolving Commitments so extended shall constitute a separate tranche with the same terms as the original Term Loans or Revolving Commitments.

Furthermore, notwithstanding the foregoing, the Administrative Agent, with the consent of the Borrower, may amend, modify or supplement any Loan Document without the consent of any Lender or the Required Lenders in order to correct, amend or cure any inconsistency or defect or correct any typographical error or other manifest error in any Loan Document.

10.3 No Waiver; Cumulative Remedies. No failure to exercise and no delay in exercising, on the part of the Administrative Agent or any Lender, any right, remedy, power or privilege hereunder or under the other Loan Documents shall operate as a waiver thereof; nor shall any single or partial exercise of any right, remedy, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege. The rights, remedies, powers and privileges herein provided are cumulative and not exclusive of any rights, remedies, powers and privileges provided by law.

10.4 Survival of Representations and Warranties. All representations and warranties made hereunder, in the other Loan Documents and in any document, certificate or statement delivered pursuant hereto or in connection herewith shall survive the execution and delivery of this Agreement and the making of the Loans and other extensions of credit hereunder.

10.5 Payment of Expenses and Taxes. The Borrower agrees (a) to pay or reimburse the Administrative Agent for all its reasonable and documented out-of-pocket costs and expenses incurred

in connection with the development, preparation and execution of, and any amendment, supplement or modification to, this Agreement and the other Loan Documents and any other documents prepared in connection herewith or therewith, and the consummation and administration of the transactions contemplated hereby and thereby, including the reasonable and documented fees and disbursements of counsel to the Administrative Agent and filing and recording fees and expenses, with statements with respect to the foregoing to be submitted to the Borrower prior to the Closing Date (in the case of amounts to be paid on the Closing Date) and from time to time thereafter on a quarterly basis or such other periodic basis as the Administrative Agent shall deem appropriate, (b) to pay or reimburse each Lender and the Administrative Agent for all its reasonable and documented out-of-pocket costs and expenses incurred in connection with the enforcement or preservation of any rights under this Agreement, the other Loan Documents and any such other documents, including the reasonable and documented fees and disbursements of counsel to each Lender and of counsel to the Administrative Agent, (c) to pay, indemnify, and hold each Lender and the Administrative Agent harmless from, any and all recording and filing fees and any and all liabilities with respect to, or resulting from any delay in paying, stamp, excise and other similar taxes, if any, that may be payable or determined to be payable in connection with the execution and delivery of, or consummation or administration of any of the transactions contemplated by, or any amendment, supplement or modification of, or any waiver or consent under or in respect of, this Agreement, the other Loan Documents and any such other documents, and (d) to pay, indemnify, and hold each Lender, Issuing Lender and the Administrative Agent and their respective officers, directors, employees, affiliates, agents and controlling persons (each, an “Indemnitee”) harmless from and against any and all other liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind or nature whatsoever with respect to the execution, delivery, enforcement, performance and administration of this Agreement, the other Loan Documents and any such other documents, including any of the foregoing relating to the use of proceeds of the Loans or Letter of Credit (including any refusal by the Issuing Lender to honor a demand for payment under a Letter of Credit if the documents presented in connection with such demand do not strictly comply with the terms of such Letter of Credit) or the violation of, noncompliance with or liability under, any Environmental Law applicable to any Group Member including with respect to any property at any time owned, leased, or used by any Group Member, or any orders, requirements or demands of Governmental Authorities related thereto or any actual or prospective claim, litigation, investigation or proceeding relating to any of the foregoing, whether or not such claim, litigation, investigation or proceeding is brought by the Borrower or any other Loan Party or their respective equity holders, Affiliates, creditors or any other third Person and whether based on contract, tort or any other theory and regardless of whether any Indemnitee is a party thereto, and the reasonable and documented fees and expenses of legal counsel (limited to one counsel for all Indemnitees taken as a whole and, if reasonably necessary, a single local counsel for all Indemnitees taken as a whole in each relevant jurisdiction and, solely in the case of a conflict of interest, one additional counsel (and, if reasonably necessary, one firm of local counsel in each relevant jurisdiction) to each group of affected Indemnitees similarly situated taken as a whole) and other reasonable and documented out-of-pocket expenses incurred in connection with investigating or defending any of the foregoing in connection with claims, actions or proceedings by any Indemnitee against any Loan Party under any Loan Document (all the foregoing in this clause (d), collectively, the “Indemnified Liabilities”), provided, that the Borrower shall have no obligation hereunder to any Indemnitee with respect to Indemnified Liabilities (i) to the extent such Indemnified Liabilities are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from the gross negligence or willful misconduct of such Indemnitee, (ii) to the extent they are found by a final and nonappealable decision of a court of competent jurisdiction to have resulted from a material breach of the obligations of such Indemnitee under any Loan Document and (iii) to the extent arising from any dispute solely among Indemnitees other than against any Indemnitee in its capacity or in fulfilling its role as Administrative Agent or arranger or any similar role under this Agreement and other than any claims

arising out of any act or omission on the part of the Borrower or its Affiliates (as determined by a final and nonappealable decision of a court of competent jurisdiction). Without limiting the foregoing, and to the extent permitted by applicable law, the Borrower agrees not to assert and to cause its Subsidiaries not to assert, and hereby waives and agrees to cause its Subsidiaries to waive, all rights for contribution or any other rights of recovery with respect to all claims, demands, penalties, fines, liabilities, settlements, damages, costs and expenses of whatever kind or nature, under or related to Environmental Laws, that any of them might have by statute or otherwise against any Indemnitee. The Borrower shall not be liable for any settlement of any action effected without the Borrower's consent (which consent shall not be unreasonably withheld, conditioned or delayed), but if settled with the Borrower's written consent or if there is a final judgment in any such actions, the Borrower agrees to indemnify and hold harmless each Indemnitee from and against any and all losses, claims, damages, liabilities and expenses by reason of such settlement or judgment in accordance with this Section. Notwithstanding the immediately preceding sentence, if at any time an Indemnitee shall have requested confirmation of the Borrower's obligation to indemnify such indemnified person in accordance with this Agreement, the Borrower shall be liable for any settlement or other action referred to in the immediately preceding sentence effected without the Borrower's consent if (a) such settlement or other action is entered into more than 30 days after receipt by the Borrower of such request for confirmation and (b) the Borrower shall not have provided such confirmation in accordance with such request prior to the date of such settlement or other action. The Borrower shall not, without the prior written consent of an Indemnitee (which consent shall not be unreasonably withheld, conditioned or delayed), effect any settlement of any pending or threatened actions in respect of which indemnity could have been sought hereunder by such Indemnitee unless such settlement (a) includes an unconditional release of such Indemnitee in form and substance reasonably satisfactory to such Indemnitee (which approval shall not be unreasonably withheld, conditioned or delayed) from all liability on claims that are the subject matter of such actions and (b) does not include any statement as to or any admission of fault, culpability or a failure to act by or on behalf of such Indemnitee. Notwithstanding the foregoing, each Indemnitee shall be obligated to refund or return promptly any and all amounts paid by the Borrower or on the Borrower's behalf under this Section to such Indemnitee for any such losses, claims, damages, liabilities or expenses to the extent such Indemnitee is not entitled to payment of such amounts in accordance with the terms hereof. All amounts due under this Section 10.5 shall be payable not later than 10 days after written demand therefor. Statements payable by the Borrower pursuant to this Section 10.5 shall be submitted to the Borrower at the address set forth in Section 10.2, or to such other Person or address as may be hereafter designated by the Borrower in a written notice to the Administrative Agent. The agreements in this Section 10.5 shall survive repayment of the Loans and all other amounts payable hereunder.

10.6 Successors and Assigns; Participations and Assignments. (c) The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns permitted hereby (including any Affiliate of the Issuing Lender that issues any Letter of Credit), except that (i) the Borrower may not assign or otherwise transfer any of its rights or obligations hereunder without the prior written consent of each Lender (and any attempted assignment or transfer by the Borrower without such consent shall be null and void) and (ii) no Lender may assign or otherwise transfer its rights or obligations hereunder except in accordance with this Section.

(d) (i) Subject to the conditions set forth in paragraph (b)(ii) below, any Lender may assign to one or more assignees (other than a natural person or any Disqualified Institutions (except to the extent the Borrower has consented to such assignment, it being understood that the list of Disqualified Institutions shall be available to all Lenders); provided that, notwithstanding anything to the contrary, the Administrative Agent shall not have any obligation to determine whether any potential assignee is a Disqualified Institution or any liability with respect to any assignment made to

a Disqualified Institution) (each, an “Assignee”) all or a portion of its rights and obligations under this Agreement (including all or a portion of its Commitments and the Loans at the time owing to it) with the prior written consent of:

(A) the Borrower (such consent not to be unreasonably withheld or delayed), provided that no consent of the Borrower shall be required for an assignment to a Lender, an Affiliate of a Lender, an Approved Fund (as defined below) or, if an Event of Default under Section 8.1(a) or (f) has occurred and is continuing, any other Person; and provided, further, that the Borrower shall be deemed to have consented to any such assignment unless the Borrower shall object thereto by written notice to the Administrative Agent within ten days after having received notice thereof;

(B) the Administrative Agent (such consent not to be unreasonably withheld or delayed), provided that no consent of the Administrative Agent shall be required for an assignment of all or any portion of a Term Loan to a Lender, an Affiliate of a Lender or an Approved Fund; and

(C) the Issuing Lender (such consent not to be unreasonably withheld), provided that no consent of the Issuing Lender shall be required for an assignment of all or any portion of a Term Loan.

(ii) Assignments shall be subject to the following additional conditions:

(A) except in the case of an assignment to a Lender, an Affiliate of a Lender or an Approved Fund or an assignment of the entire remaining amount of the assigning Lender’s Commitments or Loans under any Facility, the amount of the Commitments or Loans of the assigning Lender subject to each such assignment (determined as of the date the Assignment and Assumption with respect to such assignment is delivered to the Administrative Agent) shall not be less than \$5,000,000 (or, in the case of the Term Facility, \$1,000,000) unless each of the Borrower and the Administrative Agent otherwise consent, provided that (1) no such consent of the Borrower shall be required if an Event of Default under Section 8.1(a) or (f) has occurred and is continuing and (2) such amounts shall be aggregated in respect of each Lender and its Affiliates or Approved Funds, if any;

(B) the parties to each assignment shall execute and deliver to the Administrative Agent an Assignment and Assumption, together with a processing and recordation fee of \$3,500; and

(C) the Assignee, if it shall not be a Lender, shall deliver to the Administrative Agent an administrative questionnaire.

For the purposes of this Section 10.6, “Approved Fund” means any Person (other than a natural person) that is engaged in making, purchasing, holding or investing in bank loans and similar extensions of credit in the ordinary course of its business and that is administered or managed by (a) a Lender, (b) an Affiliate of a Lender or (c) an entity or an Affiliate of an entity that administers or manages a Lender.

(iii) Subject to acceptance and recording thereof pursuant to paragraph (b)(iv) below, from and after the effective date specified in each Assignment and Assumption the Assignee thereunder shall be a party hereto and, to the extent of the interest assigned by such

Assignment and Assumption, have the rights and obligations of a Lender under this Agreement, and the assigning Lender thereunder shall, to the extent of the interest assigned by such Assignment and Assumption, be released from its obligations under this Agreement (and, in the case of an Assignment and Assumption covering all of the assigning Lender's rights and obligations under this Agreement, such Lender shall cease to be a party hereto but shall continue to be entitled to the benefits of Sections 2.16, 2.17, 2.18 and 10.5). Any assignment or transfer by a Lender of rights or obligations under this Agreement that does not comply with this Section 10.6 shall be treated for purposes of this Agreement as a sale by such Lender of a participation in such rights and obligations in accordance with paragraph (c) of this Section.

(iv) The Administrative Agent, acting for this purpose as an agent of the Borrower, shall maintain at one of its offices a copy of each Assignment and Assumption delivered to it and a register for the recordation of the names and addresses of the Lenders, and the Commitments of, and principal amount (and stated interest) of the Loans and L/C Obligations owing to, each Lender pursuant to the terms hereof from time to time (the "Register"). The entries in the Register shall be conclusive absent manifest error, and the Borrower, the Administrative Agent, the Issuing Lender and the Lenders shall treat each Person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement, notwithstanding notice to the contrary. The Register shall be available for inspection by the Borrower and any Lender at any reasonable time and from time to time upon reasonable prior notice.

(v) Upon its receipt of a duly completed Assignment and Assumption executed by an assigning Lender and an Assignee, the Assignee's completed administrative questionnaire (unless the Assignee shall already be a Lender hereunder), the processing and recordation fee referred to in paragraph (b) of this Section and any written consent to such assignment required by paragraph (b) of this Section, the Administrative Agent shall accept such Assignment and Assumption and record the information contained therein in the Register. No assignment shall be effective for purposes of this Agreement unless it has been recorded in the Register as provided in this paragraph.

(e) (i) Any Lender may, without the consent of the Borrower or the Administrative Agent, sell participations to one or more banks or other entities (other than any natural person or Disqualified Institutions (except to the extent the Borrower has consented to such participation, it being understood that the list of Disqualified Institutions shall be available to all Lenders); provided that, notwithstanding anything to the contrary, the Administrative Agent shall not have any obligation to determine whether any potential participant is a Disqualified Institution or any liability with respect to any participation sold to a Disqualified Institution) (a "Participant") in all or a portion of such Lender's rights and obligations under this Agreement (including all or a portion of its Commitments and the Loans owing to it); provided that (A) such Lender's obligations under this Agreement shall remain unchanged, (B) such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations and (C) the Borrower, the Administrative Agent, the Issuing Lender and the other Lenders shall continue to deal solely and directly with such Lender in connection with such Lender's rights and obligations under this Agreement. Any agreement pursuant to which a Lender sells such a participation shall provide that such Lender shall retain the sole right to enforce this Agreement and to approve any amendment, modification or waiver of any provision of this Agreement; provided that such agreement may provide that such Lender will not, without the consent of the Participant, agree to any amendment, modification or waiver that (1) requires the consent of each Lender directly affected thereby pursuant to the proviso to the second

sentence of Section 10.1 and (2) directly affects such Participant. Subject to paragraph (c)(ii) of this Section, the Borrower agrees that each Participant shall be entitled to the benefits of, and subject to the limitations of, Sections 2.16, 2.17 and 2.18 to the same extent as if it were a Lender and had acquired its interest by assignment pursuant to paragraph (b) of this Section. To the extent permitted by law, each Participant also shall be entitled to the benefits of Section 10.7(b) as though it were a Lender, provided such Participant shall be subject to Section 10.7(a) as though it were a Lender. Each Lender that sells a participation, acting solely for this purpose as a non-fiduciary agent of the Borrower, shall maintain a register on which it enters the name and address of each Participant and the principal amounts (and stated interest) of each Participant's interest in the Loans or other obligations under this Agreement (the "Participant Register"); provided that no Lender shall have any obligation to disclose all or any portion of the Participant Register to any Person (including the identity of any Participant or any information relating to a Participant's interest in any Commitments, Loans, Letters of Credit or its other obligations under any Loan Document) except to the extent that such disclosure is necessary to establish that such Commitment, Loan, Letter of Credit or other obligation is in registered form under Section 5f.103-1(c) of the United States Treasury Regulations. The entries in the Participant Register shall be conclusive absent manifest error, and such Lender, each Loan Party and the Administrative Agent shall treat each person whose name is recorded in the Participant Register pursuant to the terms hereof as the owner of such participation for all purposes of this Agreement, notwithstanding notice to the contrary.

(ii) A Participant shall not be entitled to receive any greater payment under Section 2.16 or 2.17 than the applicable Lender would have been entitled to receive with respect to the participation sold to such Participant, unless the sale of the participation to such Participant is made with the Borrower's prior written consent. No Participant shall be entitled to the benefits of Section 2.17 unless such Participant complies with Section 2.17(d), (e) and (f) as if it were a Lender.

(f) Any Lender may at any time pledge or assign a security interest in all or any portion of its rights under this Agreement to secure obligations of such Lender, including any pledge or assignment to secure obligations to a Federal Reserve Bank, and this Section shall not apply to any such pledge or assignment of a security interest; provided that no such pledge or assignment of a security interest shall release a Lender from any of its obligations hereunder or substitute any such pledgee or Assignee for such Lender as a party hereto.

(g) The Borrower, upon receipt of written notice from the relevant Lender, agrees to issue Notes to any Lender requiring Notes to facilitate transactions of the type described in paragraph (d) above.

(h) Notwithstanding the foregoing, any Conduit Lender may assign any or all of the Loans it may have funded hereunder to its designating Lender without the consent of the Borrower or the Administrative Agent and without regard to the limitations set forth in Section 10.6(b). Each of the Borrower, each Lender and the Administrative Agent hereby confirms that it will not institute against a Conduit Lender or join any other Person in instituting against a Conduit Lender any bankruptcy, reorganization, arrangement, insolvency or liquidation proceeding under any state bankruptcy or similar law, for one year and one day after the payment in full of the latest maturing commercial paper note issued by such Conduit Lender; provided, however, that each Lender designating any Conduit Lender hereby agrees to indemnify, save and hold harmless each other party hereto for any loss, cost, damage or expense arising out of its inability to institute such a proceeding against such Conduit Lender during such period of forbearance.

10.7 Adjustments; Set-off. (g) Except to the extent that this Agreement expressly provides for payments to be allocated to a particular Lender or to the Lenders under a particular Facility, if any Lender (a "Benefitted Lender") shall, at any time after the Loans and other amounts payable hereunder shall immediately become due and payable pursuant to Section 8, receive any payment of all or part of the Obligations owing to it, or receive any collateral in respect thereof (whether voluntarily or involuntarily, by set-off, pursuant to events or proceedings of the nature referred to in Section 8.1(f), or otherwise), in a greater proportion than any such payment to or collateral received by any other Lender, if any, in respect of the Obligations owing to such other Lender, such Benefitted Lender shall purchase for cash from the other Lenders a participating interest in such portion of the Obligations owing to each such other Lender, or shall provide such other Lenders with the benefits of any such collateral, as shall be necessary to cause such Benefitted Lender to share the excess payment or benefits of such collateral ratably with each of the Lenders; provided, however, that if all or any portion of such excess payment or benefits is thereafter recovered from such Benefitted Lender, such purchase shall be rescinded, and the purchase price and benefits returned, to the extent of such recovery, but without interest.

(h) In addition to any rights and remedies of the Lenders provided by law, each Lender shall have the right, without prior notice to the Borrower, any such notice being expressly waived by the Borrower to the extent permitted by applicable law, upon the occurrence and during the Continuance of an Event of Default, to set off and appropriate and apply against such amount any and all deposits (general or special, time or demand, provisional or final), in any currency, and any other credits, indebtedness or claims, in any currency, in each case whether direct or indirect, absolute or contingent, matured or unmatured, at any time held or owing by such Lender or any branch or agency thereof to or for the credit or the account of the Borrower, as the case may be, provided that to the extent prohibited by applicable law as described in the definition of "Excluded Swap Obligation," no amount received from, or set-off with respect to, any Subsidiary Guarantor shall be applied to any Excluded Swap Obligation of such Subsidiary Guarantor. Each Lender agrees promptly to notify the Borrower and the Administrative Agent after any such setoff and application made by such Lender, provided that the failure to give such notice shall not affect the validity of such setoff and application.

10.8 Counterparts. This Agreement may be executed by one or more of the parties to this Agreement on any number of separate counterparts, and all of said counterparts taken together shall be deemed to constitute one and the same instrument. Delivery of an executed signature page of this Agreement by facsimile transmission or via email attachment shall be effective as delivery of a manually executed counterpart hereof. A set of the copies of this Agreement signed by all the parties shall be lodged with the Borrower and the Administrative Agent.

10.9 Severability. Any provision of this Agreement that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions hereof, and any such prohibition or unenforceability in any jurisdiction shall not invalidate or render unenforceable such provision in any other jurisdiction.

10.10 Integration. This Agreement and the other Loan Documents represent the entire agreement of the Borrower, the Administrative Agent and the Lenders with respect to the subject matter hereof and thereof, and there are no promises, undertakings, representations or warranties by the Administrative Agent or any Lender relative to the subject matter hereof not expressly set forth or referred to herein or in the other Loan Documents.

10.11 **GOVERNING LAW.** THIS AGREEMENT AND THE RIGHTS AND OBLIGATIONS OF THE PARTIES UNDER THIS AGREEMENT SHALL BE GOVERNED BY, AND CONSTRUED AND INTERPRETED IN ACCORDANCE WITH, THE LAW OF THE STATE OF NEW YORK.

10.12 Submission To Jurisdiction; Waivers. The Borrower hereby irrevocably and unconditionally:

(c) submits for itself and its property in any legal action or proceeding relating to this Agreement and the other Loan Documents to which it is a party, or for recognition and enforcement of any judgment in respect thereof, to the exclusive general jurisdiction of the courts of the State of New York, the courts of the United States for the Southern District of New York, and appellate courts from any thereof;

(d) consents that any such action or proceeding may be brought in such courts and waives any objection that it may now or hereafter have to the venue of any such action or proceeding in any such court or that such action or proceeding was brought in an inconvenient court and agrees not to plead or claim the same;

(e) agrees that service of process in any such action or proceeding may be effected by mailing a copy thereof by registered or certified mail (or any substantially similar form of mail), postage prepaid, to the Borrower, as the case may be at its address set forth in Section 10.2 or at such other address of which the Administrative Agent shall have been notified pursuant thereto;

(f) agrees that nothing herein shall affect the right to effect service of process in any other manner permitted by law or shall limit the right to sue in any other jurisdiction; and

(g) waives, to the maximum extent not prohibited by law, any right it may have to claim or recover in any legal action or proceeding referred to in this Section any special, exemplary, punitive or consequential damages.

10.13 Acknowledgements. The Borrower hereby acknowledges that:

(e) it has been advised by counsel in the negotiation, execution and delivery of this Agreement and the other Loan Documents;

(f) neither the Administrative Agent nor any other Credit Party has any fiduciary relationship with or duty to the Borrower arising out of or in connection with this Agreement or any of the other Loan Documents, and the relationship between Administrative Agent and the other Credit Parties, on one hand, and the Borrower, on the other hand, in connection herewith or therewith is solely that of debtor and creditor;
